A PARALLEL CASE.

People in Detroit Are Interested in a Great Resemblance in Two Cases.

Detroit, Mich., Aug. 26.—Much interest has been manifested here over the recovery of Mr. G. H. Kent, of Ottawa, from Bright's disease by using Dodd's Kidney Pills, a remedy which is now in universal use, and many people have a clear recollection of the similar case which occurred in London, Ontario, not long ago, namely, that of Mr. Wm. Langley, who for some time was an inmate of Harper's Hospital here and was operated upon without effect by several Detroit physicians. It was owing to this connection with Detroit and the long accounts published in the press that so much interest was taken in the case, and led to such an enormously increased sale of the medicine.

It will be the subject of a discourse to young men in St. Andrew's Church on Sabbath evening by the pastor. Perhaps someone outside of the pulpit could tell better than one in it the cause of the

avowed estrangement of young men as a class, from the church in these days. The subject, however, is worth the attention of all young men. -Archdeacon Dixon, of Guelph, one of the most learned writers on canon law, writing upon the question in the recent Rupert's Land Episcopal Synod, of making women eligible for election as churchwardens and members of vestry, says: "In reference to this discussion, it may be observed that according to English ecclesiastical law, females have a right to vote at

REMITTING TAXES.

Grist of Applications Before Number One Committee.

The Cases of J. H. Moran and Col. Lewis -Church Exemptions-Fixing a Water Rate

The finance committee of the City Council did very little last night besides consider applications for remission of taxes, which were so numerous that the aldermen were tired of dealing with them before they got through. Ald. J. W. Jones was in the chair, the other members present being Ald. Brener, Marshall, Carrothers, Armstrong, Dreaney, Mayor Little and Treasurer Pope. Mr. J. H. Moran appealed for a remission of personal property tax of \$20 90 for

1895. He retired from business in April last but was assessed in 1894. "We cannot legally do anything with it,"

said the chairman. "That is one of the disadvantages of being assessed the year before," said the mayor. "No doubt it is an injustice. But again, a man may start in business one month after the assessment and escape a tax for that year. We can do nothing in a case of that kind, as the lists are confirmed

by the judge."
Mayor Little moved that Ald. Jones and Marshall consult the solicitor and ascertain if there is any way to relieve Mr. Moran of such a hardship.
Col. Robert Lewis' case was on the same

principle. He, however, had not been in business at all on Dundas street when the assessment of \$2,000 was made against him. This case will also be brought before the city solicitor.

The vexatious question of the Parisian Steam Laundry water rate was also con-sidered, when the solicitor for Messrs. Chiera & Vier wanted the rate struck at 5 cents net per 160 cubic feet. Heretofore the laundry has been paying a 5-cent rate, subject to discount, but other laundry pro-prictors objected on the ground that they should be treated the same. When the ob jection was raised the Parisian proprietors expressed willingness to pay the same as McClary and other large manufacturers. The council will be recommended to fix the

rate at 5 cents net for five years.

Rev. Dr. Wild, ex pastor of the First
Congregational Church, asked that his \$48 07 income tax be remitted. The doctor was supposed to have received \$3,000 for his year's services, but only got \$700.

The Salvation Army asked for exemption of some \$55 taxes on the workmen's hotel. Granted. Mr. H. J. Brown, of East London, ap-

plied for exemption of taxes on the lot on which the new St. Matthew's Church was being built. Ald. Dreaney moved that the application

be filed, but Mayor Little warned the aldermen against hasty action, as the committee would probably be asked to remit taxes on the New Queen's Avenue Church if St. Matthew's was allowed. It was shown that the present property of the church was exempt, and the claim was filed. James W. Kern's similar request for the Hill Street Methodist Mission was also

A large number of personal applications for tax exemptions were received on the

ground of charity.

In every one of these cases where the property was not encumbered the committee recommended that the taxes be charged against the property.
