

"Yes, this is a Long Corset, but not too Long for this Season's Dress Fashions."
 This Redfern Model completely envelops the hips and is **Thoroughly Comfortable Sitting, Standing or Walking.**

There is a marked charm in figure poise about a woman who is corseted in a Redfern—a model that fits as well that the gown—whether really up to the minute's mode or not—assumes an air of elegance, as the beauty lines of the figure cannot be concealed if the correct model has been fitted.

Awful Catastrophe In Montreal Yesterday

One Hundred and Fifty Ton Tank Falls Through Five Story Building—29 Killed, 30 Injured—Many Employees Trapped and Burnt to Death.

Special to Evening Telegram.
 MONTREAL, June 13. In the most disastrous fire that has ever visited Montreal, 29 people were killed and 35 injured in the Montreal Herald building to-day, with the figures as yet only guess work, and it is feared that more dead will be found. Owing to the appalling suddenness with which the catastrophe came, and the completeness of the destruction of the building, it has as yet been impossible to gain anything more than an approximate list of the dead. In fact only four bodies have yet been recovered, the rest being buried under hundreds of tons of twisted and tangled wreckage which burned for hours. Just how many bodies the ruins contain can only be guessed by noting how many people are missing, and with over 300 working in the building at the time and the destruction of the pay-rolls, this has proven an impossible task so far. The disaster was caused by the collapse of a huge water tank on the top of the building, containing 30,000 gallons of water for fire purposes. About 11 o'clock this morning this tank, weighing 150 tons, broke down and was hurled through the four stories of the building, instantly killing many, including a number of young girls employed in the building. Fire followed in the wake of destruction and those who were not fortunate enough to be killed outright were burned to death. The property loss is very considerable. The Montreal Herald loss is about \$175,000 with insurance amounting to \$125,000. The building which was owned by J. S. Briery and Fred Abraham, was valued at \$90,000 with \$2,000 insurance. So suddenly did the huge mass of timber with its thousands of gallons of water destroy the building that few if any directly below had a chance of escape, and so great was the confusion that it has as yet been impossible to definitely state the number of dead. After the reservoir had slashed its way through the five stories of the building carrying death, injury and destruction with it, there was a brief interlude of almost silence, broken only by the shrieks of the injured, and the mad efforts of those who survived. Then fire broke out amidst the ruins. A few of the injured were rescued before this, but the continuity of the catastrophe with flames piling up on the destruction prevented much work being done along this line. As to the cause of the disaster it was due to the sudden collapse of the big water tank perched above the building for the express purpose of furnishing protection from fire. Its weight evidently proved too much for the building.

Boundary Claims.

Special to Evening Telegram.
 LONDON, June 13. The Times understands that James Bryce, the British Ambassador at Washington, has been authorized to sign the boundary claims agreement with the United States. In the general arbitration Treaty between the United States and Great Britain, which was signed in April 1908 a provision was made that the Treaty would not apply to existing pecuniary claims, which therefore were left open for future negotiations.

Cloud Burst Killed 150.

Special to the Evening Telegram.
 COLON, Germany, June 13. Great loss of life has occurred in the Elber region as the result of a cloud burst which swept the District Sunday night. It is estimated the number of dead is 150.
 McKinley Edition of 10 cent Music—Five thousand copies in stock to choose from. CHESLEY WOODS, Sole Agent for Nfld.—June 13, 1910.

POSITIONS AT GLACE BAY.—By reference to our want columns to-day it will be seen that there are positions offering at Glace Bay for a salesman and a saleslady. This offers an excellent chance to anyone wishing to try their fortune in a new sphere.

Boy Had Fits For 6 Years

Druggist advised DR. A. W. CHASE'S NERVE FOOD—Cure complete and lasting.
 Mrs. J. D. Palmer, 25 Park St., Amsterdam, N. Y., writes: "When six years of age my boy began to have fits. They came on in the night. He would make strange noises, stiffen out, froth at mouth, face would turn and sometimes turned purple. After the fit he could not talk.
 "The family physician said all he could do was to keep them down some what. The second physician pronounced trouble Jeffersonian epilepsy, but could not cure him. He suffered for six years and before beginning the use of Dr. A. W. Chase's Nerve Food had three fits in about five days. Our Druggist recommended Dr. A. W. Chase's Nerve Food. He has taken seven boxes and has not had the symptom of a fit since. His color has greatly improved, he is not nervous and irritable, he has used to be, and we consider his cure complete.
 "Such results are only obtained by the use of the genuine Dr. A. W. Chase's Nerve Food—not from imitations or substitutes. 75 cents a box, all druggists or Edmondson, Bates & Co., Toronto."

Great Cross Country Flight.

Special to Evening Telegram.
 NEW YORK, June 13. Charles K. Hamilton arose from Governor's Island in an Aeroplane this morning and after speeding without a break 88 miles to Philadelphia, he rested awhile and then made a return trip to Governor's Island although interrupted for nearly 6 hours by a bothersome motor. This remarkable cross-country flight of more than 175 miles was made for the New York Times and the Philadelphia Public Ledger. Hamilton made the trip to Philadelphia in one hour and 51 minutes, leaving Governor's Island at 7:35 and landing at Philadelphia at 9:26. Alighting at Aviation field he delivered letters from Governor Hughes and Mayor Gaynor to Governor Sturt and Mayor Rebyorn, accepted messages of congratulations from them to bear in return, and started for New York again with only a brief intermission for food, fuel and oil. He had flown about 70 miles of his return journey when a sluggish motor drove him to descend in a swamp near South Amboy, N. J. The propeller was broken there in landing but, after repairing the machine Hamilton resumed his flight at 6:20. The return trip was made in one hour and 36 minutes at an estimated average speed of 54.96 miles per hour which breaks the record made by Curtiss fight from Albany to New York. Curtiss still holds the official record for speed but Hamilton to-day took all American records for cross-country distance and duration and time. He finished within 12 hours although 24 hours were allowed.

McMurdo's Store News

TUESDAY, June 14, 1910.
 A really good hair brush will last for years, and even then not be past its work. But it must be a good one. Cheap hair brushes soon give out, and become soft and useless. Even the backs go to pieces in many cases. We have just now a selection of hair brushes which fulfill all the requirements of a first-class brush. The hair is good and well fastened in; the backs are firmly attached to the body of the brush, and will not part company with it. There are ladies' and gentlemen's styles, but all are of high quality, and the more expensive ones of the very highest. Prices from \$1 to \$4.

Seized Her Furniture.

About a week a woman who resides on New Gower Street was fined \$50 for selling hop beer over proof. She was given time to get the money to pay the penalty. This period of grace expired yesterday, and as she could not settle up, in the afternoon Sgt. Savage and Officer Stamp proceeded to her residence with a furniture car and removed furniture to the value of the fine from the house. This consisted of chairs, tables, couch, lamps, etc., and all was taken to the premises of an auctioneer to be sold at auction. The incident attracted much notice, and great sympathy was expressed with the unfortunate female whose husband we learn has been out of the country several years and does not contribute to the support of the woman and her family.
 The Siberian arrived at Glasgow this morning.
ASK FOR MINARD'S AND TAKE NO OTHER.

Foreign Minister Grey Praises Roosevelt's Guild Hall Speech.

Special to Evening Telegram.
 LONDON, June 13. Then Roosevelt's Guild Hall speech led to a lengthy discussion of Egyptian affairs in the House of Commons tonight. The Conservatives demand what course the Ministers propose to pursue and some of the Liberal members denounced what they termed Mr. Roosevelt's interference. Arthur J. Balfour expressed warm appreciation of Mr. Roosevelt's sympathetic and kindly treatment of the subject. There was nothing in the speech, he said, to which the most sensitive could take exception. The situation in Egypt, he declares, called for prompt action and he hoped that the Government would take steps to support the British representatives there without which they would be helpless. Sir Edward Grey replying to the criticisms in behalf of the Government, said: He had seldom listened to a speech with greater pleasure. Its friendly compliment to the work of one country ever paid by a citizen of another. There was nothing in the present situation in Egypt, the foreign minister declared, to occasion disquiet or justify a sudden resort to unusual methods, but if the symptoms already noted of anti-British agitation continued, the Government would take measure to assert its authority and protect the Egyptian Ministers who followed the Government's advice. Interpellations were submitted to the House during the course of the day bearing on the same subject to which the Secretary of Foreign Affairs made a brief reply.

Methodist Clergy Here.

By last night's train there arrived here Revs. Snowden, Whitmarsh, Nurse, Reay, Curtis and others to attend the annual District Meeting of the Methodist Church which opens to-night at Gower Street Church.

Instantly Killed.

Thomas Hill, a Newfoundlandier employed at the Nova Scotia Steel and Coal company's limestone quarries at Prince Edward, C. B., was instantly killed yesterday afternoon by being run over by a car loaded with dolomite. Hill was helping some other men to move the heavily loaded car, and just after it had been got under way he stumbled and fell under the wheels which almost cut his body in two. Hill leaves a wife and family in Newfoundland—Halifax Acadian Recorder, June 10th.

Had Plenty Cash.

Yesterday evening the police found a salesman for a foreign concern wandering about the streets in such a condition of intoxication that he could not take care of himself. On being brought to the police station the Chief Constable was surprised to find in his pockets \$53.59 in notes of different denominations and cheques for \$56. In not many seaport towns of the size of St. John's would a man go around with such a large amount of money and under such conditions without being relieved of at least a portion of it. The people of St. John's are an honest lot.

PARISHIONERS MEET.—The men of St. Patrick's Parish are reminded of the meeting to be held to-night in the basement of the Star of the Sea Hall to deal with the question of repairs to St. Patrick's Church. The meeting will be called to order at 8 o'clock.

FISH STRIKING IN.—A city mercantile firm had a wire to the effect that there was good fishing with hook and line at Renew, Fermeuse, Cape Broyle and other places along the Southern Shore yesterday. The cod taken were of a large size and the boats took from 2 to 4 qts. each.

THE WOES OF THE WEAK-STOMACHED MAN

Relieved by Father Morriey's "No. 11"
 Did you ever see a happy dyspeptic? Or a man cheerful over his indigestion? No wonder you didn't, for the man who cannot digest cannot enjoy very much. When the stomach refuses to work the whole system goes wrong, and there follows heartburn, headache, constipation, bad breath and severe pain. Then the mind is affected; a person becomes irritable, sarcastic, surly—in fact, almost unbearable.
 Father Morriey gave this matter special study, and devised a tablet now known as "Father Morriey's No. 11," which relieves the misery. Each tablet is capable of digesting 150 pounds of food—a good square meal. One tablet after eating, with a half tumbler of water, insures perfect digestion, providing reasonable care is taken to avoid foods that have been found especially disagreeable to the stomach.
 If you have suffered from a weak stomach, why not do as thousands have done—take Father Morriey's No. 11 and be cured? Get it from your dealer's, or from Father Morriey's Medicine Co., Ltd., Chatham, N.B.

WEDDING George Knowling PRESENTS

FOR THE BRIDE we have a storeful of attractive things, in all lines of China and Glassware, at all prices. Any article, large or small, selected from our store is worthy of a place among the most Treasured Gifts.

Beautiful Hand-Painted China, in Dessert Plates, Jugs, Vases, Bowls, Teapots, Sugars and Creams. Dainty pieces, artistic designs, quality the best.

Personal attention given to all orders. Good Packing. Prompt Delivery.

CHINA George Knowling GLASS

Firemen Called Out.

The firemen were called out to Circular Road last night to Mr. Jos. O'Reilly's house, where a fire was in progress. Volumes of soot and "flankers" were coming from the chimney and falling on the roof. The chemical engine was put into action and the fire was put out in five minutes. A long procession of citizens attracted by the sound of the fire alarm and the noise of the fire engine went to the scene of the fire in a hurry and looked disappointed that they did not get the worth of their money in excitement.

Injured Man Here.

George Pulson, the carpenter of the Norwegian steamer Ellen, who fell into No. 4 hold on that ship at East Wabana, Saturday, was brought here by the S. S. Mary from Bell Island yesterday afternoon. The man fell over 20 feet and narrowly escaped being killed. He is badly hurt internally, his head badly cut and bruised, and one of his legs broken above the knee. He was unconscious for quite a while. Mr. Tasker Cook, the Consul for Norway, was present when the vessel arrived and saw the man transferred to hospital.

BRANCH LINE WORK.—

There are now 1,200 men working on the Branch Railway. The rails are laid to within two miles of Goose Bay and the grading is finished to Seal Cove in Southern Bay.
