### Encourage Home Industries.

The Trade Review, in its current issue, gives an additional boost to the resolutions passed by the Newfoundland Industrial Workers' Association recently, and carries on by practical illustration the ideas of that body as expressed by the sentiments of its members in session convened. The daily press has placed itself on record as being entirely in accordance with the request made by the N.I.W.A., that all patriotic Newfoundlanders buy the articles manufactured in their own country rather than those made in and imported from foreign countries. There is reason as well as sound finance in adopting such a plan of purchase. In the first place the money is kept within the dominion, thereby making it possible for the local factories to continue working full time and employ the maximum number of workers. In the second, a flip of this nature given to home-made articles would so encourage the manufacturers that they undoubtedly would make every effort to increase their output, which would mean a corresponding addition to the number of operatives employed. And in the third place the circulation of money spent on local products would create a revival of trade in other directions, and incidentally bring more golden grist to the mill.

Home manufactures number amongst them many necessities. Local factories produce articles which are always in demand by all classes. Boots and shoes, clothing (outside and inside), soap, paints, oiled clothes, lines, twines, tobacco, confectionery, stoves, castings, nails, biscuits, bread, and other commodities in general use, the purchase of which by consumers and users would add greatly in relieving the present situation in local labor circles. Every single item in the list named above, when imported into the dominion from outside producers and salesmen and purchased by our own people mean just the value of the article in a loss to the community of labor. Every item of the above list when bought locally as the product of home industry, means just that much extra money kept into circulation in the dominion. And it means more, because it helps to build up, to increase, to enlarge local products and the places in which they are manufactured. It means further more employment, and more employment means more money to spend, and greater opportunities for employees. It is a first—one might say an imperative—duty on consumers, especially under present circumstances to buy and use only home-made goods. It is not only patriotic, it is common sense and should appeal to all Newfoundlanders.

The quality and finish of local manufactures from a tenpenny nail up to a suit of dress clothes, is equal, if not superior to, its imported equivalent. Skilled

and competent labor produces every article and the majority of the artisans and mechanics and finishers are Newfoundlanders born and bred. Local industries were established and created to supply a demand, which for a long time had been made on foreign countries, no less than to give employment to hundreds who would otherwise have been obliged to leave home and give the best that was in them to building up the industries and trade of other countries. And it is not fair to either manufacturers or employees that we should turn aside from their products and give preference to imported articles, probably the output of people not in sympathy with either ourselves or our principles. It is robbing our own labor of its rightful inheritance to turn down local manufactures. Why buy the products of sweat shops in other countries, when as good and in many cases a better article produced under just and equitable conditions of labor at home, can be had for less money, and by no means of inferior quality. Such goods as we have to buy abroad let us buy, but there is no reason why articles of local manufacture should not be more freely purchased than they have been. The prosperity of any country depends upon the encouragement of its industries. Newfoundlanders have not, as a whole, been supporting their own in the way they should have been, and the result is being witnessed at the moment by factories running at half time or with only half their working staff kept on. It is not too late to retrieve such an unfortunate situation. The remedy is in our own hands. Let the slogan for the future be "Buy Newfoundland Goods, and Encourage Home Industries."

### Supreme Court.

(Before Full Bench.)

### Police Court.

A drunk was discharged.  
Two of the four young men who recently appeared before the magistrate on a charge of felony, and appeared in court this morning to hear new charges read against them. The other two will hear the charges this afternoon. These new charges are as follows:  
"That on November 10th they did assault Peter Hickey, Wm. Power, Wm. Russell, Augustus Bishop and Joseph Bishop;  
"That on the same date they occasioned Peter Hickey bodily harm, assaulted Ellen Power, Augustus Bishop and Joseph Bishop, and incidentally assaulted Alice O'Neill."  
Mr. Higgins, K.C., for accused, asked for bail. The Deputy Minister of Justice consented, and bail was allowed in the same amounts as before. The further hearing of this case will be held on Thursday next at 3.30 p.m.

### Icebergs Reported.

The Captain of the S.S. Mapledene reports that he passed 4 small icebergs in the vicinity of Cape Pine, and when off Renewa one very large berg was sighted. The Captain states that the berg would be two or three times as large as his ship and was low in the water, making it very dangerous to navigation.

### And E'en the Heavens Wept.

The anxiety of many, many months of waiting was lifted from the minds of a long-suffering people, when our "Elusive Premier" arrived by special train to-day. At the Premier's special request, there was no public ovation, and only a few personal friends and a small number of curious people, anxious to see how our leader looked after his strenuous holiday, were at the station to greet him. The elements were so overjoyed at his safe return, that perforce, they had to weep tears of joy the whole morning.

MINARD'S LINIMENT RELIEVES NEURALGIA.

### Old Ladies' Home.

The Old Ladies' Home, which is under the management of the Cowan Mission, is now filled up, and already there is a small waiting list, which is proof enough, if any were wanting, of the necessity and usefulness of this institution. In the meantime, the Cowan Mission is sadly in need of funds, which with to carry on their good work. The proceeds of the sale of work to be held on Wednesday next by the Thursday Wanderers, will go towards the Home, and the sale should therefore be well patronized.

The Cowan Mission is now preparing for a treat which they intend to give the inmates of the Home at Christmas. All contributions, no matter how small, will be welcomed by Mrs. Brehm or other members of the Mission. ### McMurdo's Store News.

We hear remarkable accounts of the value of Buckley's Bronchitis Mixture in cases of Bronchitis, coughs, and colds, and in the sort of weather we are having nowadays, alternately frosty and sleety, and blowy all the times it is well to have something right at hand that can be depended upon to prevent a cold from going very far. We believe Buckley's Bronchitis Mixture to be the very thing needed for this purpose. Price 75c. a bottle.
