BATTLING TO SAVE HIS LEADERSHIP

Soldiers' and Workmen's Council Questions His Power

Petrograd, Sept. 29.—Premier Kerensky took the initiative today and faced coldly what may be the supremetest of the power of his government. At the very beginning of the democratic congress, called by the Maximalists and the council of workmen's and soldiers' delegates to question his power, and perhaps to demand a new government, the greater of the chellenge.

the premier accepted the challenge.

The premier told the congress that his regime had saved Russia in its darkest hours. The government also indicated its policy of a firm continuation of the war when Gen, Verkhovsky, the minister of war, pledged the convention to a final victory over Germany, if discipline in the army was restored. The general's reference to the return of discipline and his announcement that the officers would be named by their superiors, instead of elected by the soldiers, was applauded only mildly, but his address as a whole evoked more cheers than did the premier's.

APPLES FOR AUSTRALIA Ottawa, Sept. 29.—The Australian government has lifted the embargo on apples. The department of trade and commerce has received a cable to this effect from D. H. Ross, Canadian trade commissioner, Melbourne. Permission is granted for the importation from Canada of 4,000 boxes early in October, and 6,000 boxes for the late November by the recent air raid, after being blind for four years.
