MR. G. T. PULKORD'S RETURN FROM THE WORLN'S GAYEST CITY.

A Reporter's Interesting Interview With

of General Value.

From The Recorder, Brockville, Ont.
Mr. G. T. Fulbord, who is understood to have been doing big things in Paris during the past winter and spring, introducing Dr. Williams' Pink Pills, has reached home with his family, and on the evening of his arrival was interviewed by a Recorder reporter, and asked to give an account of himself.

"Well," he said, in reply to a question on the status of the Pink Pill business in France, "of course it isn't altogether an easy market to introduce a foreign article into a strange market, but I don't think we can complain of the progress made, and it is gratifying to report that some, at least, of the Paris doctors are open to recognize a medicine of which the intrinsic merits can be demonstrated to them. One of the best of them—at Versailles, the Paris suburb where the Emperors used to keep their court—has given favorable testimony through the press of quite wonderful cures through the use of Pink Pills in his practice; and the Religiouses, an order of nuns like the Sisters of Charity, have also made an extensive use of Pink Pills in their charitable work and given strung testimonials as to their good effects."

Most of the navvies are thalians, and that the sub-contractors are engaging foreign labor while there are thousands to complaint. Last week a number of Italians started to do most a number of Italians started to do most five the grading with foreign labor.

The County Council having neglected to make any more reasonable offer than they did some time ago, it is almost the sub-contractors intend to do most all years of age five rote me 3 letters, which is have five almost which is have five almost which is have the last one is dated december the 5th 1874 his address was then they of the navvies are though the press of to make any more reasonable offer than they five the county will have an other will am Strothers. It is almost the new jail. The county will have the offer of the county will have five for the propose of the propose of the propose of the pr

"Pretty good. We have sold in the past twelve months a little over two million three hundred and sixty thousand boxes of Pink Pills."

"That is a pretty large order, isn't it?"

"It is the best twelve months' business yet. Look for a minute at what the figures mean. If all the pills were turned out into a heap, and a person set to count them, working 10 hours a day and six days a week, the job would take—I have reckoned it—4 years 21 days. 6 hours and 40 minutes, counting at the rate of 100 a minute. Or, if you want further statistics, it is somewhere about two pills a head for the combined adult population of Canada, Great Britain, Ireland and the United States. I don't give these figures to glorify the business, you will understand, but to enable you to make the facts tangille to an ordinary reader."

"Does Great Britain do its share in the business?" asked the reporter.

"Yes, I think we have had a record there. The head of a leading advertising agency in London, to whom I showed my figures, told me that no business of the kind had ever reached the same dimensions in England in as short a time; or, though we have only been working in England two years, there are but two medicines there that have as large a sale as Pink Pills, and one of these is over thirty years old, while the other has been at work at least half that time."

"How do you account for the way Pink Pills have 'ijmepd' the English market' then?"

"It is the best twelve months' business of the kind had ever reached the same dimensions in England two years, there are but two medicines there that have as large a sale as Pink Pills, and one of these is over thirty years old, while the other has been at work at least half that time."

"How do you account for the way Pink Pills have 'ijmepd' the English market' then?"

"It is the best twelve months' business is now felt over the problems of the steam shovel in Hunter-street between the hunter and the pill way men. Contractor Onderdonk is stufers and the problems of the strain the fellow of the strain

"No, not a bit of it; that is the worst feature of the fraud. No dealer can possibly know what is in Pink Pills; and if he did, he couldn't prepare them in small quantities to sell at a profit. They are not common drugs, and by no means cheap to make. I suppose I have spent from \$10,000 to \$12,000 since I took over the trade mark, in trying if the formula could be improved, and spent a share of it for nothing."

"What do you mean by "for nothing?"

"After I acquired the trade mark I saw that if the thing was to be made a suctored.

Turne beneficial results. I have already recommended your appliances to several of my friends similarly affected. Nours very sincerely, J. H. MICKLER, Supt.

BISHOP, RECTOR AND CURATE.

These Three Ecclesiastics Have Each Spoken Cordial Words in Favor of Dr. Agnew's Catarrhal Powder.

One of the most cordial endorsements

"After I acquired the trade mark I saw that if the thing was to be made a success it was imperative that I should have the best tonic ill that could be gotten up. Conseuently I obtained the advice and opinion of some of the most noted men in medicine in Montreal and New York—and expert advice of that sort comes high. I made the changes in my formula suggested by these medical scientists, and the favor with which the public has received the medicine demonstrates that it is the most perfect blood builder and nerve tonic known. However, I was anxious to still further improve the formula, if that could be done, and have since spent a great deal of money with that end in view. On going to London, two years ago, to place Pink Pills, I went into it again with the best medical men there, and as you know, the medical expert is not trade fraidly. I went into it again with the best medical expert is not too freindly to proprietary medicines; and, least of all, to a good o'yne; and I don't balme the doctors either. It isn't good for their business if a man can get for 50 cents medicine that will do him more good than \$50 in doctoring. Consequently advice came high, but I obtained the best there is, not only on this continent, but in Longitude.

Sample bottle and Blower sent on ceipt of two 3-cent stamps. S.

OVERWORKED HIS HEART

And Would Have Been a Dead M. but for Dr. Agnew's Cure for the Heart.

The whole trend of present day 1 is, not only on this continent, but in Lon-

ed doctors in that city for a three months' trial in his practice, with a view to getting suggestions for improvement; at getting suggestions for improvement; at the end of that time his answer was, "Leave it alone, it cannot be bettered, You now have a perfect blood and nerve medicine." This opinion cost me 10,000 francs, but I consider it money spent, as it determines the fact that the formula for Pink Pills is now as perfect as medical science can make it. And coming back to the question of substitution and imitations; what I have just told you will show what a poor thing it is for a man who goes to a store for Pink Pills to let something else be pushed on to him in place of them—more dreds of people in Canada who testify that had it not been for the prompt use of this medicine they would have been in other times in the stage of life to day are over-working what at any time, and under any circumstances, is the hardest worked organ of the body—the heart. So long as people will person do is to keep a remedy like Dr. Agnew's Course for the Heart close by This remedy is a heart remedy only, but is almost miraculous in its effects. In all cases of organic or sympathetic heart disease relief is secured within thirty minutes, and there are scores and hunder any circumstances, is the hardest worked organ of the body—the heart. So long as people will person do is to keep a remedy like Dr. Agnew's Course for the Heart close by This remedy is a heart remedy only, but is almost miraculous in its effects. In all cases of organic or sympathetic heart disease relief is secured within thirty minutes, and there are scores and hunder any circumstances, is the day are over-working what at any time, and under any circumstances, is the hardest worked organ of the body—the heart. So long as people will person day are over-working what at any time, and under any circumstances, is the hardest worked organ of the body—the heart. So long as people will person day are over-working what at any time, and under any circumstances, is the hardest worked organ of the bady—the heart. So long as people will person day are over-working what at any time, and under that had it not been for the prompt use of this medicine they would have been in the graves to-day.

It is a worn out thing like Blaud's pills—a formula in the French pharmacopoeia that has been a back number for years until a few store-keepers tried to push it on the strength of Pink Pills advertising. You can take it from me that a storekeeper who tells anyone that Blaud's pill (which is not a nayone anyone that Blaud's pill (which is not a anyone that Blands pill (which is not a proprietary at all, any one can make it that wants to) is in any way a substitute for Pink Pills is an ignoramus and never ought to be trusteed to sell medicine at all. A druggist as ignorant as that certainly isn't fit to put up a prescription and will poison someone one scription and will poison someone one in Canada. The wise man will
