Unfortunately, the Captain did not bring
out her pedigree, else he could have easily
disposed of her at the price asked.

There was also a fine Fox Terrier, a
couple of Bull Terriers, sired by a relation
of Gully the Great, and a large Retriever
puppy. These also had no pedigrees,
though the Captain assured us he could
obtain them by writing.

Persons getting out dogs from England
or the east cannot lay too much stress on
the importance of having correct pedi-
grees. In England, it is not of so much
moment, as a man can easily find a mate
for a dog of any breed. Out here, it is
different, and, as there is often only one
specimen of a breed here, the owner is
tempted to mate it with some mongrel
that shows some of the points of the
thoroughbred, to the certain ruin of the
strain.

In the *Stock Keeper*, we notice that
Mr. Nutsford Carlisle has sent a
couple of Dachhounds to a party in Cali-
fornia. We should like to see some of the
stock come up this way. We think the
Dachhound would make a fine mink dog.

If you are using areca nut in treatment
for worms, get the whole nut and grate
it up on a nutmeg grater. You are thus
sure of getting the full strength of the
medicine.

Parties owning sporting dogs, such as
Setters and Spaniels, should keep them
under control at this time. We hear of
an old Spaniel that took her pup out
every day until found out, and destroyed
and eat a large quantity of pheasant eggs
and chicks. We imagine it will be a hard
job to break that pup to retrieve.

Our Fox Terrier notes are unavoidably
crowded out of this issue.

TIME'S UP!

Remember, it will soon be too late to
Breed Fancy Stock this year, so order
early. Thoroughbred Eggs for hatching.

The Chase Metallic Roof-Plate.

POINTS OF SUPERIORITY:

A Metallic Conducting Plate, covering the
roof of the mouth.

Thinness and perfect adaptation of the same.
The accuracy of adaptation to that portion
of the alveolar ridge with which the rubber or
celluloid comes in contact.

A plate when made by this method is much
lighter than an all gold plate, hence more
pleasing to the patient.

The metallic roof-plate cannot become de-
tached from the rubber, as the peculiar con-
struction renders it impossible.

It is one of the most cleanly, durable, com-
fortable and beautiful dentures ever devised.

The metallic plate can be reswaged in case
of absorption or shrinkage of the mouth, thus
saving the expense of new metal.

These plates can be fitted to any mouth,
however irregular or ill shaped.

Enunciation is much better than when the
roof of the mouth is covered by a rubber or cell-
uloid plate.

Perfect conduction of heat and cold, there-
by preventing inflammation of the mucous
membrane.

The peculiar and original method of making
these Plates renders it possible to give to
the patient the advantages of both a
Metallic and Rubber Plate at a
price within the reach of all.

TO THE ELECTORS.

—OF—

Victoria City Electoral District.

Gentlemen:—The general election now being
near at hand, and being a candidate for re-
election, I wish to place my views on some of
the questions commanding your attention, as
well as to intimate the line of action which I
shall take and the measures which I shall, if
opportunity permits, support and maintain.

The party now in power have practically
held office for over eleven years. Their policy
has been an indefinite one on many of the

questions requiring consideration. At the last
general election the Opposition advocated re-
form in the land laws of the province, and
have been able to make some important
changes.

The privilege of allowing speculators and
non-residents to take up large tracts of land
has been taken away and the lands are now
available for actual settlers.

By the efforts of the Opposition the assess-
ment of the wild land has been much in-
creased; the ad valorem principle of assess-
ment according to the land value, is now the
law.

There are two essential matters yet to be
carried out in connection with encouraging
of agricultural settlers. First, the surveying
of available lands for such a purpose and giving
the necessary information by the Lands and
Works Department; second, the making of
roads to such settlements, so that the farmer
may be able to bring his produce to market—
such a policy as this must be adopted in order
to develop and encourage the farming in-
dustry of our province. By so doing we shall
add much to our wealth and prosperity.

The railway policy of the Government has
not been a business-like one. From the time
of the grant given to the Esquimalt and Na-
naimo Railway down to the Nakusp and
Slocan deal, the interests of the province and
the welfare of the people have not been well
guarded. On the one hand a corporation
receives a large subsidy and an immense tract
of land, free from taxation forever; on the
other, a private company is subsidized by
guaranteeing the bonds to the full cost of the
road as well as interest on the same for
twenty-five years. One cannot but come to
the conclusion that a Government policy of
such a character is likely to bring the credit
of the province into disrepute.

Monopolies of any kind are to be deplored,
but monopolies backed by Government aid
and support are often the most difficult to
overcome. Government aid to such an extent
as has been given in the instances referred to
precludes other roads from being assisted or
built. As an instance of this we recognize
the difficulty of the British Pacific Railway
will have in dealing with the Esquimalt &
Nanaimo Railway and its existing rights.
Thus by the action of the present Government
in the past it looks as if the province were
at the mercy of ringsters and monopolists who
are despoiling the people of their heritage.

I am opposed to the executive using its
power to make large appropriations of money
by special warrant for roads, streets, bridges,
and public works, without first submitting
such to the Legislature. Such a course of
action leads to favoritism and corruption and
is not in accord with the principles of con-
stitutional government.

I have advocated, and will continue to do
so, the reduction of taxation on improvements
and the abolition of taxes on mortgages. The
latter impost presses doubly hard upon the
borrower, and the repeal of this law would be
in the interest and for the advancement of
the province.

The practice followed on the eve of a
general election of promising aid to public
works and institutions by members of the
executive should be condemned, as it is at-
tempting to bribe the electors, with their own
money. The independent electors should
answer this by sending men to the Legislature
who will do their utmost to remove such
ministers from power.

During the past four years legislation has
been brought about, chiefly by the Opposition,
in reforming the School Law. The residents
of the cities have now greater power over the
management of their schools, and more is yet
desired in this particular. I shall use my best
endeavors to bring this about, so that our
schools may be free of all political influences.

I have also advocated further restriction on
Chinese immigration and the employment of
Chinese by any company seeking charters or
grants from the Legislature. I have advocated
and still maintain that a clause should be
inserted in all bills giving such privileges or
aid to prevent the employment of this class of
labor.

I also have advocated the necessity of em-
ploying residents of the province instead of
non-residents or foreigners in the prosecution
of all works or contracts let by the govern-
ment.

It is impossible in an address of this kind to
touch on all questions affecting the province.
I hope, however, before long to have the op-
portunity of addressing the electors in public
meeting, at which time I will refer to matters
more extensively.

Hoping that my past record as a repre-
sentative in the Local Legislature has been
acceptable to you, I again seek your votes
and support.

I remain, yours respectfully,

G. L. MILNE.
