

TO THE CONSUMERS  
OF THE

## AERATED BEVERAGES.

The Medical Hall Belfast Ginger Ale, Soda Water, etc., made by us, we believe to be *pure, wholesome and beneficial.*

We purify the water by a system of subsidence and filtration originating with ourselves and giving the best results.

The flavoring principle of our Ginger Ale is PURELY VEGETABLE. Its agreeable ACIDITY is simply that of the LEMON FRUIT.

We pay especial attention to having the gas *Chemically pure* before charging the water with it.

To verify our belief, we submitted specimens of our manufacture to Professor J. Baker Edwards, Ph. D., D.C.L., F.C.S., with the following result:—

MONTREAL, June 11th, 1875.

This is to certify that I have made a careful analysis of the Aerated Waters, prepared at the Medical Hall Soda Water Factory, viz: Soda Water, Seltzer Water, and Belfast Ginger Ale, and I find them to contain only wholesome and beneficial ingredients, and are entirely free from metallic impurities. At the same time they are highly carbonated, and are of an uniform and excellent quality.

J. BAKER EDWARDS, Ph.D., D.C.L., F.C.S.

Professor of Chemistry, etc.
