-VULCANITE ROOFING

Vulcanite Roofing is made and guaranteed by the Beaver Company, Ltd., makers of Beaver Board. During the year 1920 and 1921 Vulcanite Roofing sold at seven dollars per roll. THE PRICE OF VULCANITE ROOFING IS NOW ONLY \$4.00 PER ROLL. Each roll of Vulcanite Roofing is full size, complete with nails and cement for laying. A roll of Vulcanite Roofing contains 108 square feet and will cover 100 square feet of roofing surface. Vulcanite Roofing when laid by a certificated roofer, is guaranteed to last for fifteen years. Vulcanite Roofing is guaranteed fully equal to higher priced roofings of similar weight and size. At \$4.00 per roll Vulcanite Roofing is cheaper than felt, because giving better wear it outlasts felt. When Vulcanite Roofing is used, you do not need to buy nails or tins, and your roof does not need to be painted or tarred, or otherwise coated until the Vulcanite has been 12 months on your roof. Roofs covered with Vulcanite Roofing pay lower insurance premiums than roofs covered with felt.

If it is a good, clean contract they will carry it on at once in a manner devoid of graft and corruption. There will be no "rake off" for anybody.

Mr. J. V. O'Dea, who acted as Squires' Chairman last night, must now realize that that life-long coveted seat in the Upper House is as far off as ever. Poor John V! The idea of calling any party that he is associated with "a Liberal party" is enough to make a horse laugh.

The lesson that cannot be escaped as the result of last night's meeting of Squires' supporters at the Majestic is as plain and convincing as though the ballots were counted, viz. St. John's will give Bennett six men. Of a certainty we are going to have BENNETT and BETTER TIMES.
