GREAT LIBERAL DEMONSTRATION

****

Large Crowd Greets the Hon. Wm. Pugsley, at Opera House.

****

Restigouche Will be Found Solid for Reid.

****

Last Friday evening the Opera House was crowded out to the doors with an enthusiastic gathering who listened attentively while the Hon. Wm. Pugsley explained the policy of the Liberal Party. Dr. Murray, ex-Mayor of Campbellton occupied the chair and was supported on the platform by representatives from all over the county. In a few remarks Dr. Murray set the large audience in good trim to listen to the various speakers, and called on Mr. James Reid, who thanked the electors for the honor again conferred upon him in being selected as their Liberal candidate, and assured them that the needs of the county would be well looked after both by himself and the Hon. Mr. Pugsley, the Minister of Public Works, as in the past. Hon. C. H. LaBillois then followed, speaking in French and was closely listened to, while he went over the various phases of the Reciprocity Agreement, after which the Chairman called on the Hon. Mr. Pugsley who was received with enthusiastic cheering.

HON. MR. PUGSLEY SAID

MR. CHAIRMAN, LADIES AND GENTLEMEN:—

I have had the opportunity of appearing tonight before an audience of the Town of Campbellton. I may say to you that this very kindly reference made by Mr. Reid and by your Chairman, to the part I had in giving assistance from the Dominion Government to your town, touched my heart deeply, but let me say to you that nothing that I could possibly have done could have afforded me greater pleasure than to be able to comply with the request of your authorities after the great fire which practically destroyed the Town of Campbellton.

I want to say this to you, Ladies and Gentlemen, that it was not a very easy task to obtain that aid for this town. The reason was that upon two previous occasions,—one the great fire which destroyed the Town of Fernie, B. C.—the other the equally disastrous fire which destroyed a greater portion of Three Rivers in Quebec,—the Government had refused aid. Therefore, we were asking the Government to take an exceptional course. In the case of the Town of Campbellton, I do not wish to go into the details of the matter, but I desire to say to you, it was not an easy bit of work to get that grant for this town, and the matter of success is largely due to the energy, persistence and strong personality of my friend Mr. Reid, your late representative. (Applause.)

I do not want to take very much credit to myself for that, but I desire to give credit where it is due and that is largely due to Mr. Reid.

As I went around your town today and noticed the wonderful growth which has taken place since I was last here, observing as I have, that you have built up the town since the fire of 1910 upon better foundations than those upon which the old town was built and that you are building here a better and more beautiful town, it afforded me a great deal of pleasure and I can look to the little part I had in assisting you with the greatest possible pleasure. Coming here today and going round among your people, I notice there are some forms which used to be familiar, but are now absent. I was particularly struck about one old friend who is no longer with us. I was sorry to learn he has been stricken down with an illness likely to prove fatal, and he cannot be any more with you. I refer to my old friend, Mr. Mott, so long one of your worthiest and respected citizens. Before dealing with the great question I know is interesting to you all, and upon which I know, no matter what may be your own views, whether in favor or adverse, you would like to hear what I have to say, even though that may be but feeble,—before entering upon this great question of Reciprocity, let me refer for a short time to some matters which are of great importance to this community.

I have, as your Chairman has said, for many years taken a great interest in the Town of Campbellton, not because I am fonder of this part of the country than other sections of New Brunswick, but because I realize that, situated as the Town of Campbellton is, at the head of this magnificent bay and with this great and fertile country back of you, the Town of Campbellton has prospects for growth and development, unsurpassed by any other section of the Province of New Brunswick. (Applause.) And, whether rightly or not, I do like to see a town or community going ahead.

You have here a very fine harbor indeed and it has been my pleasure to co-operate with Mr. Reid as your representative, in giving increased accommodation for the shipping resorting now to this harbor, and going to come to it in greater quantities as the years go by. I think it is due to Mr. Reid that I should speak of those things. He has been successful in getting very great improvements in this harbor and also in the harbor of Dalhousie, also very prominently connected with one of the great industries of this country. In addition to what has already been done, Mr. Reid has not stopped with the accomodation which has already been afforded, because he impressed upon me the desirability of providing other increased wharf accomodation at Campbellton. I am happy to be able to tell you I put a substantial amount in the estimates for this. In accordance with that estimate, which has been partially approved by Parliament, I am happy to say, plans have been prepared and before very long tenders will be called for the providing of additional wharf accomodation besides the splendid berth which you now have and which will give accomodation for three additional ocean steamers. More than that it has been of great advantage to the community to have had constructed the interprovincial Highway Bridge at Matapedia,—also to Mr. Reid's credit.

Reference has been made to the International Railway. I am proud, sir, to have had my name associated with that important work. That should be of very great advantage to this town, because it opens up to your merchants, business men, and manufacturers, almost another province, a country rich in timber wealth, which is capable of being made rich in agricultural wealth, because there for over seventy miles on either side you find as good farming land as can be found in any section of the Dominion of Canada. And there is another matter in which I think you all take a interest and which Mr. Reid has done a great deal to promote and the construction of a railway and highway bridge across this river connecting the Town of Campbellton with the Quebec side, immediately opposite. Let me say to you this bridge was urged upon my attention by Mr. Reid, also by Mr. Marcil, the distinguished and able representative of Bonaventure, also by Mr. Lemieux now the Minister of Marine and Fisheries and representative of the County of Gaspe, and there has been placed in the estimates and voted by Parliament the sum of $75,000 towards the construction of this bridge. (Applause.)

So far as I am concerned, I realize the importance of this bridge, and you need have no reason to fear that with the co-operation of Mr. Reid as your member—as he will be on the 21st of Sept. (Cheers)—as a supporter of the Government of Sir Wilfred Laurier, as Prime Minister of this county—as he will be again, (Loud Cheers)—with the co-operation of the Hon. Mr. Marcil, who I believe likely to be elected by acclamation,—and with the co-operation of
