Waterdown

We show this week a cut of the latest in Electric House Pumps, with automatic cut-out. This pump regulates the supply of water at regular pressure to Tank, and brings it from a well or cistern if not over 25 feet deep and any reasonable distance. This pump has no gears, is almost noiseless in operation, self oiling, self regulating, high-grade motor.

We endeavor to keep the latest and very best ideas in Hydro-Pneumatic Force and Lift Pumps. We also supply Electric and Gasoline driven Washers and Wringers and a complete line of Farm Equipment.

### Cheap Greenbacks.

Time was in Toronto when the American dollar, to-day worth \$1.17 in our Canadian money, could be picked up for 40 cents. Those were the far-off days of the American Civil War, before most of Toronto money magnates had entered the world, and when Sir Edmund Walker, president of the Canadian Bank of Commerce, was a youth in his uncle's private banking office at Hamilton, where to handle the great influx of depreciated American money, separate ledgers were kept for it and our own Canadian currency.

The financial situation of the Northern States at that time has no parallel to that of Britain and Canada to-day. The North had not borrowed money abroad to secure the sinews of war. Uncle Sam had merely expanded his currency to an enormous extent. Early in the war most of the gold and silver in the States had been sent abroad to pay for supplies. There was nothing but paper in the country and with that and the uncertain fortunes of war, from early in the campaign American notes were at a big discount over here. During a considerable portion of the period between 1861 and 1865 the American dollar brought 50 cents and even 40 cents. At one time things looked so black for the North that in Quebec the American greenback fell to 40 cents, whereas the Confederate dollar, which hardly passed current at all in Canada, brought 35 cents. Not until about 1873 did the American dollar get to par.

### Point Blank.

Jack—And when I proposed at the dance she asked for time to think it over. What do you suppose she did that?

Bess—Well, a girl naturally hates to think of disagreeable things while enjoying herself.
