## LETTER BOX

To the Editor of The Planet: Dear Sir,-In my last letter I en-leavored to bring before your readers the very special advantages which the Canada Business College offers to those who wish to thoroughly qualify for office work. The public by this time must be familiar with the fact that any bright student who has had the advantage of a good English training, can complete either course with us in five or seven

course months. In support of this statement, I will In support of this statement, I will take the cases of the last five students placed, four of whom were with us only six months; the fifth had taken both courses, and had been with us about twelve months, but had assisted us in looking after our business offices and checking papers in the business department during the last four months of his term.

These five young men were almost immediately placed in excellent positions, one at \$600, one at \$700, and

tions, one at \$600, one at \$700, and the other three at \$720 each. Did it pay them to come? We think you you will agree with us that it did. Give us the right kind of material and we will turn out the right kind of product every time, no failures and what is of the utmost importance to the student at this stage, is the fact that we can place him in a good position when he is qualified; 375 of our students were placed during the past year. What do you think of it?

Thanking you for your valuable Thank ng space, I am, Yours sincerely, D. McLACHLAN.

Chicago, August 22.—The Calumet lacrosse team, of Chicago, yesterday defeated the St. Paul team at the south side ball park by a score of 9 goals to 5. It was the first victory the local men have been able to claim in their four matches this year with the Minnesota players, one having been drawn and the other two lost. Much of the scoring success of the Calumets was due to the work of Mulligan, who kept his play and inaugurated several of the attacks which resulted in goals through the combined efforts of Rubridge, Sewell, Culberton and Barrett. These men did some great team work. Sewell was especially good, getting four of the six goals that he made from passes by Rubridge.
