

Blood Poisoning

Mrs. Mary E. O'Fallon, a very intelligent lady of Piquette, Ohio, was poisoned while assisting physicians at an autopsy five years ago, and soon terrible ulcers broke out on her head, arms, tongue and throat. Her hair all came out. Her husband spent hundreds of dollars without any benefit. She weighed but 75 pounds, and saw no prospect of help. At last she began to take Hood's Sarsaparilla and at once improved; could soon get out of bed and walk. She says, "I became perfectly cured by Hood's Sarsaparilla."

Hood's Sarsaparilla

and am now a well woman. I weigh 125 pounds, eat well and do the work for a large family. My case seems a wonderful recovery and physicians look at me in astonishment, as almost like one raised from the dead."

HOOD'S PILLS should be in every family medicine chest. Once used, always preferred.

FLY.

The Sailors and London Parcel Boys had a friendly game of baseball on Mill flats yesterday, resulting in favor of the Sailors. Score, 13 to 7.

A game of baseball was played between the Huron College boys and the Victors, which resulted in favor of the Victors by a score of 33 to 5.

ATHLETICS.**DANGERS OF ATHLETICS.**

"There is very great danger of an athlete dying of lung trouble if he ever ceases his sports," said Prof. A. C. Mathews. "An athlete exercises large lungs are required and they become inflated beyond their natural size. If the athlete ceases his practice and adopts anything approaching a sedentary life the lungs, falling largely into disuse, easily decay and the result is quick consumption. It is frequently the case that young men in college who are athletic leaders, after graduation go into stores, offices or counting-rooms, and in a few years die of consumption. Everyone is surprised and it is said 'such a strong, healthy man when he left college. Who would have thought he would die with consumption? Must have been hereditary.' As a matter of fact he brought it upon himself by failing to keep up the practice that expanded his lungs." (Cincinnati Inquirer.)

AQUATIC.**THE BRITANNIA'S TIME.**

LONDON, July 11.—In the Britannia-Vigilant race the yachts finished thus: Britannia, 6:39:58; Vigilant, 7:01:19. The Britannia wins by 21 minutes and 21 seconds actual time, and 24 minutes and 21 seconds corrected time.

THE WHEEL.**ATHLETIC RACE MEET.**

TORONTO, July 11.—Next Saturday will be a red-letter day for the Athenium Bicycle Club. There are nearly 300 entries for their inaugural race meeting.

DON'TS.

A practical lady bicyclist has composed the following "don'ts":

Don't look as if you were afraid of your wheel. Make a pretense of feeling at ease, even if you are a novice.

Don't ride with your saddle low and too far back. It makes the work hard and gives you the appearance of climbing an endless flight of stairs.

Don't wear soft, slouch hats or caps unless they are very becoming. We need not

lose all our femininity of appearance because we ride wheels.

Don't—no, for heaven's sake don't—wear a white skirt on your wheel. So many do, and it looks awful. And last but not least—

Don't refuse to change wheels while walking up a hill with any man with a lighter wheel than yours. It is all very well to be independent, but don't carry it to excess.

SPOKES.

"Health, recreation and lovely inspiration" are the chief benefits of riding a bicycle, according to Miss Frances Willard. Hensel, the well-known bicyclist, who was injured by falling from his machine on Dominion Day, was admitted to the Toronto General Hospital on Tuesday for treatment of his injuries.

Arrangements for the S. B. C.'s annual meet on Aug. 15 are progressing swimmingly. The track is being put in record-breaking shape and some fast riding may confidently be expected. Sarnia's racing string are training hard and good judges predict that more than one S. B. C. rider will cover himself with glory on that day. The meet will be and is being extensively advertised, all the west will be there, and the attendance bids fair to break all previous records.

"Does it pay to get sunburnt?" the interesting query put some time ago by a rather audacious correspondent, would lead to her annihilation if she had not taken the precaution of withholding name and address. The subject is one which is apparently of immense interest to the fair sex of the period, and the general trend of opinion—especially of the non-de-plume order—seems to incline to the conviction that a girl who rides a safety, is a person to whom personal appearance is of no moment whatever. On the other hand, the fair cyclist herself avers, to a man, that sunburn is really a contributor to beauty. Perhaps, after all, cycling will "set the fashion to the world."

"There, my man, look at that," exclaimed a friend of mine who loathes cycling and all its works. It was a paragraph in a Lancashire paper setting forth that a lad had succumbed to a heart through over-exercising on his machine in a stiff gale. Having marked, learned, and inwardly digested this precious information, I happened to glance at the succeeding paragraph. It related that a poor fellow dropped down dead while planting kidney beans in his allotment, the cause being stoppage of the heart's action. "You had better look at that bit," I quietly remarked, handing back the paper. It was a palpable hit; my friend makes up his mind to wheeling by his love of gardening. (London People.)

CRICKET.

A BRITISH paper says: "In a match between the Whitgift grammar school and the Crystal Palace school of engineering on Saturday last the latter were all disposed of for 7 runs. Another bowler named Crawford followed this by taking three more wickets with the first three balls of the over. This is a cricket curio of the most pronounced kind."

LONDON PRESBYTERY.

Rev. Robert Aylward Received into the Church.

Appointment of Commissioners to the Assembly—Rev. Jonathan Gotroth Speaks—Examination of Students.

ST. THOMAS, July 11.—The bi-monthly meeting of the London Presbytery was held in Knox Church lecture hall yesterday afternoon. The moderator, Rev. W. J. Clark, London, presided. There were present Rev. Messrs. Henderson, Miller, Sutherland, Little, McNeil, Wilson, Barnett, Sawers, McIntyre, Brown, Courtney, Talling, Cooke, Stewart, Scott, MacDonald and Proudfoot, and Messrs. Watson, Shields, Clouston, D. K. McKenzie and other elders.

Two students, James Johnston and Wm. Wilson, were examined and certified to the senate of Knox College for the ministry. Leave was granted the moderators of Knox Church, London, Vanneck and Wardville to moderate in calls.

A very interesting item was the reception of Rev. R. Aylward, a minister of the Congregational Church, on whose behalf the Presbytery had made application to the General Assembly. Leave to receive Mr. Aylward into the ministry was granted by the assembly, the customary questions and formula were read to him and satisfactorily answered, after which he was formally received.

It was reported that a sum nearly sufficient to wipe out the deficit in the augmentation grants to churches in the Presbytery had been raised, and Mr. Henderson was empowered to administer the same.

Messrs. Sawers, Miller, Stewart, Sutherland and Dr. Proudfoot reported attendance on the General Assembly in St. John. Attention was called to the fact that the majority of the commissioners had not reported attendance to the Presbytery. Several members characterized such treatment of the Presbytery as lacking in respect.

Dissatisfaction having been expressed with the present system of selecting commissioners to the assembly, Rev. John Currie gave notice of motion that in September he would move that the system be changed. Strong objection was taken against sending to the assembly ministers who are not in pastoral service, and who do not attend the Presbytery. One such, it was stated, had been sent twice in three years, while other members of the Presbytery had not been sent at all.

Rev. Alex. Miller, of Moss, read a paper on the subject of infant baptism. At the evening sermon Mr. J. A. Mustard, a graduate of Knox College, Toronto, was examined for licensure, and was formally licensed to preach.

The Presbytery adjourned to meet in London on the second Tuesday of September. Prendergast Must Hang. CHICAGO, July 11.—Judge Bailey, of the Illinois Supreme Court, announced his refusal to issue a supersedeas in the case of Prendergast, the assassin of Mayor Harrison. This apparently makes certain the hanging of Prendergast on Friday, July 13. The only hope for Prendergast is interference by Governor Altgeld.

Too Much.

"Going to see the Diva 'Cavalleria' to-night?"

"You don't mean to say that they're bringing this tank business into Italian opera?"

How to Cure a Corn.

It is one of the easiest things in the world to cure a corn. Do not use acids or other caustic preparations, and don't cut a hole in your foot. It is simply to apply Putnam's Painless Corn Extractor, and in three days the corn can be removed without pain. Sure, safe, painless. Take only Putnam's Corn Extractor.

TO STAMP OUT SMALLPOX.

Emergency Meeting of the Ontario Board of Health—General and Systematic Vaccination Urged.

TORONTO, July 11.—An emergency meeting of the Provincial Board of Health to consider the smallpox question was held in Dr. Bryce's office this evening. The immediate cause of the meeting was the second outbreak of smallpox at Spanish River, where one case and another death occurred.

A number of resolutions were passed among others it being urged upon the medical profession of the Province to use all legitimate influence to not only have vaccination carried out among their patients, but also to urge the adoption of systematic vaccination on the local boards of their respective municipalities.

CONCISE CULLINGS.

P. C. Hanford, vice-president of the National Lined Oil Company, Chicago, has committed suicide.

The bark Mary S. Ames (American), Capt. Knowles, from Samarang May 9, for Delagoa Bay, has been abandoned. Part of the crew were saved and landed on the east coast of Madagascar.

The strike situation in the United States has influenced an agitation of members of the British House of Commons in favor of having the Australian mails sent by way of the Canadian Pacific Railway instead of via San Francisco.

A new money order system has gone into effect at all postoffices in the United States. Large and small sums can be transmitted by letter with absolute safety, at rates much less than heretofore. Orders for \$2.50 or less can be had for a fee of only 3 cents, and orders for large amounts up to \$100 at rates graduated up to 30 cents.

Catherine Nolan, aged 22, and her sister, Elizabeth, aged 16, were received at the county jail in Ballston Spa, N. Y., on Wednesday night, on the charge of murdering their brother, John Nolan, by administering arsenic. Four members of the family have died suddenly since last September, the father, mother, sister and brother of the accused. The motive is presumed to be the securing of insurance money.

SHORT TALKS ON ADVERTISING.

(By Charles Austin Bates.)

People generally read advertisements more than they did fifty years ago. The reason is to be found in the advertisements themselves.

Advertisers are more careful than they used to be. They make the advertisements more readable. Some of them even become in a way a department of the paper, and people look for them every day with as much zest and pleasure as they turn to any other feature.

This is true of many stores all over the country. In many cities there is just one who appreciates the value of such interest. He breaks away from the old set style. He tells something interesting in his space every day.

There are lots of interesting things in business. Look over the miscellany page of any paper—looks at its local news columns and its telegraph news for that matter, and you'll see that the majority of the items are more or less closely related to some business fact.

Dress these facts up in a becoming garb of words and they will be a "mere advertisement." Let the merchant come down off his pedestal and talk in his ads. He needn't be flippant—far from it; but let him not write as if he were addressing somebody afar off, and telling him about something at even a greater distance.

The newspaper goes right into its readers' house—goes in and sits down with him. It is on the table when he eats and in his hands when he is smoking after the meal. It reaches him when he is in an approachable condition. That's the time to tell him about your business—clearly, plainly, convincingly—as one man talks to another.

**People Who Weigh and Compare**

Know and get the best. Cottolene, the new vegetable shortening, has won a wide and wonderful popularity. At its introduction it was submitted to expert chemists, prominent physicians and famous cooks. All of these pronounced

Cottolene

a natural, healthful and acceptable food-product, better than lard for every cooking purpose.

The success of Cottolene is now a matter of history. Will you share in the better food and better health for which it stands, by using it in your home?

Cottolene is sold in 3 and 5 pound pails by all grocers.

Made only by
The N. K. Fairbank Company,
Wellington and Ann Sts.,
MONTREAL.

ALMA—THE LEADING CANADIAN College for Young Women, St. Thomas, Ont. Buildings, Furnishings, Grounds, etc., are unsurpassed. Full faculty (50), including four University Graduates, Certified Teachers and Specialists in Music, Art, Education. Alma's graduates are receiving high collegiate appointments in Canada and the United States. Rates from \$10 to \$20 per term. \$100 cash covers expenses for board, etc. Tuition in literary courses, music, and art for one year. Sixty pp. Illustrated Calendar free. School reopens Sept. 6, 1914. Write for information or calendar to PRINCIPAL AUSTIN, A.M. B.D.

NEW GROCERY STORE

One of the best in the city.
W. T. STENBERG
515 Richmond Street, Phone 1023.

S. & J.

THE WEATHER TO-DAY—Fair and hot; Showers somewhere.

Chenille Curtains.

We have made a special purchase of a handsome line of Chenille Curtains. To insure a speedy sale the prices have been marked very close.

NEW GOODS.

These are not old and shop-worn, but brand new Curtains. Though the prices are lower than ever offered in London for similar goods, please don't imagine that they are just the same as sold elsewhere.

NEW PATTERNS.

The dado and ground work patterns of these goods are all new and very handsome. The trouble with cheap goods, and the most popular fault, is that they are all the same, consequently common. Not so with these. Come and see a beautiful assortment of colorings and patterns.

NEW PRICES.

Though all new goods, the prices have not been placed out of reach of anyone. When the patterns are examined the prices will be found most satisfactory also. Here are a few:

Curtains, three yards long, five different colorings, at \$3.25.
Curtains, three yards long, six different colorings, at \$3.75.
Curtains, three yards long, four different colorings, \$5.
Curtains, three yards long, five different colorings, \$4.

QUILTS.

In Quilts we have the biggest bargain of the season. A line of slightly soiled Marseilles \$1.50 Quilts at 75c. A delay here, if you want a cheap quilt, will mean a direct loss of 75c. The price will sell them quickly.

SMALLMAN & INGRAM,

147, 149 and 151 DUNDAS STREET.
