The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an nse sale, is that they are always made up to the origina standard, of highly invigorating material and of pure quality olthough the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size Atleast twenty imitations and counterfeits have aprung up. They impose upon the people once and that's the last of them. The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts
