

HOW TO MAKE Boys' PANTS Last!

Some joker or wiseacre has said, "Make the coat and vest first." The wise mother knows it is no joke to get Boys Pants to last, and in fact it is practically an impossibility, as Boys will be boys now, as always, in any pair of Trousers.

We are showing this week a pretty good range of

BOYS' PANTS.

We do not guarantee that they will last any longer than any other Boys' Pants, as we do not feel we could be responsible for these garments for any healthy boy. But these goods are very difficult to get and we want to tell the boy's mother

WE HAVE THEM!

Sizes run from fours to tens, and in one range made of English Woolen Tweeds the price of size 4 is \$1.45, rising 5c. extra for each size larger. We have other qualities of course. And right here we want to say

We Can Supply the Boy's Dad

with a pair of English Tweed Trousers at \$2.25 or \$2.50 pair. You cannot better these values.

We are also showing a splendid range of

Men's Winter OVERCOATS.

These are of the latest cut, double breasted, belted, and newest style collar, and are very reasonably priced.

Thoughts Upon the Times.

(By PATRIOT.)

With pork at fifty dollars a barrel and bacon forty cents a pound, it is not surprising that the good people of Harbor Grace propose starting a hog ranch. A public meeting with that object in view is to be held in the Second City to-night. Thirty years ago hogs were successfully raised on nearly every homestead in Newfoundland. Now they are almost as rare as the great auk. Why is this? Partly because the price of barrelled pork before the war was cheap and corn meal and other feeds were high in price, and partly because the average housewife, unlike their mothers and grandmothers, consider it beneath their dignity to engage in the work of raising and feeding hogs. The so-called system of Higher Education which teaches girls algebra, mensuration, etc., instead of domestic science and a practical knowledge of their own country and its resources, may also account for it in some measure. Anyway, pork and bacon will soon be beyond the reach of the average housewife as an article of food, and indications show that it will be a long time before it becomes plentiful and cheap again. Any intelligent attempt therefore that is made at hog raising should be encouraged by every lover of his country. The attempt made the past season to grow potatoes resulted very successfully, and the country that can grow potatoes can raise hogs.

The proclamation posted up throughout the country calling for a revision of the voters' list shows that the powers that be anticipate holding a general election in the near future. There are many important questions agitating the public mind just now, but the most important is, or should be, "Are we doing our best to win the war?" Our first and best endeavours should be devoted to doing everything in our power to bring the war to an end with victory on the side of the Allies. Had all the people in the British Empire worked together from the first the war would have been over now. Then again, there is the very important matter of our past, present and future war loans, and in this respect the Government is to be blamed in not attempting to raise part, at any rate, of our war loans in Newfoundland. Canada has just made another appeal to her people for a victory war loan of one hundred and fifty millions of dollars. The people have risen to the occasion splendidly and oversubscribed the victory loan by millions of dollars. This loan gives a net interest of 5 1/2 per cent. and is payable in five, ten or twenty years. Although our own people have had a very successful year and money is plentiful in Newfoundland, the Government has made very little effort to induce people to invest their money in the war loan, but instead the Premier is sent to the States or England to borrow the money. People place their money in the banks where they receive only 3 per cent. It should be the duty of every loyal Newfoundlander with spare money by him to lend it to the Empire for the purpose of winning the war and keeping its debts within its own country if possible. When France was called upon to pay Germany the huge indemnity in 1917, she borrowed it from her own people. This is perhaps one of the reasons why France became wealthy. As an investment the war loan furnishes the best security imaginable, and its rate of interest is as high as safety makes it wise to expect. It is safer than the banks, and they are considered safe enough. They only allow depositors 3 per cent., whereas the victory war loan brings an investor at least 5 1/2 per cent. Every million dollars borrowed outside of Newfoundland means at least fifty thousand dollars going out of the country and into the pockets of the foreigners. Let our aim be, "Keep the money in the country by investing in the war loan."

MILLIONS DIE

Every year from Consumption, Millions could have been saved if only common sense prevention had been used in the first stage. If YOU ARE a Sufferer from Asthma, Bronchitis, Catarrh, Pleurisy, Weak Lungs, Cough and Colds—all Diseases leading up to Consumption—Tuberculosis, YOU ARE interested in Dr. Strangard's T.B. Medicine. Write for Testimonials and Booklet. DR. STRANGARD'S REMEDY CO., 222-224 Yonge Street, Toronto.

DAY OF PRAYER.—Tomorrow being the feast of St. Andrew, the day will be observed by continuous service at the C. of E. Cathedral, when parishioners of the other churches are invited to attend and offer prayer for periods of twenty minutes.

What Would It Be Worth to You To Be Free of Indigestion

INDIGESTION becomes a habit to a certain extent. Many of the conditions under which we live are artificial. We eat too much, take too little natural exercise, and have too much worry and anxiety. The digestive system does not get a chance.

The liver is usually first to get out of kilter, then the bowels become constipated, and the whole process of digestion is disorganized. Instead of being properly digested, the food ferments and causes sour stomach, belching of wind, pressure of gas about the heart, suffocating feelings and fainting spells.

Headaches, pains in the limbs and back, tired, depressed feelings, irritability and discouragement are other symptoms.

You may have tried stomach medicines and aids to digestion until you have given up in despair.

And Rid of the Poisons Which Cause Pain, Tired Feelings?

Operation Avoided

Mrs. Annie Watkins, Glace Bay, New Harbor, N.S., writes: "I think it is time for me to give my experience with your wonderful Kidney-Liver Pills. For seven months I suffered with what the doctor called indigestion, but whatever it was, I suffered terribly. The pain would start under my left shoulder and pass down my side until it reached the pit of my stomach. It just seemed as if the flesh were being torn from the bone. At times I used to go without food from one morning until the next. I had no energy left for work at all. At last our doctor sent me to the hospital for a month. For four days and nights I never broke my fast except for a drink of water. After four weeks' treatment there I returned home, and was back only four days when the pain came back worse than ever. Then I was told I would have to undergo an operation, but I would not consent to that. At last I read about Dr. Chase's Kidney-Liver Pills and started to take them. At first I did not notice much difference, but still I kept on using them, and by the time four boxes were used I was perfectly well again. That was in 1914, so you see I can safely say that I was cured. I shall always be grateful to Dr. Chase's Kidney-Liver Pills, as they did more for me than four doctors."

But what would it be worth to you to be free of all this trouble, to feel again the old energy and vigor, and to enjoy healthful living?

Dr. Chase's Kidney-Liver Pills are not offered to you as an experiment. There is no question as to what they will do by way of awakening the action of the liver, kidneys and bowels, and removing the cause of indigestion and kindred ills.

Their curative powers have been proven in hundreds of thousands of cases, until they are established in the great majority of homes as the one family medicine which is indispensable.

It is for you to apply this treatment in your own case. It will only cost you a quarter to make the test, and we do not hesitate to predict that the results will surprise and delight you.

Dr. Chase's Kidney-Liver Pills

One pill a dose, 25c a box, 5 for \$1.00, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Add water to milk—
You weaken the milk.
Add soft wheat to flour—
You weaken your flour.
Cheapens it too.
Soft wheat costs less—worth less.
Soft wheat flour has less gluten less nutriment.
Your bread is less nutritious, sustaining, economical.
Soft flour has less strength, less quality gluten.
Giving less good things for your money and things less good.
Use Manitoba flour—Manitoba hard wheat flour.
Having everything the soft stuff lacks.
Five Roses is all Manitoba.
Without a grain of cheaper wheat.
Strengthen your food values.
Use FIVE ROSES.

Milady's Boudoir.

THE FINGER NAILS.

In treating the finger nails the greatest care and delicacy should be exercised. The orange wood stick and

a little friction will do better work than the cuticle knife and scissors. Never scrape the nail.

After grooming each finger end, dry with a soft bit of old linen and anoint with cuticle cream until time to polish when the cream may be removed. Great care should be taken to wipe all the emollient off from the base of the nail.

For the polish one needs a jar of nail paste and a small polishing stone which is more convenient and less wasteful than the old fashioned powder. Each nail is touched with a small amount of the paste, the polishing stone is rubbed over the chamois skin buffer and then the shining up process begins.

Ply the polisher briskly. Since the paste and the dry substance are both forked into the cuticle to a certain

extent, the polishing must be followed by a "once over" with the orange wood stick which has been dipped in the soapy water.

Rinse the hands in clear cold water, dry very carefully, give a final polishing with the palm of the other hand and finish with a few drops of toilet water. The small rim of epidermis which laps over the nail should be gently released each morning with the orange wood stick after the hands have been carefully bathed.

To Cure a Cold in One Day. Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 30c. M.W.

WINARD'S LINIMENT FOR SALE EVERYWHERE.
