KILLS FRIEND WHO WON HIS SWEETHEART

Strange Murder and Suicide Is Brought to Light at Chicago.

[Canadian Press.]

Chicago, Ill., March 12 .- The disovery of one body in a bake shop and another in a hotel here last night revealed a strange murder and suicide. Charles Georgian, an Armenian, 35 vears old, killed Leon Bilbilion, 17, by buckling a strap tightly about his throat. When his victim became unconscious he rolled him under an oven in the shop and left the place. He went to a hotel, where he committed suicide by taking arsenic.

Georgian left a note in which he said he had killed Bilbilion, who, he said, had robbed him of his sweet-beart, Mary Kretz, of Chicago, Bilbillion frequently translated Georgian's letters from him, and in that way learned of Miss Kretz, and won her away from Georgian.

ANTHRACITE MINERS WILL BE REFUSED

Operators Unable to Grant Them Twenty Per Cent Increase. [Canadian Press.]

New York, March 12 .- A sub-committee of anthracite coal operators was prepared to meet again today for the purpose of completing the draft of the reply refusing the demands of

the hard coal workers. The draft of the reply was practically completed vesterday, and there were only a few minor details to be incorporated to-This reply is to be given to the mine workers at a joint meeting tomorrow of the operators ,and the miners' rep-

resentatives, and its form is believed his money, which was on the table by to be such as to permit the miners to submit a new proposition. The demands of miners for a twenty per cent increase in wages, recognition of the union, shorter working hours, and other conditions, are to be refused and the operators will give a detailed reply to each demand.

The operators will decline the in-

crease of twenty per cent in wages on the ground that the miners are already obtaining an automatic in crease based upon the sliding scale. The operators will decline the demand for collection of union dues by the companies on the ground that a statute of the State of Pennsylvania makes this illegal, requiring the payment to employees by employers cf The full amount of wages or earr. ings in cash." The only exception a lowed by law is that miners may agree to have part of their earnings set aside for payment of check weignmen and check docking bosses.

The demand for an eight-hour day is opposed because of the many interruptions due to accidents, miners' holidays, and other causes make it impracticable. The obstacle to the demand to pay the miners at the rate of 2,000 pounds to the ton is because the operators are now paying by the car, and the long ton of 2,240 pounds body of an unknown man, 30 years
