Chautauqua Form of **Education Introduced**

New York City, Aug.—(By The Aswas presented at the Abyssinian Baptist Church with a programme that began on the afternoon of August 10, and is to continue for a complete

The church in its effort to perform a community service interested a number of speakers of both races, most of whom are persons of national reputations. Among these are, John Louis Hill of Chicago, author of "When Black Meets White"; Congressman Hamilton Fish, Jr., Gordon White, dramatic editor of the Billboard; and Dr. J. W. E. Bowen, of Gammon Theological Seminary, atlan-

Some of the entertainers who were presented on one or other of the daily programmes were: Melville Charlton, organist, who was recently given the honorary degree of Doctor of Music at Howard University; Abbit Mitchell the internatonally known soprano; J. W. Cooper, a lyceum ventriloquist; the Chautauqua Quartette, Richard B. Harrison, dramatic reader; William Elkins. of Choral Club fame.

THE NEGRO RACE; WHO ARE THEY?

(By S. E. G. Allen)

Who are they? What is their condition? What position do they hold among the white races in America? These are questions that too many of us, as white people, hardly pause to consider. Their black faces alone disqualify them for being on any kind of equality, no matter what their condition of mind, no matter how beautiful and honorable, how practical and useful, how pure and unselfish, how noble their lives may be, their faces are black and that is enough. "Thus far shalt thou come and no further" is the attitude we have too long assumed, and is but a proof of a selfish narrow-mindedness that will take an indefinite period of time to entirely overcome.

In the meantime, the Negro himself, in spite of his numberless disadvantages, is forcing himself, by sheer merit, into positions where many a white man would be proud to stand. This in itself, is proof of his value as a citizen. Surely, God is his Father, and oves him as His offspring. Surely He listens to his sociated Negro Press)—The pioneer He guides him with the same love effort to introduce the Chautauqua that He feels for you or me. Surely form of education and entertainment there are no color distinctions in the among Negroes in Greater New York Divine mind, that is not the basis o nwhich we will be judged, we all know. Yet we forget, and in our insolent and often disobedient attitude, we assume positions to which we have no claim. Let us note how many of this race are being led by our Father into positions that not only do honor to Him, but are a credit to themselvee, and the country in which they live.

I have recently been reading an article in one of our standard American magazines, headed: "Negro contributions to American Life," which hegins in this way: "The Negro is an intimate part of our American his-Increasingly it has become cear that America cannot do without him. He is one of her great assets." and in the opinion of the writer of the article, "Regardless of handicaps, he is better off in America than anywhere else, and he is in America to stav."

The Negro first landed in Virginia, a slave, "one year before the Pilgrims landed on the bleak New England (Continued on page 6)
