FAST BUFFALO, N. Y. The head master's report showed 348 pupils on the roll and an average attendance of 284. Truant Officer Ward will be requested to attend the next meeting of the board to answer complaints recently made against him for alleged undue interference with a boy named Reoven, who attends a separate school. Trustee Pudney said that he had been informed, on good authority, that Ward had entered the lad's home, grabbed him, offered violence to his mother, and had assaulted R. The Mayoraliy.

The Advertiser understands that citizens have, so far, been very chary about promising their votes to the candidate who has been in the field for the past two years. This is a proper course. It is better to see who are to be the "runners" first. Several candidates are spoken of. Among others are J. W. Little and W. J. Reid, both of whom feel disinclined at this time to respond. Ex-Mayor Taylor has also been requested to stand, and so has School Trustee Frank Love. Then there is Col. Gartshore, chairman of the principal committee of the City Council this year, who early in the fall felt disinclined to respond to the numerous requests to allow himself to be nominated for that position which he has well earned at the aldermanie board. The many demands, coming from all sections of the city, that he should continue in the council and accept nomination for the mayor's chair have, however, been so persistent that it is possible he will consent. More may be known of the colonel's views in a day or two.

PEOPLE'S FORUM.

To the Editor of the ADVERTISER:
I notice that in the matter of electric I notice that in the matter of electric street railway, the aldermen have been careful to get as many miles of railway as possible, and that is good as far as it goes; but a railway without a service would not be much use to the citizens. Now the aldermer should stipulate that the citizens shall get a regular service without too long an interval between cars. They should also arrange for a service for the workingmen to start from each terminus at such a time in the morning as to reach the fective condition of the culvert on Richmond street, at the corner of Victoria.
