"MODEL MELODEONS,"

MASON & HAMLIN

PRICE LIST:
41 Oct. Melodeon, Portable Style, Rosewood Case, C to F, . , .. F to F, F to F, an elegant piece of Furniture for the Parlor. F to C, F to F, with a double set of Reeds throughout. Extra finished,

F to C, To which will be added the Colonial duty only. This beautiful Musical Instrument, the Melodian This beautiful Musical Instrument, the Melodian, is now so well known, that we doem it unnecessary to give a lengthy description of it. We will only state that it is played upon the same as the Piano Forte, the key-board, being precisely similar. Any one who plays upon the Piano, will be able to perform upon the Melodeon at once. It will be seen that there are two pedals attached; one of these, that to the right, is used to supply the bellows with wind, and the other governs the swell; by means of this latter, a most beautiful crescendo and diminuendo may be produced.

that to the right, is used to supply the bellows with wind, and the other governs the swell; by means of this latter, a most beautiful crescendo and diminuendo may be produced.

We respectfully invite attention to the newly improved "Model Melodeons" as we think they will be found to be superior in many respects to any others. Please examine them carefully, and test them will, paying attention, among other things, to the following points, viz: let.—Their superior quality of tone. 2d.—Their great power of tone. 3d.—Their perfect equality of tone. 4th.—Their prompt and even action. 5th.—Their beautiful style of finish. 6th.—Their durability. 7th.—Their excellent tune. 8th.—Their cheapness. Mason & Hamlin have great facilities in the manufacture of these lastraments. Mr. Hamlin himself has probably had more actual practical expersence in the business, than any other man, having been constantly engaged in it from the time they were first introduced;—for more than six years he has had the entire superintendence of the tuning and mechanical departments of the most extensive Melodeon manufactory in the United States. They have engaged the very best of mechanics in the different departments of manufacture; those who have had long experience, many of them having worked at similar instruments from the time of their invention. From Voicers and Tuners are acknowledged to be the most expert in the country. The voicing and tuning of the Melodeon is the most difficult part in its manufacture, on this depends mainly, the quality and quantity of tone, and the durability of the reed. They make it their first great cardinal principle, that every instrument be as perfect in all respects as possible, and each one, before leaving the manufactory, undergoes a close examination from both of the partners; and none are allowed to go forth, in which the slightest defect, either in the case, or in the interior of the Instrument, can be detected. By adhering strictly to this principle, they trust to secure the confidence and patronage of t

following opinious in regard to the "Model ns," from distinguished musicians, we select

for publication.

[From Lowell Mason.]

"After having carefully examined the Melodeons of Mesus. Mason & Hamlin, I am enabled to say, that, in my opinion, they are decidedly superior to any others with which I am acquainted."

any others with which I am acquainted.

LOWELL MASON.

New York, July 1, 1884.

[From William B. Bradbury.]

MESSERS. MASON & HAMLIN,

Gents.—I heard with pleasure of your commencing the manufacture of Melodeons, feeling assured that you would be able from your practical skill, numple facilities, and poculiar advantages, to effect important imprevements in the construction, of these Instruments. Having now had an opportunity of examining a number of your Instruments, I am by, on means disappointed in the result. You are certainly producing Melodeons, which, in all desirable characteristics are, so far as I can perceive, faultless. An Instrument possessing so many beauties, is admirably adapted to the parlor and the church, and I am satisfied that so soon as the public become acquainted with the superior merits of your Instruments, your only trouble will be to supply the demand.

WILLIAM B. BRADBURY.

New York, June 2, 1854.

New York, June 2, 1854.

[Extract from an Editorial Notice in the "New York Musical Review" of May 11th, 1824.]

"Onsidering the ample facilities of this firm, and the varied and extensive experience of the difand the varied and extensive experience of the dif-ferent partners, as well in the wants of the public and the points which constitute good instruments, as in their practical manufacture, we have every confidence that they will accomplish all they aim at "——We have had an opportunity of examin-ing some of the instruments now finishing at their factory, and can certainly recommend them to all our friends, who may have occasioned parchase." Instruments can be seen and examined at our

J. TODD.

THE HYDROMAGEN, WATERPROOF ANTI-CONSUMPTIV CORK SOLES,

ufactured by HARCOURT BRADLEY & Co. 38, Ann Street, N. Y., and at London and Manchester, England.

Manchester, England.

THE HYDROMAGEN is a valuable discovery for protecting the feet from damp or cold, and therefore a preventive of many Lung diseases, without any doctoring whatever. The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its medicated character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm and healthy, to wear in the coldest or rainiest wears.

For Gentlemen it will be found agreeable, warm and healthy, to wear in the soldest or rainiest weaher, as the foot cannot become wet, if the Hydromagen is inserted.

Ladies may wear the lightest soled boots or shoes in the most inclement weather with impunity; while consumption, so prevalent among the young of our country, may be thwarted by general adoption. They entirely supersede over-shoes, as the latter cause the feet to perspire in a very unbealthy manner; and, besides, are not dangerous wear to pedestrians in icy weather, like India rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being merely a thin slice of cork prepared, piccularly placed inside, does not increase the size of the boot, or cause the foot to appear unitdy.

To Children they are extremely valuable, as they may engage in exercise, with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides those who patronise them will find their yearly doctor's bill much diminished thereby. As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburgh, and Berlin, our sales reached the almost incredible number of 1,732,450 pairs of cork soles. This year the number will far surpass that.

Ask the Faculty their opiniou of their value as a

The Infallible Remedy!

HOLLOWAY'S PILLS.

ERYSIPELAS OF EIGHT YEARS' DURATION CURED

CURED.

Copy of a Letter from Geo. Sinclair, Esq., of Paris, Canada, dated the 18th July, 1854.

To Professor Holloway.

Sir,—I feel a pleasure and a pride in bearing witness to the wonderful benefit I have derived by the use of your inestimable Ointment and Pills. For eight years I suffered unceasingly from attacks of erysipelas; large purple blotches came all over my body; in addition to the unpleasant feeling of itching and burning, which affected me both night and day, rendering life a misery to me, as well as to all around,—so severe was the attack. I used several reputed remedies without deriving the least cessation to my misery. At last, I determined to try your Ointment and Pills; after taking them for a few weeks, a visible improvement took place, and I fee considerably better;—in three months, by continuing with your medicines, I was completely cured, and now enjoy the best of health. The truth of this statement is well known here, hence there is no necessity for me to request secrecy.

I am, Sir, yours respectfully,

(Signed) GEO. SINCLAIR.

ULCERS IN THE LEG,-REMARKABLE CURE. Copy of a Letter from Mr. Edward Tomkinson, of Cape Breton, Nova Scotia, dated the 4th May, 1854.

May, 1854.

To Professor Hofloway.

Sir,—My sister, Miss Jane Tomkinson, suffered for a great number of years from a bad leg; in which there were several deeply scated and old wounds, defying the skill of some of the most eminent of the medical faculty, a variety of remedies were also used unsuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured. At length, she had recourse to your Ointment and Pills, and after using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known.

I remain, Sir, your most obedient servant.

(Signed) EDWD. TOMKINSON.

emain, Sir, your most obedient servant.
(Signed) EDWD. TOMKINSON.

BAD BREAST CURED WHEN AT DEATH'S DOOR!

A BAD BREAST CURED WHEN AT DEATH'S DOOR!

Copy of a Letter from Mr. Henry Malden, of Three Rivers, Canada West, dated July 9th, 1854.

To Professor Holloway.

Sir,—My wife suffered most severely after the birth of our last child with a bad breast. There were several holes in it one as large as a hand; all the devices and stratagens I tried would not heal them, but it assumed an aspect more frightful than before, and herrible to behold. As a last resource I tried your Ointment and Pills, which she persevered with for seven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer you our united thanks for the cure effected.

I am, Sir, yours traly,

(Signed) HENRY MALDEN.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs Cancers Sore-throats
