A Great Failure.

A Great Failure. LONDON, Nov. 30.—A special dispatch from Rome says that the Credit Mobilier of London, Nov. 30.—A special dispatch from Rome says that the Credit Mobilier of that city has suspended payment. The news of the suspension has created a great impression, owing to the various branches the concern had in different parts of Italy, all the depositors in which will suffer severely. The trouble is attributed to the fall in rentes. It is believed that the Credit Mobilier was lately engaged in syndicate operations on the Bourse with the object of raising its falling credit. Rumors regarding the instability of the concern have been current on the Bourse for some time. The withdrawal of deposits and accounts began on Nov. I, and \$7,620,000 has been paid out since then. The concern was obliged to stop in consequence of the run on it. After a lively discussion among the directors the board decided that it was unable to accept the conditional offers of aid made by the National Bank and it was, therefore, decided to suspend. It is believed that had it not been for the present financial crisis the Government would have assisted the concern. This afternoon it is reported that the Credit Mobilier is seeking to arrange a moratorum.
