

Cost Less than Stoves

A Hecla Furnace, installed on Hecla principles, will keep your house comfortable throughout the winter at less fuel expense than it would cost you for stoves. It is the old story, of course, of concentration meaning

power. In a Hecla, you get all the heat from the coal you burn and where you want it. The whole house is comfortably, and evenly heated and ventilated.

Hecla Furnaces

are equally adapted for mild or severe weather—always ready for any demand made on them. They are the only hot air furnaces that are absolutely healthful and sanitary.

No other furnace is made with the Fused Joints that patented feature of the Hecla which makes the escape of gas, dust or smoke into the house an impossibility. Let me tell you about these Fused Joints and about other features of the Hecla in which you will be interested.

The Best Finish for any Room

in any building, is given by our *Classified Steel Ceilings and Walls*. They have a rich and elegant appearance, which would cost many times as much in any other material. Yet they cost little more than plaster, and they're good forever.

Steel Ceilings and Walls

are sanitary, fire-proof and vermin-proof. They are easily cleaned, and beautifully decorated, at slight expense. They may be put on over old plaster, without dirt or muss, and in much less time than it would take to replaster.

Our Classified Steel Ceilings and Walls

are the best you can buy. They are classified according to prevailing styles of architecture, thus ensuring perfect harmony in decoration. Our complete working plans make it easy to erect a ceiling with positively invisible joints—one which you'll be proud of all your life.
