The Recent Farthledake.

Telegrams from all pairts of the country show that the earthquake on Sunday morning extended from the western part of this Province down to the North Shore, below Quebec. The duration of the shock varied from a few seconds to two minutes, apparently increasing in intensity as it travelled castward—that being the direction it took—indexing from the time at which the disturbances are reported to have occurred. No serious consequences followed the earthly rocking in any place. The shock appears to have been most severely felt in parts of the Magara district, and about the "ancient capital," though in some other towns the afficilited people for a few hinnites expected to instantic witness the demonstrated for instantic witness the demon
