

## A FIND ON DEER PARK

Ore of a Shipping Grade Discovered Near the Surface.

## THE COPPER VALUES ARE HIGH

It was made on a ledge which has hitherto been unexplored—An Endeavor Will Be Made to Locate the Ledge on the 300-Foot Level—Other Notes.

A find which is considered important, has been made on the Deer Park. In a prospecting shaft at a point 425 feet south-east of the main shaft, there has been found ore which averages \$12.77 per ton. The chief values are in copper and gold. The assays were made from samples taken across the ore body for a distance of five feet. The vein on which this find was made is one which the old workings have not explored. The management felt pleased over the find for the reason that the values in copper are high. Little or no copper has been found in the main workings up to the present time. The intention is to have a survey made immediately and to run a drift from the 300-foot level to come underneath this showing. It should tap the showing at a depth of 200 feet. At present the air is being piped from the compressor to this showing, and a machine will be put to work at once upon it in order to determine the true dip and strike. The eight-hour shift will be put to work in order to demonstrate as fully as possible the value of the find.

## A Vicompte Investing.

Vicompte de Polignac and Mr. J. E. Sauvier left Thursday for East Kootenay. They will remain in that section for the next eight or ten days. The Vicompte has made some investments in that section and expects to make more before he returns to Rossland. Although he cannot speak English he explained through an interpreter that the mines in this section were commencing to attract the attention of that portion of his countrymen who deal in mines. That, therefore, he expected before long there would be considerable French capital invested here. The Vicompte was very much pleased with the appearance of the Rossland camp, and said it had a future of large importance before it.

## A Syndicate After the Property.

Mr. Thorwald Hartman left Thursday for the heart of the Slokan. He was accompanied by an expert and the object of the trip was to examine the Camp Lodge and Eastern Township silver-lead properties, on which a strike of ore has been found. A syndicate of Rossland capitalists contemplates purchasing these properties and will do so if the report of the expert employed is favorable.

## B. C. STOCKS IN LONDON.

Recent Private Advice From England Show the State of the Market.

A private letter just received from the editor of the Financial News to a gentleman in this city, says: "The interest on this side in things B. C. is quietly but steadily growing, and I expect long the break out into a boomlet similar to the continuous rise in West Australians has given the public an appetite for mining ventures and a supply of new goods will be wanted before long, probably in the autumn if the Transvaal bug bear gets shifted by them."

A letter to the same gentleman from a large dealer in B. C. stocks asks, regarding the possibility of trouble here, and says: "I have a very big interest in Le Roi and B. A. at far higher prices than they are now ranging. Le Roi has been 6 1/2, now 6 3/4, and B. A. C. 2 1/2, now 2 3/4. Velvets have been a weak market at 1 1/4, but now a shade stronger. The assay appearing in the Financial News today is very wonderful, if true. All the British Columbia mines are more or less unsaleable just now, being for the moment out of fashion. The Daily Mail today stated that the Le Roi and B. A. C. would be sold at 2s. 6d. and a bonus on the Le Roi at 2s. 6d. on the latter, but this I am told since is an exaggeration."

## WILL LEAVE TODAY.

Mr. W. G. Parmelee, Deputy Minister of Trade and Commerce Returning.

Mr. W. G. Parmelee, deputy minister of Trade and Commerce, who had been in the city for a week, left on Tuesday for the Pacific coast, first going to Portland, Oregon. He will be back in Ottawa within the course of three weeks. Mr. Parmelee, whose previous visit here was when Rossland was simply a small cluster of cabins, expressed his pleasure at the evidences of enterprise which he found on every hand on this his second visit. The growth of the city, he said, was surprising, a statement which means a great deal from one who has had a large acquaintance with the rapid upbuilding of communities in this western country. Mr. Parmelee, during his stay, was occupied with business of the government in connection with the smaller industry in the Kootenays. He will leave by the Red Mountain road at 11:40 a. m.

## NATURE'S DIMPLES.

Disappear, and Beauty Fades—Under the Shadow of Torturing Skin Troubles, But Dr. Agnew's Ointment is a Quick and Safe Healer.

The unceasing torment of an itching skin, which is the natural consequence and outcome of such skin diseases as tetter, salt rheum, ring worm, eczema, ulcers, blotches and other skin eruptions is laid in an instant with one application of Dr. Agnew's Ointment, and in a very few days the most stubborn cases give way to its magic healing power and leave the skin whole, perfect, clear and as soft as a baby's. It will cure piles in from three to five nights.

Dr. Agnew's Liver Pills are the cheapest made. 20 cents for forty doses.—Sold by Goodeve Bros.

Mr. John Kirkup, gold commissioner, left yesterday for a visit to Nelson.

## BORED IN THE INDURATED ROCK

BURNS AND McNICHOLAS DEFEATED ROSS AND STEVENSON.

In the Boys Drilling Contest Reagh and Forteach Defeated Furlong and Smith—An Enthusiastic Audience.

About 400 spectators assembled at the skating rink Saturday night for the purpose of witnessing the drilling contests. The principal event was the contest between Michael Burns and Michael McNicholas and Eric Stevenson and William Ross. The match was won by Burns and McNicholas, who made 37 9/16 inches against 33 3/8 inches by Stevenson and Ross.

John Fitzwilliams was referee, and Samuel Hall official timekeeper and measurer, while Lorne Becher was timekeeper for Stevenson and Ross, and Alex. McPherson timekeeper for Burns and McNicholas. McNicholas and Burns were the first at the stone and the way they struck the head of the drill was a caution. One would have thought it was a machine slugging drill that was at work. McNicholas guided the sledges for the first minute and he made 63 downward strokes in that time and never struck the head of the drill easy. Burns handled the sledge for a half a minute while McNicholas turned the drill. In the half minute Burns hit the drill 27 times. He was loudly cheered. The balance of the 15 minutes was consumed by half minute turns at the hammer. They hit the drill a little less than once a second or about 88 times during the 15 minutes. Their strokes were full of steam. When either of the two made a particularly heavy stroke or showed quickness in turning or changing the drills the audience manifested its pleasure in a hearty manner. When it was announced that 37 9/16 inches had been drilled by the two Mike's the applause was long and loud.

Stevenson and Ross had their innings next. They had their friends and backers and were cheered when they commenced operations. Ross took the sledge for the first minute and he struck the drill 27 times. Stevenson drilled for the next half minute and he made 27 strokes in that time. The two kept changing every half minute until the 15 minutes had expired. They struck about 850 blows in the 15 minutes. Ross and Stevenson had many friends, who cheered them to hammer as hard as they could. They were not in the contest, however, when the hole which they had drilled for when the hole which they had drilled for was measured it was found that they had only drilled 33 3/8 inches. This gave the purse of \$400 and all the gate receipts to Burns and McNicholas. This money was paid to the miners in the presence of the audience.

Two teams of boys drilled, Arthur Reagh and Samuel Forteach contested with Willie Furlong and Arthur Smith. Reagh and Forteach drilled 14 inches in the eight minutes and won the match, while Furlong and Smith drilled 8 3/4 inches. The notable feature of the boys' contest was Reagh's drill turning and striking, Furlong and Smith had hard luck as the lights went out on them, and once their drill got stuck. If it had not been for these accidents they might have made a better record.

A good deal of money changed hands on the result of the men's contest. One bet of \$25 was that Stevenson and Ross would beat 37 inches.

## THE JUPITER GROUP.

What Those Who Visited the Property Have to Say of It.

The Katie D. Green Gold Mining & Development company, with a capital of \$100,000 in 1,000,000 shares at 10 cents per share has purchased the Jupiter group, consisting of six claims, viz.: the Jupiter, Last Chance, Ingersoll, Katie D. Green, London and Hamilton, in the Erie section of the Nelson mining division. The group is located about six miles from the north fork of the Salmon river, and about one and a half miles from the Second Relief wagon road, on the Jupiter mountain. Four hundred thousand shares have been placed in the treasury for development purposes. The following named parties visited the property: Messrs. George Winters, J. L. Whitney, Hugh Henderson, G. W. Campbell, Thomas E. Miller and G. H. Green. Mr. T. E. Miller said he has just returned from an inspecting with a party of gentlemen to the Jupiter group. He has some fine samples of ore picked by himself from the shaft, which he intends having assayed, the lead showing at the point at which samples were taken to be over four feet wide in solid ore. He found on the dump sorted about 30 tons in the waste if sorted at least 20 to 25 tons more.

Mr. J. L. Whitney, mining broker, who has examined the Jupiter group, says he never saw so much ore come out of a 28-foot shaft. The lead is fully four feet of solid ore between walls. Considerable of the ledge has been stripped on the surface and it shows a very wide ledge. The distance to the property is three and a half miles from the Nelson & Fort Sheppard railway, and six and a half miles from Erie, five miles by a good wagon road and one and a half by trail. There are six claims in the group and it is a fine looking property.

Mr. George Winters said: "In conjunction with other gentlemen from Rossland, I visited and examined the Jupiter mine, near Erie, in the Nelson mining district. I found a shaft 28 feet deep and about 30 tons of sorted ore on the dump and considerable ore 30 tons claim gives one the impression that a large body of ore exists on it, and every indication points out with further development to its turning out a valuable property."

Mr. Hugh Henderson of the Le Roi Brewery said: "Having visited the Jupiter group, in company with several gentlemen from Rossland, which is located on Jupiter mountain about six miles from Erie, on the north fork of the Salmon river, I was more than surprised to see the quantity of ore on the dump and of a 28-foot shaft. There are about 30 tons now ready for shipment and the shaft is now solid ore over four feet wide. This is certainly a wonderful showing."

Mr. G. W. Campbell said of the Jupiter group: "There is about 30 tons of sorted ore on the dump and considerable ore 30 tons claim gives one the impression that a large body of ore exists on it, and every indication points out with further development to its turning out a valuable property."

Mr. J. Bryden, M. P. P. for North Nanaimo, and his son, Mr. J. W. Bryden, are guests at the Allan.

## X L DEVELOPMENT

Extensive Ore Bodies Being Uncovered in That Line.

## LONG DRIFTS ON TWO LEVELS

A Find of Quartz on Norway Mountain—The Mystery and the Avon in the Burnt Basin Section Are Looking Well—Rich Swansons Ore.

The ore bodies on the I. X. L. are being developed rapidly and are proving quite extensive. In the drift from the lower tunnel the ledge has been drifted on for a distance of 130 feet and the vein is as strong, as rich and as wide in the face of the drift as it is in any other portion. The drift in the upper tunnel has been run along the vein for a distance of 155 feet, and a fine body of ore has been uncovered. Some ore is being taken out of the upper drift and is being sacked for shipment to reduction works. This will simply be a trial shipment as no arrangements have yet been made for regular shipments. The plan of the management is to thoroughly open the mine so that there may be large reserves of ore ready when regular shipments are commenced. It is within the range of probabilities that some sort of a mill will be provided with which to reduce the ore from the I. X. L., as it is free milling. The development inquiry for adjoining properties and some are of the opinion that the O. K., an adjoining mine, which is in the hands of a liquidator, can now be sold for considerably more than it could have been before the recent find was made in the I. X. L. There have been declared their intention of purchasing the O. K. mine and will provide the price is not too high.

## Quartz Find on the Wellington.

Mr. F. S. Griswold, superintendent of the Wellington property, which is being developed by the Norway Mountain Mining company, sent in a number of quartz samples from that property yesterday. This ore was found in a ledge uncovered in a shaft at a depth of 30 feet. The intention is to have these samples, which are free milling and apparently carry good values, assayed today.

## Work on the Mystery.

News was received Friday at the offices of the Mystery Mining company that work on the third tunnel is making good progress and the tunnel is now in for a distance of 15 feet. This tunnel will be driven for a distance of 200 feet and when it is in that far it will be 500 feet beneath the surface. It is expected when the ore body is found at this depth that the Mystery will then be a mine from which considerable high grade ore can be shipped.

## Visited the Jupiter Group.

Messrs. George H. Green, George Winter, J. L. Whitney, Hugh Henderson and Mr. Chapman Friday returned from a visit to the Jupiter group, which is located in the Nelson mining division. They brought back a number of fine looking samples from the property. The group is a promising one and the members of the party are greatly pleased with it. Mr. Green is the chief owner of the Jupiter group and a syndicate of Rossland capitalists are negotiating for its purchase.

## Will Make a Rich Mine.

From Mr. Henry Roy superintendent for the Richelieu Mining company, which is operating a mining property on Crawford creek, to the east of Pilot Bay, it is learned that the work is progressing very satisfactorily. The showings are so good that it now seems certain it will make a mine of more than ordinary merit. Eighteen men are employed on the property and some fine showings of silver-lead ore have been uncovered.

## Under One Management.

A consolidation of the Bosun and Fidelity mines near New Denver has been effected, and in the future they will be operated under one management. The name of the corporation will be in the future operated. These properties, which are doing development work in the territory in dispute with the War Eagle, the Bosun is a mine that has paid from the grass roots and the Fidelity has a great deal of merit. They adjoin and can be worked more advantageously together than if they were each under a distinct management.

## A Find of Galena.

Mr. E. M. Ouimette Friday received a letter from Superintendent Becker, who is operating the Avon property in the Burnt Basin section for the Avon Mining company. On the property there has been found two veins of solid galena of high grade.

## The Iron Mask Output.

Mr. J. F. Herrick, general manager of the Iron Mask Gold Mining company, came up from Spokane Monday for a brief visit to the mine. Mr. Herrick said they were doing development work in the territory in dispute with the War Eagle, to demonstrate the actual state and extent of the ore bodies there referred to by the experts in the recent trial. Mr. Herrick said the management expected to get an average of 50 tons of ore per day out of the Iron Mask ore shipment to Trail, and he thought this was a satisfactory output for the property under the circumstances. The management never at a time looked better than it does at present. Every day additional proof was obtained of the great value of the property. Mr. Herrick is a guest at the Allan.

## Freight Rates.

A rumor was current on the streets Monday that the C. P. R. had made a sweeping reduction in freight rates that applied to Rossland, Trail and some other points. It was stated that a cut of 25 per cent had been made all round, but 25 per cent had been made all round, but the company at the station here for special information. The manager of the official stated that he had received no advice of the change referred to. Some slight reductions had been recently made, the agent, said, on a few special lines of goods but that was about all he knew about it.

## A COMPLIMENTARY BANQUET

SERGEANT OF THE ROYAL CANADIAN DRAGOONS HONORED.

The Rossland Company of the Kootenay Rifles Holds its First Dinner—A Successful Affair.

Monday evening about 40 persons gathered in the Clarendon dining room for a banquet in honor of Sergeant Carroll, of the Royal Canadian Dragoons, who has been in Rossland for the past month acting as instructor to the Rossland company of the militia department.

Captain Forin presided and Lieutenant Burnet occupied the vice chair. The guest of the evening, Sergeant Carroll, sat at the right of the chairman. Gathered around the festive board were Lieutenant Hart-McHarg, the non-commissioned officers and men of No. 1 company, Kootenay rifle, ex-Staff-Sergeant Harp, 48th Highlanders, Toronto, and Lieutenant Botwright of the 15th King's Hussars.

After partaking of a sumptuous repast set out in the Clarendon's best style, the toast list was taken up. The Queen was honored in royal right style by the assembled company. The Governor-General and Lieutenant-Governor of the Province, the Minister of Militia, The General Officer Commanding the Canadian Forces, the Army, Navy and Volunteers followed. The last toast was responded to by Corporal Wilkie for the Navy, and Lieutenant Hart-McHarg for the Army and Volunteers. The chairman then proposed the health of Sergeant Carroll, the guest of the evening, and in doing so, referred to the valuable service rendered by Sergeant Carroll during his short stay with the company, and also alluded to the happy terms that had always existed between the company and their instructor. They had applied to the militia department for a permanent instructor, and they all felt, said the chairman, that no better man could be got for the post than their guest. At the conclusion of his speech, Captain Forin presented Sergeant Carroll with a purse containing \$100 amid the hearty cheers of the assembled company. When the instructor took to reply he was received with unbounded enthusiasm. He said that the kindly manner in which the toast had been received was such that he was at a loss to know just what to say in response thereto. He had been soldiering now for 26 years, and never in his experience had he met with a more enthusiastic and loyal set of officers and men than on the present occasion. The militia department was fortunate in selecting Capt. Forin as instructor to organize the Rossland company, and in Lieutenant Burnet and Hart-McHarg he had very able assistants. The non-commissioned officers and men of the company were men of fine physique and all showed great aptitude for the service. There was no doubt, said the Sergeant, that Rossland would have a rifle company second to none in the Kootenay, and indeed there was plenty of material to form a second company. Every assistance possible had been rendered him, and he would leave Rossland with very happy recollections of his stay here. In replying to "Our Civilian Friends," ex-Staff-Sergeant Harp impressed upon the company the necessity of becoming efficient in shooting as well as in drill. Lieutenant Botwright suggested the holding of a military tournament and assault at arms in the winter as a means of holding the men together as well as forming a club for military athletics. The sergeant instructor proposed the health of the company, and Lieutenant Burnet and Sergeant Webb responded. Absent friends with special reference to Sergeant-Major Ward, was proposed by Captain Forin. Lieutenant Burnet proposed the health and the chairman responded. The toast of the non-commissioned officers and men was proposed by Mr. Harp and was responded to by Sergeants Townsend and Webb and Corporal Hoosen. Private Job replied to the Ladies in his usual happy manner. The singing of "Auld Lang Syne," and the National Anthem brought the festivities to a close.

## Swedish Services.

On Thursday evening a Swedish service will be held in the Presbyterian church at 7:30 o'clock. Pastor J. J. Huleen, from Spokane, will conduct the meeting and preach. Mr. Huleen was here two weeks ago, and has since visited Nelson. He is now on his return to Spokane.

## The Good Work is Quickly and Surely Begun

Paine's Celery Compound is Always Victorious Over the Most Stubborn Diseases.

Some medicines require weeks of use before sufferers can realize any promising results, and the great majority of patients are worthless, and in many cases positively dangerous to use.

When weak, broken down, sick and diseased men and women have used Paine's Celery Compound for a single day their doubts vanish, hope fills the heart, and they are added to the tens of thousands that gratefully sound the praises of a medicine that truly possesses life-giving virtues.

If your life is in peril from such stubborn and desperate diseases as rheumatism, neuralgia, liver complaint, Bright's disease, diabetes, nervous prostration, or ailments resulting from impure blood, and have not yet tried the medicine that has cured others, do not hesitate another hour. Paine's Celery Compound will assuredly do for you what it has done so well for your friends and neighbors. It will cleanse the blood, drive out lingering rheumatism and neuralgia, banish kidney trouble and liver complaint, build up the exhausted nervous system, clear the complexion, give good digestion, healthy sleep and perfect vitality. One bottle promptly begins the good work.

## KIDNEY-SICK PEOPLE!

By far the largest army of sufferers in the world are the kidney-sick people—but by far the largest army of the cured ones are the South American Kidney Cure—release from disease to the great South American Kidney Cure—Cures Bright's disease—Cures diabetes. Cures all bladder ailments.

tested by eminent medical authorities on kidney diseases, and proved and testified to by them as the surest and safest cure for all diseases of the kidneys and bladder. It's a purifier—a healer—a health builder—efficacious alike to man or woman.

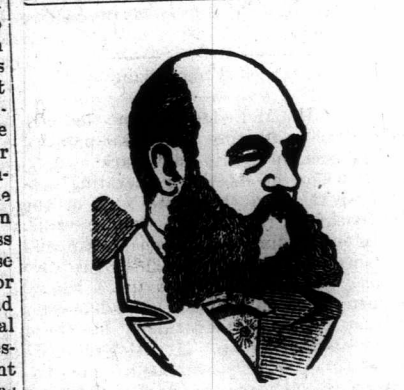

## Good News from the North Country.

A young machinist in a large manufacturing concern in Northern Ontario fell a victim to the drooping form of kidney disease through atmospheric changes in following his daily labor. He continued his work until almost commanded to quit by the physician from whom he had been receiving treatment. He visited Toronto and consulted an eminent authority on kidney disease. The doctor sent him home with a story of himself as he could give, but wrote privately to the young man's physician that it was only a matter of time with him until death would claim another kidney victim. When he would claim another kidney victim. When he would claim another kidney victim.

## DR. REEVES

Spokane's Leading and Most Successful Specialist Why? Because

His reputation has been established by effecting CURES OF CHRONIC DISEASES IN MEN AND WOMEN where other physicians have failed.

ARE YOU Subject to fainting spells, dizziness, noise in the head, palpitation of the heart, heat flashes, numbness of the hands or feet, or any other symptoms indicating a diseased heart or paralysis of the brain?

ARE YOU Nervous and run down with thin blood, pale lips, dragging pains about the loins, loss of your natural cheerfulness, and with melancholy thoughts and inclinations to get up and run away?

ARE YOU Consumed and dyspeptic, with headache, coated tongue, bad breath, pimples on your face and with a dull languid feeling in every part of your body?

ARE YOU Troubled with a bad blood disease which every now and then breaks out in different parts of your body and makes your life a perfect hell?

ARE YOU Troubled with pain in the back, weakness of your kidneys?

ARE YOU Losing your memory and do you have a nervous, irritable and undependable and unrefreshed?

ARE YOU Afflicted with any disease of the kidneys? Brings an untimely death. It is an unmistakable sign of diseased kidneys. To neglect these troubles means to you diabetes or Bright's disease and a premature grave.

Of whatever nature treated with unfailing success.

RUPTURE New method, sure cure, painless treatment, no retention from work.

KIDNEYS "Doctor Reeves' treatment helped me from the first. My sense of taste and smell has returned. I have no headache, and my kidney trouble is cured."

LIVER "I had liver trouble. Every two weeks I would have a spell of vomiting that would confine me to my bed for three or four days at a time. I was nervous, easily discouraged, gloomy and irritable. I went to Doctor Reeves August 15th last and have not had a sick headache or a vomiting spell since that time."

ASTHMA "Dr. Reeves' treatment was a revelation to me. Each inhalation of the life-giving medicine brought comfort and ease. Now I am able to sleep in bed like a Christian, a sweet, refreshing sleep, like that of an infant. I work all day in the mill and experience no discomfort. With the exception of a slight cough, I AM A CURED MAN. My trouble was asthma."

member, Dr. Powell Reeves is the oldest specialist on this coast, and has thousands of testimonials showing his success in Spokane. Ask your banker, ask the express company, ask your neighbor. Everybody knows Dr. Powell Reeves, the old RELIABLE doctor. You can depend on him when all others fail.
