

MADE GRANT TO EARL ROBERTS

Government Awards Fighting Bobs the
Sum of 100,000 Pounds.

Funeral of Mrs. Kruger—The British Harvest—League
Against United States.

London, July 23.—It is believed, says the Times, that a grant will be made to Lord Roberts in recognition of his services in South Africa, and to enable him suitably to maintain his peerage. To provide this an additional estimate will be submitted to parliament forthwith. The grant will be £100,000.

MRS. KRUGER'S FUNERAL.
Pretoria, July 23.—Mrs. Kruger, wife of former President Kruger, of the South African Republic, who died Saturday last of pneumonia, after an illness of three days was buried here yesterday afternoon.

Amsterdam, July 23.—Former President Kruger, of the South African Republic, is very depressed as the result of the death of his wife, but his health is unaffected. On the contrary, he has thrown himself into his work with more than his usual energy. Press comment on the death of Mrs. Kruger is sympathetic. The newspapers do not attach any political significance to the event.

THE HARVEST.
London, July 23.—Wheat harvest commenced in Eastern England yesterday morning. This is an earlier commencement than usual, tropical heat having rapidly developed the grain. Estimating wheat prospects, the Mark Lane Express says: "Wheat will be fine in quantity and quality on 25 per cent of the area sown; average on 25 per cent, but the remaining 75 per cent will inevitably produce a short

crop. The straw crop will be the smallest since 1933." In its preliminary trade estimate Mark Lane Express puts Russian wheat crop at 58,000,000 quarters, against 56,000,000 in 1930. On this basis the export surplus should be 18,000,000 quarters.

AGAINST UNITED STATES.
London, July 23.—The policy of the commercial league of European powers against the United States is being quite seriously discussed in Italy, particularly in Rome. The latest contributions to the discussions have been made in the Popolo Romano by Signor Luzzati, former minister of the treasury, who regards this policy as feasible, and thinks it should have the support of Italy. He admits, however, that the job is a pretty big one, and is clearly of opinion that all the European powers must join an anti-American league in order to have any chance of success.

THE CHINESE QUESTION.
Tien Tsin, July 23.—Europeans here consider that the prevention of a speedy recrudescence of trouble depends entirely upon the firmness displayed by the powers. It is thought that this fact should be recognized in Europe and the United States. The general feeling in Tien Tsin is that China is in a nowise overawed or repented. Li Hsiang Chang is reported to have adopted an off-hand tone toward a member of the provisional government, and to have talked confidentially of ousting the provisional government soon. The Chinese have recommended cutting the telegraph wires.

WAGING WAR ON CONSUMPTION.

British Congress of Tuberculosis
Is in Session.

Four Hundred Delegates Are in Attendance, Including Several
Canadians.

London, July 23.—The British congress of tuberculosis, for the prevention of consumption, was opened yesterday by Field Marshal H. R. H. the Duke of Cambridge, president of the congress, who welcomed the foreign delegates to the congress, and spoke of the interest taken in the congress by King Edward.

Lord Lansdowne, the foreign secretary, also welcomed the delegates, and in the name of the government promised all the assistance the government was able to accord the congress in its endeavors to combat a disease more desolating than war.

After the lord mayor of London, Frank Green, Lord Strathcona and Mount Royal and others had addressed the congress, Lord Lister, one of the British vice-presidents of the congress, in a few words, conveyed the thanks of that body to Prof. Robert Koch, of Germany, and the other scientists present for their welcome, saying they knew the enemy they had to deal with, and that it was not only the prevention but the cure of consumption that the congress hoped to effect.

A telegram was read from King Edward to the Duke of Cambridge, as follows: "I pray you heartily to welcome for me the eminent men of almost every nation who have assembled under your presidency, and to express to them my earnest hope that the result of the deliberations of the congress will be to assist the world in

mitigating the dread disease which has baffled the most distinguished physicians for so long."

Prior to the adjournment of the day's session of the congress, the Duke of Cambridge announced that a gift of £120,000 would be forthcoming for the purpose of establishing the first public tuberculosis sanatorium, as soon as the recommendations of the congress concerning its establishment had been formulated.

Four hundred delegates attended yesterday's opening session. They included a number of Canadians and Americans. Several ambassadors and foreign ministers were also present.

Pain in the Joints.
The joints are hard to get at, and it requires a powerful, penetrating remedy to reach the affected parts. Doan's Kidney Pills exactly meet the requirements, for it is both powerful and penetrating. The pain is expelled as if by magic, for one drop of Doan's Kidney Pills equals in strength five drops of other remedies. You won't often call the doctor if Doan's is in the house. Price, 25c.

The skeleton measures one inch less than the height of the living man. There is no form of kidney trouble, from a backache down to Bright's disease, that DOAN'S KIDNEY PILLS will not relieve or cure.

A RECOGNIZED REGULATOR.
To bring the digestive organs into symmetrical working is the aim of physicians. Doan's Kidney Pills, which will be found a pleasant medicine of surprising virtue in bringing the refractory organs into subjection, and restoring them to normal action, in which condition only can they perform their duties properly.

COMPANY FORFEITS DEPOSIT.
Managua, Nicaragua, July 23.—The arbitrators to whom the matter was referred have decided that the Caribbean-Pacific Transit Company, of Liverpool, has forfeited its deposit of \$4,000 gold and the exclusive privileges of steam navigation of Lake Nicaragua and the San Juan River.

It is Not a Stimulant But a Tonic You Need

Hosts of people do themselves irreparable harm and shorten their lives by many years by the use of Stimulating drugs to whip up the exhausted nervous system and keep the machinery of the body working. Others get temporary relief from nervous headaches and body pains by the use of deadening and nerve-destroying narcotics. Both of these treatments mean death to the nervous system and hasten the approach of paralysis and insanity.

Dr. Chase's Nerve Food is a protest against these old-fashioned and villainous methods of treatment. Unlike any other medicine you have ever used, Dr. Chase's Nerve Food forms new red corpuscles in the blood and creates new nerve tissue to replace that destroyed by overwork and disease. It is impossible to obtain a more effective treatment for nervous disorders than Dr. Chase's Nerve Food because it gradually and naturally restores the wasted nerve cells and rebuilds the system. It is the up-to-date remedy for weakness and disease resulting from exhausted nerves.

Dr. Chase's Nerve Food

FIREMEN GOING BACK TO WORK!

The Strike Was Practically Called
Off Last Night.

Lehigh Valley Machinists Return to
Work After Having Been Out
Two Months.

Wilkesbarre, Pa., July 23.—More mines, with the aid of the United Mine Workers, resumed operations in the Wyoming Valley yesterday. Committees from the striking stationary firemen waited upon the superintendents of the various coal companies and asked to be reinstated. At some of the mines the committees were told that the places of the strikers were filled. At others the names of the old firemen were taken, and the committees were told that if their services were needed they would be sent for. It seems to be no question but that this strike will be officially declared off tonight, and that at least 85 per cent of the strikers will be back in their old places tomorrow when it is expected there will be a general resumption of mining operations.

The strike of the stationary firemen was officially declared off last night at a joint meeting of the strikers and executive board of United Mine Workers. The meeting was a stormy one. The committees appointed by the joint conference to call on the coal operators and ascertain how the strikers and employees could hope for reinstatement reported that sixteen of the companies were in favor of taking back the old men and seven refused. Among the latter was the Lehigh Valley Coal Company, which employs in this district about 3,000 men, all told. The Lehigh Valley Coal Company, it is said, refused to reinstate its old firemen unless they consented to work for a decrease in wages. The hoisting engineers who went out in sympathy with the firemen, were also refused reinstatement at many of the mines. It is thought that in a day or so all the strikers will be back in their old places, despite the stand taken by the companies.

MACHINISTS RETURN TO WORK.
Wilkesbarre, Pa., July 23.—After a two months' strike the machinists employed by the Lehigh Valley Railway returned to work last night, and are returning to work not as individuals, but as individuals. About 40 men returned to work at the Caxton shops today. It is thought that by tonight there will be a rush of applications for work. The 800 machinists and repairers at the Ashley shops of the Central Railroad, of New Jersey, are still out, but a break in the strikers' ranks is expected in the near future.

UNIONS FOR WOMEN.

New York, July 23.—Four women members of the American Federation of Women appeared before the Central Federated Union of New York Monday to ask aid in securing the re-operation of the families of laboring men in the work of the women. It is expected to bring about through the medium of this organization a revolution in the organized labor movement. The women propose to bring to their federation all the women of union men in order that there may be complete co-operation in the event of a strike in any of the branches. The argument is made that as the women spend the money made by their husbands, they are the most effective work force merchants are concerned.

REAL PROPERTY ACT

Of Manitoba Disallowed by the Dominion Government.

[Special to The Advertiser.]

Ottawa, Ont., July 23.—The real property act of Manitoba, passed in 1900, has been disallowed by the Dominion Government. The reason of disallowance is that one of the clauses of the bill says that all lands in the province must be surveyed by provincial surveyors. The Dominion asked that this clause be amended so that certificates of Dominion land surveyors might be accepted for Dominion lands. The province refused to make the change asked for, hence the disallowance.

AMERICAN WOMEN GIVE KING A MEDAL

And His Majesty's Odd Response Is Causing Much Comment.

London, July 23.—Much gossip in American and English society has been caused by the presentation to King Edward yesterday by some American ladies of the hospital ship Maine committee, of a medal, commemorative of the Maine's work, with a request that the king transmit the medal to Queen Alexandra. It seems that the idea was opposed by a number of influential members of the committee on the ground that the king did not want the medal, but the others carried the day. The king's reply to the delegation which made the presentation is causing some comment, as he thanked "this American committee" for their "loyal and faithful sentiments" as he did the Kansas legislature in answering their telegram of condolence on the queen's death and as he also thanked the committee for the bringing their valuable services to a culmination by presenting the ship to the government, whereas this was done solely by Mr. Bernard H. Baker, of Baltimore.

K. OF P. GRAND LODGE.
Syracuse, N. Y., July 23.—The Knights of Pythias Grand Lodge convention opened in this city this morning. J. B. Hitchcock, of this city will be chosen grand chancellor. Rochester and Buffalo are candidates for the next grand lodge convention. The attendance is about 2,000.

BLACK KNIGHTS ARE IN SESSION

Reports Show the Order To Be in
Flourishing State.

Strike of Toronto Brass Workers—
Insurance Ratings—Other Queen
City News.

Toronto, July 23.—The Grand Chapter of Royal Black Knights is in session at Victoria Hall, with Lieut.-Col. J. H. Scott, of Kincardine, presiding. The report of officers shows that the Royal Black Knights are in a flourishing condition. The members are proposed changes in it are likely to afford material for a warm debate this afternoon.

The message of the Grand Chapter of the Royal Black Knights of Ireland to parliament regarding the proposed changes in the coronation oath and the resolution of the Commons of Canada favoring the modification of the oath is quite emphatic. The grand chapter tonight concurred in unanimity in the observations of Col. Scott of Kincardine, the grand master, who declared that the action of parliament was a gratuitous insult to the prevalent religious sentiment of the country. The action of nineteen members who opposed the resolution is commended, and the declaration made that there is as much need of the oath today as there was two hundred years ago. As to the action of Catholics who wish the oath modified Col. Scott says: "They are careful not to offer any reciprocity of sentiment by agreeing to tone down over the extent of a syllable the offensive combination of words. As to the Protestants who are hurled at Protestants by their clergy and high dignitaries, in their official declaration. The sound old legal maxim that 'he who comes in the court must come with clean hands' might be applied with peculiar fitness in this instance."

It is said tonight that the leaders of the Orange order at the grand lodge tomorrow will take into consideration the proposal to organize a great Orange demonstration during the royal visit. Hon. Charles Wallace will, it is expected, take the ground that the order should do nothing to disturb the national harmony at that time.

BRASS WORKERS STRIKE.

Toronto, July 23.—Close upon 200 men are out on strike in the brass manufacturing industry. The trouble, which originated with the brass workers, has now involved machinists, brass finishers, pattern-makers and the core-makers. Thirty brass finishers and polishers came out of the factory of the John Moore Company. Nine shops are now affected, the men in each case numbering from 5 up to 30. Three shops have signed the union scale, and the men are now at work. The men say it is a fight against a combination of the brass workers and the machinists, and that the men say yet become involved. The machinists in several shops have been asked to take the brass work and will probably refuse.

A novelty among strikes was that inaugurated today by the life insurance canvassers in the city of the provident branch of the Northern American Life. Because one of their number was forced to pay some arrears on a premium in default, owing to the management being to his failure to collect, fifteen of the staff, including the superintendent, put on their coats and walked out. As the work was largely among people with whom the canvassers were acquainted as a result of many visits, the strike is likely to prove embarrassing.

INSURANCE RATINGS.

Toronto, July 23.—A radical change in fire insurance ratings was decided on at a meeting of the Canadian Fire Underwriters at a special meeting held here yesterday. The specific rating is to be adopted in all cities and towns in Canada. In effect, every tub must in future stand on its own bottom. A key rating will be given to each town or city, according to its fire appliances and circumstances. A

SUMMER COMPLAINT.

Mostly due to germs in the water you drink, which boiling and filtering will hardly destroy.

A dessert spoonful of Powley's Liquefied Ozone in a tumbler of water will effectually sterilize your drink and add to its refreshing power.

The case of Wm. Francis, of Toronto, is most remarkable. He had been pronounced hopelessly incurable, and the hospital authorities had asked for his body for dissecting purposes. He tells his own story:

"I feel it my duty to testify regarding the wonderful curative powers of your new system of treatment. My case is one that baffled the skill of the best English and Canadian medical men. In 1876, while in the tropics, I was attacked with Tropical Dysentery in the most dangerous form, and it was a long time before I was able to get on my feet. I was treated in the West London Hospital, at Hammersmith, England; also St. George's Hospital, Knightsbridge, London. I was under the care of the most skilled physicians in London who were unable to benefit me, and my case was pronounced incurable. Since coming to Toronto I have been a patient in three of the city hospitals, viz., General Hospital, Grace Hospital and Simcoe Street Dispensary, and have been dismissed as incurable. I was advised to take Powley's Liquefied Ozone as a last resort, and at the time I began the treatment was helpless in bed with dysentery in its most fatal form. I had suffered each summer since 1876, until I began your treatment. Friends never expected me to get well. I had a large lump on the left side of the stomach, the size of a hen's egg, believed to be cancer. I continued the Ozone until I had used five bottles, but a permanent cure has been the result. The lump in my stomach has also disappeared, and after 18 long years of doctoring and suffering, I can say positively that I have been cured through your new treatment. I feel it my duty to send you this testimonial, that other sufferers may know how to act."

(Signed) WILLIAM FRANCIS, 201 Hamilton street, Toronto.

Powley's Liquefied Ozone is oxygen in stable form. Taken internally it makes the system healthy, in that way it destroys the germs of disease.

50c and \$1.00, at all druggists.
The Ozone Co. of Toronto, Limited.
The Liquefied Ozone Co., Chicago, U.S.A.

standard building for such places will be chosen, and variance from this will be rated specially. Structures with their walls unprotected, skylights, great height, etc., will be charged extra. Only business structures will be affected, and the larger ones will have to pay more for their insurance. Montreal will not be affected, as its rates, since the big fires, have been made very stiff. The special rating system is in general use in the United States, and has been tried experimentally in this city with success. The English companies doing business in Canada were the chief movers of the change, as they have been hard hit by recent conflagrations. Lumber rates also are to go up.

BIG NEW CONCERNS.

Toronto, July 23.—Messrs. T. H. McAdoo, Thos. Hepburn, J. A. McPherson, Wm. Hamilton, J. E. Day, and others, of Guelph, have been incorporated as the Guelph Provision Company, Limited, to engage in a canning, cold storage and stock yards enterprise. The share capital is a quarter of a million dollars.

Edward L. Gould, Harry Cockshutt, W. S. Wisner, A. A. Bixel, W. G. Elliott, and others, of Brantford, have been incorporated as the Ontario Portland Cement Company, Limited, with a share capital of \$400,000.

W. D. Hepburn, of Guelph; James Smith, James W. Wilson, Geo. Leighton, J. M. McKay, R. F. Dale, James McLurich, John Mickle, John and David Sutherland, of Harrisburg, have been incorporated as the Harrisburg Shoe Company, Limited, with a share capital of \$50,000.

DRIVEN INSANE BY GREAT HEAT.

Maddened Woman Tries to Kill
Her Husband With an Ax.

Many Deaths and Prostrations
Throughout Mississippi Valley—
No Relief Likely.

Kansas City, Mo., July 23.—Fourteen deaths from heat, with fully 40 prostrations, were reported up to 1 o'clock yesterday in Kansas City, Mo., and Kansas City, Kansas, for the past 36 hours. Nine of these occurred Sunday night and five since midnight Sunday night. At 1 o'clock yesterday afternoon the weather bureau thermometer registered 102°. Not a drop of rain is reported from any point in the southwest yesterday, and there is no immediate promise of moisture.

NO SIGN OF RELIEF.

Washington, July 23.—Today's reports from the Middle Mississippi Valley stations of the weather bureau do not indicate any relief for the people of that drought and heat-stricken region. At St. Louis the thermometer at 7 o'clock registered 86 degrees, four degrees higher than at the same hour Sunday; at Kansas City, 84 degrees were indicated, two degrees higher than Sunday; at Springfield, Ill., 84 degrees, six higher than Sunday; at Omaha, 84 degrees, two higher, and at Austin, Texas, 82 degrees, an increase of eight. The weather was clear throughout the region, and not even thunderstorms were indicated there. There was a fall in the temperature at Chicago, and the prospect is for cooler weather on the great lakes, and later through New England. The weather forecasters say there is no sign of relief for the people of the Mississippi Valley.

HEAT DROVE HER INSANE.

St. Joseph, Mich., July 23.—During the past 24 hours four prostrations have been reported to the authorities. Mrs. C. M. Cornwell, of Chicago, died; Frank Furlong, went insane; Frank Baker, of Chicago, fell from a bicycle in a faint.

The fourth victim was Mrs. Charles Hanson, who went insane late Sunday night and drove her husband from the house with an axe. Before she could be quieted she destroyed all the furniture and windows in the house with the axe. The temperature registered from 102 to 104 in the shade.

LIGHTNING PLAYS MANY QUEER PRANKS

Property Damaged at Wymer, Brantford, Sparta and Winnipeg.

Aylmer, Ont., July 23.—Gardener & Hibborn's roller grist mill was struck by lightning and burned to the ground about 2 o'clock yesterday morning. The machinery, a considerable portion of which had been put in recent years, was a total loss. There was \$1,500 worth of stock in the mill, and of this only 50 bags of flour were saved. The building was valued at \$2,500, and the machinery at \$5,000. The insurance on the building and machinery was only \$2,800, and stock \$1,000. The loss will be heavy, particularly so, because the fall trade will soon be on, and Messrs. Gardener & Hibborn enjoyed a large custom trade.

AT BRANTFORD.

Brantford, Ont., July 23.—A severe thunderstorm passed over the city about 5 o'clock yesterday morning. The lightning was very bright, and a heavy rain fell. The Expositor flag tower was struck by lightning. The flag staff was splintered into match wood and the glass around the tower was smashed into little pieces. Fortunately the main building escaped without any damage.

AT SPARTA.

Sparta, Ont., July 23.—About 1 o'clock yesterday morning lightning struck the barn on the east part of the Banbury farm. The farm is used by Squire Smith, who loses in the contents one load of wheat, a quantity of hay, a binder and a democrat. In the basement were a bull and two calves, all burned to death. No insurance. John Farrar's house was also struck, and plaster were torn off a room in which three persons slept, but they were not injured.

Winnipeg, July 23.—An electric storm yesterday afternoon struck a house on William street, setting it on fire. Everything in the room where the bolt struck, including a sum of several hundred dollars, which was in a drawer, was destroyed.

Tired Mothers.

It's hard work to take care of children and to cook, sweep, wash, sew and mend besides. It makes a shop of the home—a shop, too, where sixteen hours make a day, and yet there is much working overtime. Dr. Chase's Nerve Food helps tired mothers in many ways—it refreshes the blood, improves the appetite, and assures restful sleep.

ADAM'S EASY RELIEF

For External and Internal Use.

Let Radway's Ready Relief be used on the first indication of Pain or Un-easiness, if threatened by Disease or Sickness, the cure will be made before the family doctor would ordinarily reach the house.

CURES THE WORST PAINS in from one to twenty minutes. NOT ONE HOUR after reading this advertisement need any one SUFFER WITH

ACHES AND PAINS.

For headache (whether sick or nervous), toothache, neuralgia, rheumatism, lumbago, pains and weakness of the back, spine or kidneys, pains around the liver, pleurisy, swelling of the joints and pains of all kinds, the application of Radway's Ready Relief will afford immediate ease, and its continued use for a few days effect a permanent cure.

A CURE FOR ALL

Summer Complaints.

A half to a teaspoonful of Ready Relief in a half tumbler of water, repeated as often as the sickness continues, will soothe the stomach and bowels, will afford immediate relief and soon effect a cure in all cases of Diarrhea, Dysentery, Cholera Morbus and Bowel complaint of any kind.

Internally—a half to a teaspoonful in a half tumbler of water will in a few minutes cure "Cramps" of the Stomach, Nausea, Vomiting, Heartburn, Flatulency and all internal pains.

SOME TESTIMONIALS.

Messrs. Radway & Co.: Gentlemen,—I have been a great sufferer from neuralgia. I give thanks to your good remedy, which has effected a permanent cure in my case. Henceforth our household will never be without your valuable medicine, Radway's Ready Relief. You have my permission to publish this letter. Gratefully yours,

Justice of the Peace, Melbourne, Ont.
Canada, April 28, 1890.

Dr. Radway & Co.: I have used Dr. Radway's Ready Relief for over twenty years, and think there is no medicine like it. I keep it and Radway's Pills always in the house.

MRS. HENRY C. HART,
Adamsville, R. I.

Radway & Co.:

We have been using your Radway's Ready Relief about two years and find it to be the best medicine for Spasms, Cholera, etc. We would not be without it for anything. Respectfully,

Dr. Radway: I have used your medicine for quite a number of years, and find that it is the best and quickest medicine for all internal and external pains of all that I have tried. Very respectfully,

P. J. JENSEN, Patchogue, N. Y.

Malaria in Its Various Forms Cured and Prevented.

There is not a remedial agent in the world that will cure Fever and Ague and other fevers, aided by Radway's Pills, so quickly as Radway's Ready Relief.

Radway's Ready Relief will carry a bottle of drops in water will prevent sickness or pains from the change of water. It is better than French brandy or bitters as a stimulant.

Be Sure to Ask for "RADWAY'S" and See That You Get "RADWAY'S."

There is Nothing "JUST AS GOOD" as RADWAY'S READY RELIEF.

"Red rain," which fell between the 11th and the 13th of March, 1901, in Sicily, Naples, Leghorn, Venice, Con-burg, Hamburg, Schleswig-Holstein and at Malvern, in Worcestershire, has been a subject of scientific investigation.
