## BRIDGE TRAFFIC AGAIN RESTORED

N. B. Contracting and Building Company Completes First Part of Their Contract Sharp on Time

Hartland bridge is again open to the public. At 5 p.m. on March 1—the very day the contract called for—the bridge was ready for the passage of teams. J. H. Byles, who has been engaged with the company during the whole work, was permitted the honor of making the first trip across with a loaded team. He was followed closely by Fred Gray.

The company started operations early in August and have built two piers and a massive shore abutment, and have constructed two Howe truss spans. The contract specified March 1 as the time limit for the completion of this portion of the work. There remain to be built four piers, but traffic will not be interrupted by the future work.

The work has given employment to a large number of men and a vast amount of equipment was put to use. In September frequent raises of water came so that fully six weeks work went for naught. Besides this the company suffered financially to the extent of nearly \$20,000, but in spite of all setbacks the work was completed exactly on time and the town should sit up and take notice what has been done. If the bridge had not been completed there would be weeks of no crossing at all.

Joe Powers, the member of the firm who has devoted his whole time and tremendous energy to the work, is to be congratulated on his great success in the face of much difficulty.

Hatfield & Co. are Manufacturing High Grade Fertilizer on Large Scale

A few weeks ago reference was made in a brief paragraph of the possible establishment of a fertilizer factory in Hartland. H. H. Hatfield, chief promoter, said that he had been out of Woodstock and others are associated with him in the enterprise.

The plant is already putting up fertilizer and it is expected that thousands of tons will be sold to the farmers of the St. John Valley this spring. The Hatfield & Co. starch factory and another building near by will be utilized for mixing and cooping. For the present the barrels will be bought elsewhere and will be shipped here in a kned down condition. The company will sell in barrels or bags, in car lots or otherwise, direct to the farmers and they will also sell the chemicals to farmers who wish to do their own mixing.

The price of the product of this concern is much lower than any prices heretofore quoted by any other firms this season.

If their venture proves successful the promoters will extend their operations very largely.

## MRS. A. F. CAMPBELL HAS PASSED AWAY

On Friday morning, Feb. 25, Mrs. Margaret Campbell, wife of A. F. Campbell, the Hartland manager of F. E. Sayre's business, died after a tedious illness of two years and two months. She died from cancer of the jaw and throat and during her long affliction she was cheerful and resigned and wonderfully patient. She went under seven operations at the Royal Victoria Hospital in Montreal and four operations at her own home. But all the medical skill that money could purchase was of no avail.

Mrs. Campbell was a woman of gentle Christian character, earnest and sincere in church and charitable work, always with a cordial smile of friendly greeting, and the whole town mourns her passing. With her husband and children she came here from Benton 27 years ago. She is survived by her husband, two sons—George and Frank in Winnipeg, and one daughter, the wife of Rev. C. N. Barton. John S. Murray of Houlton is a brother. The funeral services were conducted at her late home on Queen street on Sunday afternoon, when her pastor Rev. E. A. Triles preached from the beautiful 33rd Psalm. The United Baptist choir sang Aleson in Jesus, Face to Face, Have you a Friend like That? Some Day, Some Time.

Sympathy was expressed by the following eloquent floral tributes: "Mother," the family; wreaths from the sons, Saunders family of Calgary, Kinney family of London, Ont., McElroy families of Grafton and Woodstock, John S. Murray and family of Houlton, United Baptist church, Hartland, Star Bible Class, W. D. Keith

## INTERESTING RACES LAST FRIDAY

Lucky Strike Wins the Big Purse and Centerville Horse Beats Teddy Bear

A very large crowd assembled to witness the races on Friday. The greatest interest centred in the match race for \$100 a side, when Lucky Strike, owned by C. T. Black of Woodstock, was adjudged to have won from Murray McLeod's Cassie W.

The score follows:

Class A, Matched Race \$200  
Lucky Strike (Black) . . . 2 1 2 1 0 1  
Cassie W. (McLeod) . . . 1 2 1 2 0 2  
Time: 30, 30 1/4, 32 1/4, 23 1/4, 31.

Class B.  
Freddy B. (Brown) . . . 1 1 1  
Teddy Bear (Thornton) . . . 2 2 2  
Time: 31 1/4, 31 1/4, 31 1/4.

Teddy Bear won the second heat but was set back for interfering.

Class C.

Lady Bell (Stevens) . . . 2 1 1 2 1  
Xanthia (Macintosh) . . . 1 2 2 1 3  
Antelope (Sawyer) . . . 3 3 3 2 2  
Time: 31 1/4, 31 1/4, 31 1/4, 31 1/4, 33.

Cassie W., in the opinion of many of the spectators won the race fairly and the decision should have been so given. Every heat was very close and the fifth was an absolute tie. Given a fair chance Cassie will win over the Woodstock horse in another race.

W. E. Thornton traded Teddy Bear with Murray Wright of Perth and has now a four-year-old by Brown Braddon, a very promising looking colt.

M. E. Sawyer, owner of the Antelope G. has shown commendable courage all winter in entering his trotter among pacers and winning about as many heats as any of them.

## NEW PROPOSAL FOR ELECTRICITY

No town in the province—probably not in Canada—is so bad off for electrical power as Hartland. Therefore every possible scheme for procuring electric power is being discussed. The latest proposal that The Observer has heard of is to tap the trunk line of the Maine and New Brunswick Electric Company at Bridgewater and supply Centerville, Florenceville, Bristol, Bath and Hartland.

This appears to be a highly feasible scheme, as it ever the provincial government carries its electrical policy into effect for the valley, a line connecting the five towns would be needed anyway.

At the present time it is costing The Observer 38 per day per horsepower used, which is without doubt the highest priced power on earth. Fortunately the company uses steadily only one-quarter horsepower, but even at that the cost is \$50 a month.

There is another industry nearby which has a daily power cost of \$3 and the proprietor claims that that is the whole amount his plant can earn in a day.

## FARM WANTED

Wanted to purchase: a farm of 100 or more acres suitable for mixed farming, raising stock, etc. Must be within a reasonable distance of station. Write giving full particulars and rock bottom cash price for property, stock and machinery, etc. to

F. A. CHW  
Centerville, N. B.

Frederick W. Mayor, the eminent eye specialist of Toronto will be at Stevens Bros. store at Centerville from March 11 to 23.

New Goods Just Received

## AT CARR'S

show marked reductions in many articles in
