John Piggott and Detective McGregor spent yesterday at Jeannette's Creek with the quail. They got 14 birds.

Humane Officer McGregor has his weather eye open for teamsters who drive lame horses. Several offenders have been warned.

Rev. T. Beverley Smith, rector of Holy Trinity church, will lecture on "Hymns and Hymn Writers," in Holy Trinity school house on Wednesday next, November 12th. They located at Glen Isla, Parry Sound District. Abraham Houston was the first to return. He brought two deer with him. He says that deer are very plentiful this year, but it is so wet back in the country that many hunters left disgruntled without any deer. The rest of Mr. Houston's party stayed, in the expectation of getting some moose hunting, these animals being reported quite plentiful this year.

### NOTICE

Consumers of Gas and Electric Light are reminded that Monday, 10th inst., will be the last day upon which discounts will be allowed on October monthly bills. Save your discounts.

R. S. Carscallen, Dresden, is in the city today.

Private trust and company funds to loan at lowest rates and with terms to suit. Apply to S. B. Arnold, Barrister, Fifth street.

Archibald Park was in Dresden yesterday. While there he inspected the best sugar factory, which, he says, is fine. They expect to turn out sugar on Monday next. The sheds are full of beets and a train load came in yesterday.

Andrew Thomson, Jr., auctioneer, will sell by public auction, at the residence of F. Crozier, corner of Grey and Raleigh streets, a large assortment of household furniture. The sale will commence at one o'clock.

Sir George Macpherson Grant, Bart., of Ballendalloch Castle, Scotland, has written George Gordon Martin, stating that Mr. Martin and other relatives are heirs to an enormous fortune. The money was left to them by two Macpherson brothers, uncles of Mr. Martin's grandfather who went to the States and made an immense fortune. They left direct heirs, so that Mr. Martin will be a rich man.

George Gordon Martin brought with him from Harrow a sheaf of tobacco. It is Canadian grown from Kentucky seed. It is four years old and was cured by a Southerner. The tobacco was presented to Mr. Martin by Henry Hotz, stockkeeper at Harrow, who is married to a cousin of Mr. Martin. The Chatham lawyer says he used to smoke T. & B., but he likes the home cured tobacco that was given to him much better.

Under the humorous title of "Fair Play," a diligently gotten up doer was presented to the public this morning. The editors and publisher modestly withheld their names but the anonymity will, we trust, not be permanent, inasmuch as they announce that they "have unlimited capital at our back." This being the case there can be no doubt about the civic industrial committee getting right after the gigantic financial concern and securing its permanent location in the Maple City. The chairman might even be induced to offer it a liberal civic bonus and free site. The committee really seem to be some force in the criticisms the people are so generally passing on the many claims of this gentleman if he allowed a concern "unlimited capital" to continue to locate in the office of the Blenheim Tribune and clandestinely import its manufactures to this city.

## Theatrical

The Wonderfully successful melodrama, "The Son of Life" which has been for eight years the greatest theatrical success of four continents, will be presented this season by the strongest company of actors yet engaged in its production, including the daring and skillful acrobats, the Donatuses, whose athletic feats are marvellous even to the "wonder" rivals. Entirely new and elaborate scenery and mechanical and light effects have been provided for the play for this season, and the success of the piece is greater than ever before, although it has been frantically accepted as the best drama of its kind of the present decade. It will be seen in its entirety at the Grand next Thursday Nov. 13, and this will probably be the last chance of seeing it, as the company are engaged for an Australian tour next season.

## CITY'S CHANCE

Still a Possibility of Chatham Securing the Lake Erie Car Shops.

There is a rumor current on the streets here to the effect that the Lake Erie will not build their shops in Walkerville.

The city council of St. Thomas must believe that rumor, because on Thursday they visited Walkerville in a body and petitioned the Lake Erie railroad to put their shops in St. Thomas. There are several reasons for believing that Walkerville will not be the site of the shops and that rumor has it right when it reports that Walkerville is at the wrong end of the line for the shops.

Twice have tenders been asked for, for the construction of the shops in the brewery town, and twice have the managers of the road refused the tenders and decided not to build. Carload after carload of machinery for the shops is now lying on the tracks at Walkerville, and has been lying there for some time.

Chatham should get after these shops. There is work for the Board of Trade. There will be 100 men employed in the car shops and they will be well worth securing for the city.

### WERE WEDDED

As a wedding gift the bridegroom presented a box of cigars to the office employees of the Canada Flour Mills Co. that they might smoke to his happiness.
