but there are topics of paramount importance with a promptitude, energy, and solicitude which admit of occasional breaks without for the general weal that must make a deep being marred, and we consider the one on impression on the country; and we can witwhich we now enter, as belonging to that ness an unequivocal expression of satisfacclass. With this apology for the want of any tion by the people of this County, from recent In pursuance of my intimation in your last peculiar arrangement of facts, we proceed convictions that His Excellency is engaged

past. However people may differ as to the encouragement which is given to the preorigin and exertion of this influence, its per. sent delusive value attached to the timbered nicious effects are widely felt and lamented, tracts of the Crown. On motion of D. Williams, Esq. a committee was appointed to correspond with citizens of other portions of the State in relation to the subject, consisting of Messrs. Daniel

Under the Presidency of the late highlyrespected Judge Bliss, the country was perfectly satisfied with the conduct of public affairs. When Sir Howard Douglas' assumed the Government and announced to the Legislature "that a late appointment to a high official situation would enable him to lay open to the axe and the plough, large tracts of valuable land, which were then locked up in reserved superabundance," His Excellency that power would give rise, or of the difficul. ties he would have to encounter in controlling it. When the subsequent operation of this pow-Sir Howard would meanly yeild to a state of things at variance with efficient government. to the British constitution : but the only immediate corrective he could effect was the separation of the office of Surveyor General rom that of Commissioner of Crown Lands-John Wentworth, and yielded little or no emolument. Mr. Baillie first came to this country as Surveyor General with a salary of tions and grants. He was but a short time Lands, with an annual salary of £900 sterling. The duties of these offices were found incompatible, and when Mr. Baillie got his choice of rétaining either, he wisely made ed of. the best selection. Capt. Hurd's retention of Schwola -- We have learned, although not

We believe that the following Extra has mer occupant. These changes were attended by those vascillating systems for the disposal of the Crown Lands and Forests, which tollowed in succession like the waves on the sea shore, each ingulfing its precursor, and like it, after due turmoil and noise, ending The consequences of these untoward cir-

cumstances were-immense inconvenience to Mill Owners, obstruction to Timber Merchants and Lumberers, distrust and uncertainty in those who wished to acquire farming lands, and consequently the deterioration of settlement. A plain person might be simple enough to suppose it an easy matter to draw out the resources of the Province in a kindly spirit, to husband them with economy for the benefit of the people at large, to encourage the settler by a humane consideration of the privations he must endure, a benevolent disposition to alleviate them, and an ardent desire for his success; but, alas! how little he must know of the difficulties which mystification produces of the temper which the in-BILLS and Notes for Discount must be lodged flation of office begets of the profusion which cupidity, for sordid purposes, createsof the contempt which unexpected elevation speedily acquires for the humble and indigent -and of the prudent philosophy which teaches selfishness to seize on all within its grasp! It will hardly be expected that we should Yet these, he must learn, have been the bane in the prosecution of such vigorous means as

Crown Lands under the Royal Instructions, cluding opinion hazarded in that article has consequence? British subjects who boast of their loyalty, and of their repugnance to everything savouring of the United States, are flying in all directions to get hold of pine groves, mill sites, spruce lands and granite quarries, in order to make their spec out of extended. When it is reputed that one person has made his 30,000 dollars, another his 20,000, and another his 10,000, by merely getting a tallismanic ticket at the Crown Land office, thereby being enabled to convey his purchase to the Americans, and actually little dreamed of the perplexities to which American advances in hard dollars-when such is the report, it withers the hopes of persevering industry, and makes the affairs of er amounted even to an interference with the exercise of the vice-regal prerogatives, it was not to be supposed that the powerful mind of diffusion of competence and peace. We shall say nothing at present on the monstrous iniquity of whoever have the care of the King's subversive of political order, and anomalous of those who have purchased large tracts (who arenot concerned in mills, and even some of them ) are mere middle men between the Crown and the Alien; and that tracts may Perhaps it is not generally known that the thus be now conveyed indefinitely, while at the sametime a poor Lumberer must swear eral of Woods, which was long held by Sir any alien whomsoever in cutting the timber licenced to him. Nor will we now enter on an inquiry why the principle which ten years £250 sterling, and the tees arising from peti-200 acres of land, and a batchelor to 100, in the Province when he obtained the addi- should have been entirely abandoned, so that tional appointment of Commissioner of Crown any quantity of land is as accessible to a monied Yankee as to a meritorious Colonist.

We must break off here, but intend to follow up the subject in the same desultory manner while any thing remains to be complain-
