## Probate Court County of North'd

To Sadie Doak, widow of Miles Milton Doak, late of the Parish of Blissfield in the County of Northumberland, farmer, deceased; Daniel A. Doak, of the same place, farmer; Christie Rose, wife of Robert Ross of the Town of Woodstock in said Province, retired blacksmith; Ruth Price, wife of Cook Price of the Parish of New Maryland, in the County of York, in said Province, farmer; George Green of Blue Mountain Bend in the County of Victoria in said Province, farmer; Bertha Anderson, wife of Joseph Anderson of 33 High Street in the Town of Houlton in the State of Maine; Stillman H. Doak of 1291 Michigan Avenue in the city of Detroit in the State of Michigan; Albert L. Doak of the said Town of Houlton; Minnie B. Cartwright wife of Dale Cartwright of 530 Alton Avenue in the City of Indianapolis in the State of Indiana, lawyer; Susan Luckadoe, wife of Wm. Luckadoe of 317 East 74th Street in the City of New York in the State of New York, broker; Laura Crouse, wife of Edward Crouse of 65 Newbury Street in the City of Bangor in the State of Maine, machinist; Mrs. John Pond, wife of John Pond of the Parish of Ludlow in the said County of Northumberland, farmer; Charles Doak of Boiestown in the said County of Northumberland, blacksmith; Katie Norrad, wife of Willus Norrad of the said Boiestown, farmer; Nellie Goodine, wife of James Goodine, of Island View in the County of York, farmer; Marion Doak, widow of Joseph B. Doak of 735 Main Street in the City of Saskatoon in the Province of Saskatchewan; Ernest Doak of 735 Main Street in the said City of Saskatoon, mechanic; Ada Costley wife of A. V. Costley of 636 Seventh Street in the said City of Saskatoon, electrician; Bessie Hayes, wife of John Hayes of 735 Maine Street in the said City of Saskatoon, mechanic; and Daisy Doak of 735 Maine Street in the said City of Saskatoon, Henry E. Betts, George H. Parker, Harold C. Lyons and Nellie Hurley, all of Doaktown aforesaid and to all others whom it may concern:—

WHEREAS the said Sadie Doak hath filed in this Court what purports to be the last will of Miles Milton Doak, late of the Parish of Blissfield in the said County of Northumberland and Peter W. Doak of the Town of Ashland in the State of Maine, farmer, a brother of the said Miles Milton Doak, by his petition sworn to the 14th day of October A. D. 1920 hath prayed that the same may be proved in solemn form, disputing the validity of the said alleged will; you are, therefore, required to appear before me, if you so desire, at a Court of Probate to be held in and for the County of Northumberland at my office at Newcastle in the said County of Northumberland on Tuesday the first day of February A. D. 1921 at the hour of eleven of the clock, in the forenoon, to show cause, if any, why such will should or should not be proved in solemn form.

Given under my hand this eighteenth day of December A. D. 1920

(Signed) 52-5  
**Allan A. Davidson,**  
Judge of Probate  
County of Northumberland  
L. S. (Signed)  
**M. S. Benson**  
Registrar of Probate

## Asking N. B. Govt. To Double Teachers' Pensions

St. John, Jan. 5.—The provincial government's meeting closed this afternoon at Fredericton after hearing a delegation composed of W. J. S. Miles, principal of St. John High School, and L. B. C. Foster, principal of Fredericton High School, who advocated a substantial increase in teachers' pensions in New Brunswick in view of the insufficient amount of the present provisions, and the increase in living costs since the schedule became effective.

## Automobilists Must Pay More In 1921

The issuing of the 1921 licenses for motor vehicles has been commenced. Motorists will pay more for their licenses for 1921, the rate having been advanced from 50 cents to \$1 per licensed pound of the weight of the vehicle, which there is also some figuring to be done on the carrying capacity. Payments before new tags are issued will therefore be about 25 per cent more than the charges this year.

The number of motor vehicle licenses issued for 1920 was far in excess of other years, being upwards of 11,000 divided as follows: Automobiles, 10,445; trucks, 55, and motor cycles, 95; total, 11,196. Every effort is being made by the public works department to have motorists buy their tags as early as possible.

## German Imperial Chancellor Is Dead

Berlin, Jan. 3.—Dr. Theobald von Bethmann-Hollweg, former German Imperial Chancellor, died Saturday night after a brief illness in his estate at Hohenhausen, near Berlin.

Dr. von Bethmann-Hollweg was originator of the famous reference to the treaty guaranteeing the neutrality of Belgium as a "scrap of paper." The reference was made in a statement before the Reichstag in August, 1914, when he gave the German viewpoint of what caused led to the war. He frankly admitted in this same speech that Germany's action in invading Belgium had been morally and legally wrong. He justified it only on the grounds of "military necessity." "Our troops have occupied Luxembourg and perhaps have also found it necessary to enter Belgium territory," he said, on August 4, 1914. "That is contrary to international law. He knew, however, that France was ready to invade Belgium, France could wait; we could not, as France would invade our lower Rhine flanks, which would prove fatal."

"So we were forced to disregard the protests of the Luxembourg and Belgian governments. We shall try to make good the injustice we have committed as soon as our military goal has been reached."

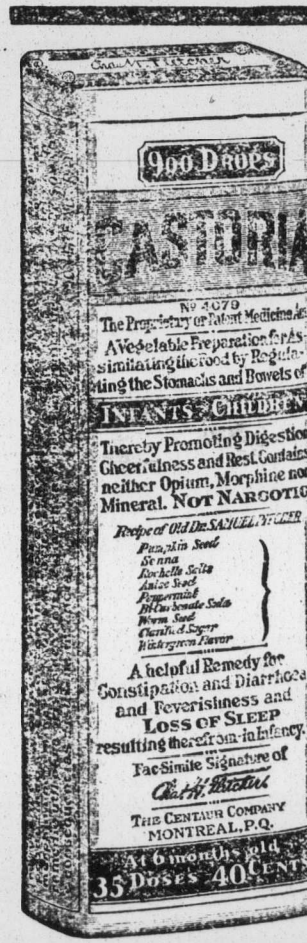

Dr. von Bethmann-Hollweg was Chancellor of Germany from July 14, 1909, to July 14, 1917. He was succeeded in the office by Dr. George Michaelis, an appointee of the former Kaiser.

## THE PROFITABLE SKUNK

The advantages of the artificial raising of the fox, beaver, and muskrat, specifically, have been pointed out, and here it is proposed to devote a few words to that much abused animal, the skunk. The fact that the animal is to be found in practically every part of the American continent, and that the pelt has sold as high as ten dollars, is sufficient to attract the attention of fur farmers and induce a study into the feasibility and advantages of the industry.

Many years ago Ernest Thompson Seton, the well known nature writer and naturalist to the Manitoba Government, advocated a more extensive artificial propagation of the skunk, and himself operated a most successful ranch of this kind. Because, largely of a prejudice against the little animal and its method of defense, skunk farming has never been firmly established in Canada as an industry although the advantages and possibilities are obviously so great. Success on other parts of the American continent and elsewhere have demonstrated the feasibility of establishing the industry firmly and profitably in the Dominion.

The skunk is widely found over the Canadian Dominion in every corner and nook where it can find food suited to its needs, and notwithstanding the fact that it is persistently hunted, trapped and worried by dogs, it continues to thrive and multiply in close proximity to settlements. The animal is neither

## Advertising A Public Necessity.

WHEN goods are scarce and prices high, people are more appreciative than ever of the right kind of advertising.

They are seeking information. They want to know how to buy to the best advantage.

They want to know how to fill their needs and avoid waste. They welcome news of desirable substitutes for the things the country needs to conserve.

They read the newspapers carefully.

The dry goods merchant, grocer, jeweller or manufacturer who does not advertise is not only missing the purely selfish opportunity, but he is failing in the service he owes to his customers.

timid nor vicious and is practically unprovoked, devouring large quantities of insects including grasshoppers, crickets, beetles and caterpillars. In captivity, its feeding is very economical, the diet consisting of meat, fish, cooked cereals, vegetables and milk. The food problem is most easily solved where the ranch is established within reach of a hotel. The contents of the daily garbage can well feed a considerable number.

The skunk multiplies rapidly with litters of from six to twelve, the period of gestation being eight weeks. Descendants may be performed when the animals are five weeks old and all possibility of future nuisance may be eliminated, but in domestic raising this is not really necessary contrary to general belief,

as the animals become remarkably tame and friendly with those handling them and never bring into play the powerful weapon nature has given them except when badly frightened by some intruder. Skunk ranching could be successfully carried on in practically every section of Canada for the animal is indigenous to every part and would find his natural conditions wherever a farm was located. In wire enclosed pens of suitable land the animals will make their own burrows and dens and need little attention beyond feeding. The demand for pelts is steady and general, and the high prices prevailing during the past few years make skunk ranching very profitable concern and argue a successful future for any development along these lines.
