MORE CHEERFUL NEWS

(Special to Journal of Commerce.)

(Special to Journal of Commerce.)

New York, June 30.—Ordinary Calcutta burlaps were quoted on the producing market at prices based on 241. Jute, which importers considered a long chance for manufacturers to take, toward close of week, showed a firmer tendency, being quotage at 286 198, a ton for first August delivery. This price was 5s a ton higher than early in the week. Dundeer exported the jute market firmer with a large amount of buying by the mills. Both the Calcutta and Dundee markets were reported to he steadier with more business passing in Moth.

dee markets were reported steadler with more business passing in cloth.

Encouraging News.

The first encouraging reports in a border first encouraging reports in a continued steadler with more business passing in cloth.

The first encouraging reports in a continued to the discourage of the market was steadler than yester-day at the first was comparatively in the continued to the passing of special public and that unless jute fell to much low as comparatively little business done for forward shipment, and that it was not likely demand business done for forward shipment, and that it was not likely demand business done.

There was a slightly easier tone permanent in the local wholesale butter with the local whole

Bradford Tops Better.

London.—Some improvement is reported in Bradford tops with 50%, and apward showing firmness; 40% and 41% are slightly easier. It is anticipated fine wools will be higher at the next sale here. Worsted yarns are quiet. Some buying of two fold warps and a few lines of staple men's wear serges by the United States is reported. Medium count coarse cotton yarns continue depressed and spinners are losing money on current business. Cotton cloth at Manehester is moving in the smallest volume in years and the market is frequiat. Reports from india of favorable monason progress, however, is encouraging hopes of a revival in business.

New Bedford, Mass.—Yarn spinners have curtailing production owing for impate the curtailing production owing for impate the curtailing production owing for impate the curtailine of the comment of the curtailine of the curtailine

CURTAILMENT OF PRODUCTION (Special to Journal of Commerce.)
New York, June 30.—Yarn spinning establishments in New England and the south continue their policy of drastic curtailment of production owing, to very poor current demand. Yarn prices are no weaker than they were at close of last year, but they are irregular in reflection of varying financial needs of sellers.

TORONTO GRAIN MARKET.

TORONTO GRAIN MARKET.

(Special Staff Correspondence.)
Toronto, June 30.—The only feature of interest to-day in the grain market was the continued weakness of cash wheat and oats. Prices of these is used followed the Winnipeg market. It was some cent lower than last night's close at 92% for No. 1 northern and 91% for No. 2. Oats were % ceasier at 42% for No. 1 northern and 91% for No. 2. Oats were % ceasier at 42% for No. 1 northern and 91% for No. 2. Oats were % ceasier at 50% for No. 2. Oats were % ceasier at 50% for No. 2. Oats were % ceasier at 50% for No. 2. LOCAL CASH MARKETS

Weakness was made apparent in the local coarse grains to-day, due to the weakening influences caused by the weakening influences caused by the western markets and the fact that there is oily a very small demand passing over the cable for oats. What bids are being received are out of line with local exporters' views by one cent and therefore little business can be accomplished. There is no trade being consummated in barley as there is not sufficient of the grain left to fill any kind of an order. Prices, therefore, are only nominal.

In the flour and milifeed markets there is very little business passing, and prices have shown no changes from yesterday's range. The local demand for milifeed, continues fair, however. There is little trade passing in rolled oats and prices are unstantial.

TORONTO LIVE STOCK.	

(Special Staff Correspondence.)

Toronto, June 30.—Receipts to-day were 59- cars, 667 cattle, 1,516 calves, 1067 thors and 62 sheep and lambs. A second light, run this week to date made the position of trade light. A lot of six steers brought \$8.65, while a load brought \$8.60. They weighed 1,300 pounds and 1,000 respectively. Very few of these were offering the bulk selling between \$8 and \$\$,50, bull choice coats held firm, demand being good medium to choice brought \$6 to \$7.65, run being aght. A slightly improved feeling prevailed for stockers and milkers, the former going between \$6 and \$7.25 for medium to good and the latter \$45 to \$80 with a few extra choice at \$90 each. Calves were strong, \$10.50 was freely paid, ranging down to \$7 for fair, sheep were steady, going between \$5 and \$6.25 for light. Ewes lambs tended up in inquiry being keen prices, being between \$10 and \$11.85 for good, swint were up twenty-five cents per hundred-weight. For off car bogs \$\$.75 was paid, while fed and watered brought \$5.50 and f.o.b. was quoted \$\$.

IMPROVING SITUATION

Last Twe Weeks of June Will Show Improvement Over First Half of Month.

(Special to Journal of Commerce.)

(Special to Journal of Commerce.)

New York, June 30th.—From Statistics to date. It is apparent that the steel industry will show less favorable returns for last half of June than in the first two weeks; this does not, however, apply to the United States Steel Corporation which booked more business last week than in earlier weeks of June. Its bookings continue to average 25,000 tons daily and the unfilled tonnage statement for June is expected to show little if any decrease in orders from the May item.

Higher prices are being quoted by both steel corporations and independents for delivery during the last quarter of 1914 and advances approximating two dollars per ton above market for prompt shipment. Jobbers stock on hand are low and they are doing it its business in New York City.

There has been a better demand of late for structural steel.

More Equipment Orders.

The is the Covering.

both steel corporations and independents for delivery during the last quarter of 1914 and advances approximating two dollars per ton above market for prompt shipment. Jobbers stock on hand are low and they are doing little pusiness in New York City.

There has been a better demand of atte for structural steel,

More Equipment Orders.

More ralis and equipment have also been ordered. The Toledo St. Louis and Western Railroad is expected to close contracts soon for a large ton-nage of ralls and it is thought that other roads will enter the market. It is expected that the Pennsylvania Railroads rail order will be awarded this week. Car inquiries are better and the Union Pacific will purchase 3,000 shortly.

Pig iron prices are steady and show a firmer tendency.

Number two foundry iron was advanced a syndicate of curvance seventy-five cents to \$13.00 per ton.

The American Bridge Company has a seleved contracts for 2,000 tons of fabricated structural steel for an uptown office building.
