WASHINGTON, Jan. 22. The Duke of Connaught, who is making a flying visit to Washington, will pay his respects to Taft. It was learned to-day, though the original plans did not include a call on the President, which fact called for much comment.

BERLIN, Jan. 22. The Socialists, as a result of to-day's re-ballooting, show a total membership of 99. This is the outcome of another remarkable change in the political atmosphere, and, coupled with 33 victories for other parties, the chances of the Government retaining its former majority are very doubtful.

PORTLAND, Me., Jan. 22. A report was current here yesterday to the effect that the C. P. R. has planned to checkmate the Grand Trunk entering Boston by getting control of the Allan Line of trans-Atlantic steamships and building a new line of railway to connect with the present line at Newport and Vermont, and run directly into Boston.

LONDON, Jan. 22. The Daily Telegraph announces authoritatively that Churchill will go to Belfast to speak in favor of Home Rule February 8th, no matter what the opposition offered. The Telegraph's Belfast correspondent declares that both sides, Orange and Nationalist, have been warned, and that bloodshed is certain. A despatch to the Daily Mail, from Belfast, says that eight thousand Orange shipyard workers will march down the streets, as on previous occasions, with their pockets filled with bolts and rivets, which are more formidable than bullets. The Daily Chronicle's Belfast correspondent says: "The Liberals are determined not to submit to mob law. Huge contingents of armed members of the Ulsterian order will travel from many parts to Belfast to protect Churchill, and the police from

all the neighbouring districts will be summoned to the city.

PEKING, Jan. 22. Anxiety among the public is becoming more tense each day, owing to the continued delay in reaching a solution of the present deadlock. Outbreaks on the part of reactionary Manchus are expected to occur any moment. It is now considered indisputably proven that revolutionaries are alone responsible for the attempt on the life of the Premier, one of their number having thrown the bomb.

PEKING, Jan. 22. It is expected the abdication edict will be issued Tuesday (to-day). The name of the new Chinese Empire will be known as "Chung Kwo."

LONDON, Jan. 22. The German Colonial Secretary is on his way here to discuss Colonial questions with the local authorities. It is assumed in some quarters that his visit foreshadows some Anglo-German deal.

LONDON, Jan. 22. Work has been resumed everywhere in the cotton trade, with the exception of a few spinning mills.

LONDON, Jan. 22. Sir Thomas Gibson has been appointed Governor of the new province of Bengal.

Bob Berry Here.

Bob Berry, the middleweight wrestler of England, came here yesterday by the express from Placentia. Though on the road since Wednesday last he is in good trim and is accompanied by Mr. Collins, of New Bedford, who is his manager. Berry has been enjoying good health since he visited St. John's before, says he is in better form than last season and hopes to defeat Young Olson when he meets him Friday night. The night before Berry left for St. John's he wrestled with and defeated at Rochester a middleweight named Hammel, getting the first fall in 25 and the second in 11 minutes.

Declared Six Per Cent.

Yesterday the annual meeting of the Labrador Whaling and Manufacturing Co. was held, when a dividend of 6 per cent was declared. This was most satisfactory to the shareholders, who during the summer feared that the Co.'s whaler, the Cachalot, would make a failure of it as for a long while she took no fish. She, however, did excellently in the latter part of the summer and in the fall months capturing several sperm and other whales, and after reel up time had a paying voyage to her credit. The old Board of Directors were re-elected. These are: President and Manager, D. A. Ryan; Secretary, Hon. John Harris; Messrs. W. D. Reid, James Ryan and J. Henderson.

E. W. L. Express Arrived.

The express that left here on Sunday evening at 6 o'clock reached Port aux Basques at 3.30 this morning. This is a good run considering the condition of the weather. The Glencoe left Placentia at 9.40 a.m. yesterday direct for Port aux Basques and got there shortly after the express arrived. The next express inward is expected to reach here Thursday afternoon should the Glencoe make a good run back and forth on the Gulf.

Fogota Returns.

The S. S. Fogota being unable to get north around Cape Freels owing to the ice being packed in on the shore, returned to port to-day. The ice is filled in closely on the north side of Bonavista Bay, and even the most powerful of our sealing steamers would have their work cut out to get through it.

Trial Trip.

The Bruce will make her trial trip next Thursday morning. Delay was caused in putting in the engines. It is expected that she will leave for St. John's about the 29th. On arrival at St. John's there will not be more than 24 hours delay before sailing for Port aux Basques to take up her route.

DIPHTHERIA.—A case of diphtheria developed at Cook Street yesterday; the patient is being nursed at home. This is the second case in this house.

SCARLET FEVER.—This disease is increasing in the city. A case broke out at 96 Freshwater Road last Saturday and the young woman was removed to Hospital. Yesterday a case developed at 9 British Square, which was also taken to the Hospital.

Third Annual Re-Union.

The third annual dinner of the Newfoundland Society of New York was held at the Manhattan Hotel on the evening of December 30th. Among those present were Messrs. Edwin F. Howell, Edwin B. Woods, R. J. Hutson, Thos. M. Woodford, F. W. Finlay, E. St. John Howley, John A. Lawrence, Capt. J. W. McGrath, Capt. Ed. Nichols, Capt. James Dalton, W. J. S. Ryall, Thos. F. Foley, James F. Allen, Ed. J. Bourke, P. J. Healey, Wm. H. Pike, Banj. R. Buffett, George Le-Messurier and James D. Goodwin.

Of the leading hotels of the City the Manhattan was chosen for the occasion because of the preference shown for the hospitality by the Premier and other representative Newfoundlanders while sojourning in New York.

The Colonial flag, of pink, white and green, depended gracefully over the President's chair and was patriotically greeted by the assemblage. The table was a profusion of pink and white carnations, ferns, foliage and green leaves, emblematic of the colors of dear old Terra Nova, while numerous candles covered with pink and green shades shed a mellow light over the scene.

The following excellent Menu was served:—

Manhattan Cocktail.
Lynhaven Cocktail.
Cream of Asparagus.
Olives. Celery. Salted Nuts.
Filet of Bass Joinville.
Cucumbers.
Saddle of Canada Lamb Saivandi.
Kirsch Punch.
Roast Mallard Duck.
Hominy. Jelly.
Salad Leon.
Frozen Plum Pudding.
Assorted Cakes.
Coffee.

As the evening progressed "the feast of reason and the flow of soul" was indulged in "con amore," many an old Newfoundland story was told again, but like good wine, (at least to the boys there assembled) they seemed to be more enjoyable for being old and being of Newfoundland.

The following toasts were given:—

President Taft. Responded to by U. S. Immigration Inspector, Edwin B. Woods.

King George V. Responded to by Mr. W. J. S. Ryall.

The Governor of Newfoundland. Responded to by Mr. Robert J. Hutton.

The Premier of Newfoundland. Responded to by Mr. E. St. John Howley.

The Newfoundland Press. Responded to by Mr. Thomas M. Woodford.

Ladies. Responded to by Mr. Benj. R. Buffett.

President Howell then addressed those present. He outlined the advantages to be derived by holding together as a Society and urged them to leave no stone unturned in their endeavor to build up an organization that would be a credit to them as Newfoundlanders, and a credit to their Native Land, old England's oldest Colony.

The Secretary and Treasurer's reports were then read, and the election of officers proceeded with, the same board being practically retained for another year, the only changes being that of Mr. J. F. Allen and Capt. James Dalton were elected Governors in place of Messrs. A. E. Foran and Joseph Wiseman resigned, and Messrs. Bourke, Moore, Goodwin, Wade and Allen being elected members at large.

After a few jocular remarks by Mr. E. B. Woods gotten off in the style characteristic of "Ed", as the boys always affectionately allude to him, Mr. E. J. Bourke addressed the meeting and proved to be the orator of the evening.

Mr. Bourke, in part, said, though he left Newfoundland a young lad over forty years ago, yet he can vividly recall to mind many scenes and personalities of the old days. To the younger generation he would say that they should be proud of the stock from which they sprang.

Their forefathers fought that they might enjoy the blessings which they do to-day. The spirit of 1776 was as much alive to-day as ever it was, and while they owe allegiance to the flag under which they live and to the country that gives them a home, yet they must never forget dear Old Terra Nova, "the ocean's bride, nestled 'neath the ocean's foam."

The celebration came to a close as the hands of the clock pointed toward the wee hours, each member retiring, feeling a much better and a much happier fellow for having spent an evening with the boys from home, sweet home.

E. ST. JOHN HOWLEY, Secretary and Treasurer Newfoundland Society of New York.

Seven Frozen to Death

In Oklahoma and Three in Kentucky Mountains.

Delhart, Texas, Jan. 16.—Seven persons are reported to have been frozen to death in what is known as "No Man's Land," in the extreme southwestern corner of Oklahoma, during the recent blizzard. Five members of one family were found dead on a farm near Guyton, Okla., the body of Henry A. Allis, a farmer, was found in a road near Hooper, Okla., and a "freighter" was frozen to death while en route from Ochiltree, Texas, to Liberal, Kansas.

Hazard, Ky., Jan. 16.—Snow bound in their mountain cabin home, the three children of Mrs. Nancy Allen Fuzzy, of Grapevine, near this town, perished from cold, and Mrs. Fuzzy was found lying unconscious beside the frozen bodies on the floor. A neighbor noticed that no smoke issued from the chimney and dug his way through the snow into the cabin. A search revealed the fact that there was neither food nor fuel in the hut. Efforts to revive the mother have proven unavailing.

Uncle Walt THE POET PHILOSOPHER.

I asked old Skaggs, who deals in greens, if he has any first class beans. He struck an attitude and cried: "I'm pointing to my beans with pride."

No man e'er gathered from the vine such all-fired lovely SUPERLATIVES beans as mine! Seek through the world, go east, or west, you'll find my beans are still the best. And when at last your spirit flies to roam the gardens of the skies, you'll find no beans, where hours sleep, as good as these I sell dirt cheap." I asked old Skaggs about his peas. "You'll never find such peas as these," he said, "and when it comes to squash, no man can rival me, b'gosh. Canned pumpkin? Well, that's where I shine! There's nothing half so good as mine, and this here cheese—oh, thunder, man! just find its equal if you can!"

His trade is falling off, they say, and he'll go broke some winter day, for folks don't like to trade with Skaggs who shows no judgment when he brags.

When the Nerves Cry— Look to the Tea and Coffee

The cry may be in some one of many ways—Trembling, Sleepy in the day time (comes from stomach) Headache, Dyspepsia, Bowel Trouble, Heart Palpitation, and even Pains in various parts of the body originate in a disordered nervous system. Such a condition of the nerves may be produced from various causes. It is very often brought on by Tea and Coffee.

If you don't heed the cry (Nature's hint) you may be sure the trouble will get worse, and not better, until you either quit the cause, or you develop fixed organic disease that may carry you down.

It is the finest trade possible, to quit tea and coffee, and observe the results.

Health is the most exquisite fun on earth.

It is easy to quit tea or coffee when you have choice, well-made

POSTUM

a delicious hot beverage with a deep seal brown color which changes to a rich golden brown when cream is added. Then you have the crisp "snappy" flavour all its own. The nerves are relieved of the old hurt of the poisonous "Caffeine" of tea and coffee and in its place you feed the system on the strong food elements in Postum which help to quickly rebuild the worn out and exhausted nerve and brain cells destroyed by tea and coffee.

These are facts. Prove them by 10 days' trial.
