## THIS STUDENT WAS IN A BAD WAY

Hene Trudel, of Three Rivers, Que., Tells What Dodd's Dyspeps a Tablets Did For Him-A Tale With a Moral.

"I had resolved to give up my studies when I was led to give Dodd's Dyspepsia Tablets a trial. They made me better. Now I have no bad head, no weariness, no pain. I am cured." In these words, Hene Trudel, a student of Three Rivers, Que., gives an experience that is valuable to thousands of students and others in Canada. He suffered from that terror of the student's life, Dyspepsia. It made him discouraged, weak and despendent. Life was not worth living to him.

Thirty-six settlers have been murdered by Witbeis in the southern part of the colony since the rising and five settlers are missing.

So far as known, it occupies an absolutely unique position. It consists of nine pearls naturally grown together in so regular a manner as to form a perfect Latin cross. The pearl was discovered by a pearl fisher at Roebourne, West Australia. The first owner regarded it with so much superstition that he buried it, but it was discovered in 1874 and five years later was placed on exhibition in Australia.
