THE ARTIST'S TONE is the..... Edison Tone

There is no such thing as an Edison Tone. There is in the NEW EDISON a Bonci Tone, a Spalding tone, an Anna Case tone, each separate and distinct.

Each faithful to the distinctive character of the Artist. But the New Edison has no tone of its own. It is merely a perfect vehicle for the reproduction of the Artist's work.

There is no foreign sound, no talking machine tone. Mr. Edison has eliminated all these.

The music of the New Edison is nothing but the pure unaltered life tone of the original Artist.

Come in when you are passing and hear your favorite record. We will gladly play it over for you without obligation.
