"The Woman God Changed"
A Cosmopolitan Screen Production

Once she had reigned in the gayest palace on Broadway. Until . . . Now, fled to a sleepy South Sea Isle, she danced to forget her fear. Hoping ever that the world had lost her. But a New York detective stepped from the motley crowd one night and—That was where her real life began.

A romance of Broadway and Southern Seas. Of a hectic race for pleasure stilled in the peace of a lonely isle. Of a life unworthy, cleansed by trial and wreck that taught a man and a woman how to live—and love!

Here and There

The total quantity of sea fish landed on both the Atlantic and Pacific coasts during the month of July was 822,043 cwts., valued at \$2,711,440 to the fishermen, compared with a catch of 873,382 cwts. valued at \$2,866,750 in July, 1922.

Cattle in north Alberta's livestock herds now number more than 2,000,000. This industry and also the swine industry have increased amazingly in the northern part of the Province in the last few years.

Carrying large consignments from the Dominion Government and the British Columbia branch of the Canadian Red Cross, the Canadian Pacific S.S. Empress of Russia was the first ship from the American continent to arrive with relief for the earthquake-stricken famine-stricken people of Japan.

Nearly \$10,000 in fur royalties was collected in The Pas, Man., by the chief game warden last winter. This does not include the royalties collected from the Hudson Bay Company and Revillon Freres, which will more than double this amount. This does not include moneys secured through taxes, licenses and other sources of revenue.

Creamery butter made in Alberta took a total of 145 prizes out of 200 prizes offered, or 72 per cent., at exhibitions at Edmonton, Calgary, Regina, Brandon, Saskatoon and Vancouver this year. Out of 11 open championships offered, Alberta but-ter took 8. In the Calgary exhibition six provinces competed, in three others four provinces competed, and in two others three provinces com-peted.

British Columbia has reached the peak of the biggest tourist season in her history, and it is estimated that as a result of the enormous travel and the expenditure of trans-ients while in the province this summer, will be worth at least \$30,000,000. The opening of the Banff-Vindermere motor highway through Canada's rock garden was largely responsible for this increase in tour-ist traffic through the Pacific prov-ince.

Gold producers in the Province of Ontario during the first six months of 1923 report production of 354,446 ounces gold and 65,444 ounces silver, of a total value of \$7,244,081 shipped by the Porcupine producers, and from the Kirkland Lake pro-ducers 69,691 ounces gold and 6,515 ounces silver, of a total value of \$1,402,873, or from the two camps a total value of \$8,646,954.

The Canadian Pacific Railway will contribute \$25,000 for the relief of the sufferers in Japan and have also decided that supplies of Canadian food-stuffs and clothing donated, or purchased with money donated for relief work, will be transported free over the Company's rail and steam-ship lines. President E. W. Beatty made this announcement while mak- ing a tour over the Company's lines in the West with a party of directors. He added that this action had been taken because of the reports of the intense hardships due to the disaster, and notwithstanding the fact that the Company had lost heavily by the catastrophe.

The following editorial recently appeared in the Windsor "Border Cities Star": A recent cargo of silk, en route from China to New York, was shipped via Vancouver and the Canadian Pacific Railroad and cross- ed the St. Lawrence to Ogdensburg, New York, instead of being sent across the United States from San Francisco. The incident offers some- thing for Canadians to think about. It proves that a great part of the Canadian Pacific offers in its rail and steamship lines. In a coun- try like Canada, transportation is all essential, and the way the Canadian Pacific has carried on, in spite of the business difficulties which have begun with the war and are not yet smoothed out, is a credit to the na- tion which conceived it.

Again, the incident calls attention to Canada's splendid gateway to the East. Although China is in a chaotic political condition just now, the huge Oriental nation offers wonder- ful trade chances in the future. No nation is better placed for getting its share of this business than Canada.

WEDDINGS

WEATHERHEAD—ROBINSON

Wednesday morning at 7:30 o'clock in St. Andrew's Presbyter- ian church, St. John, Miss Isabella Mona Jean, daughter of Mr. and Charles Robinson, 16 Horsfield St. was united in marriage with Charles Wellsley Weatherhead of Boston, son of the late Mr. and Mrs John Weatherhead of St. John. Rev. J.S. Bonnell officiated. The bride who was given in marriage by her father, was attended by Miss Mona Lindon of Newcastle and the groom was supported by Frederick Shan- non, Benson and Everett Robinson, brothers of the bride, were the ushers.

The bridal party entered the church to the strains of the wedd- ing march played by Mrs. Hattie MacKay. Mrs. Thomas Guy sang "Oh Perfect Love" during the cere- mony. Mrs. MacKay sang a sele- ction while the registry was being signed.

There were about forty guests present at the dainty wedding breakfast served at the bride's home following the ceremony. The bride was assisted in receiving by her mother and by Mrs. Thomas Alexan- der, sister of the groom.

Mr. and Mrs. Weatherhead left about ten o'clock for Chatham and Newcastle by motor. They will return to St. John for a few days and then proceed to Boston, where the groom is in the employ of the Ward Bakery.

Many beautiful gifts in cut glass, silver, china and checks, were re- ceived, and included a beautiful casserole from the Workmen's Compensation Board, and a dozen silver tea spoons from the New Brunswick Electric Power Company where the bride was employed.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amaz- ingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean safe. Burns 94 p.c. air and 6 p.c. common kero- sene (coal oil). The inventor, J. M. Johnston, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him in- troduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and with- out experience or money make \$250 to \$500 per month.
