GRAIN MARKET GOSSIP

Associated Press Despatch. Russell says there is nothing new in Xport news; purely of a holiday char-

rer is 2c over Chicago, against so week.

There was no impressive selling of sheat or corn at Chicago yesterday, but lemand is confined to resting orders, and few of them.

Husking returns from Nebraska and Western Kansas are very disappointing.

V. B. Snow estimates crop at 2,400,000 bushels and reserves of old at 140,000,000 bushels, against 837,000,000

st year.
The buying in corn at Chicago yesrday looked like short covering.
Argentine reported light but insignifiint rains over the week-end.
There must be a return of foreign iemand or unfavorable news from Arone. Those who are favoring higher corn prices are dissatisfied with the market's action, and have been heavy sellers.

Canadian Press Despatch. Montreal, Nov. 3.—Owing to the continued weakness in the Canadian cash wheat situation, and the fact that prices scored declines amounting to 7% to 90 per bushel, a weaker feeling developed in spring wheat flour grades, and miliers generally reduced prices another 15c per barrel, which makes a net reduction since Oct. 8 of 75c per barrel. An easier undertone was present in winter wheat flour at the late reduction in prices noted, owing to the more liberal offerings from Ontario millers and the somewhat limited demand for supplies here.
