classes.

The Y. P. S. meets on Monday  
evening at 8 o'clock.

Prayer Service on Thursday even-  
ing at 8 o'clock.

### Greenville

Mrs. James Bart has returned  
from a trip to Buffalo.

Mrs. Stewart has been called to  
Hamilton on account of her mother's  
illness.

Mrs. Geo. Osfield is confined to her  
bed with the flu.

The Boy Scouts are giving a  
Minstrel Show and Concert on Wed-  
nesday evening, March 7th.

Miss Agnes Clark is visiting her  
aunt in Dundas.

Mrs. John Surerus and daughter,  
Miss Blanche, spent the week end  
in Hamilton.

Mrs. Wm. Boyd and Miss Marjorie  
of Hamilton spent Friday visiting  
friends in the village.

A young daughter arrived at the  
home of Walter and Mrs. Nicholson.

### Pure-Bred Makes Best Gain.

The grade hog is more profitable  
for the farmer than the scrub or  
razorback and the pure-bred is more  
profitable than the grade. The pure-  
bred gains weight faster on the same  
feed than either the grade or the  
scrub and finishes so much better for  
market that it invariably commands  
a much better price.

The bigger a hog can make of him-  
self the more profitable hog he is.  
Labor saving home machinery can  
be replaced; women's backs cannot.

### Old Dobbin Steals March on Tractor.

"Tractor manufacturers and horse  
breeders associations may urge the  
relative merits of tractors and horses  
as sources of farm power with all  
the eloquence of which they are cap-  
able," declares G. A. Pond, in charge  
of the cost accounting section at  
Minnesota University Farm, "but the  
farmer who has both available keeps  
his eye steadfastly on the relative  
prices of kerosene and oats and ad-  
justs his power supply accordingly."

Recently summarized data collect-  
ed showed but 298 hours of use per  
tractor in 1921 as compared with 415  
hours the year previous, a decrease  
of 28 per cent. The use of horse lab-  
or, on the other hand, increased an  
average of 610 hours per farm dur-  
ing the same period.

The fact that tractor fuel declined  
only 29 per cent. in price while horse  
feed decreased 55 per cent. partly ex-  
plains the change.

### In the Orchard.

The foliage of stone fruits, as  
cherry, plum, and peach, is on the  
whole quite tender, and the arsenical  
sprays should be employed with cau-  
tion. Arsenate of lead is least like-  
ly to do harm, though more than two  
applications, especially to peach, may  
cause shotholing, dropping of leaves  
and burning of fruit.

The care of the home orchard pro-  
vides for spare time congenial and  
profitable occupation for those who  
enjoy seeing things grow.

### Important in Chicken Yard.

The health of our family depends  
largely upon the kind of feed that is  
given them and the way it is served.  
It is just as important to feed right  
in the chicken yard. Have the right  
kind of feed and see that it is not  
tainted in any way.
