WELLS, RICHARDSON & CO'S

IMPROVED BUTTER COLOR

A NEW DISCOVERY.

For several years we have furnished the Dairy men of America with an excellent artificial color for butter; so meritorious that it met with great success everywhere receiving the highest and only prizes at both International Dairy Fairs.

But by patient and scientific chemical research we have improved in several points, and now offer this new color as the best in the world. It will not color the Buttermilk. It

Will Not Turn Rancid. It is the

Strongest, Brightest and
Cheapest Color Made.

And, while prepared in oil, is so compounded that it is impossible for it to become rancid. BEWARE of all imitations, and of all other oil colors, for they are liable to become rancid and spoil the butter.

If you cannot get the "Improved" write us to know where and how to get it without extra expense. (16)

DEDERICK'S HAY PRESSES

are sent anywhere on trial to operate against all other Presses, the customer keeping the one that suits best. No one has ever dared show up any other Press as Dederick's Press is known to be beyond competition, and will bale at less expense with twice the rapidity and load more in a car than any other. The only way inferior machines can be sold is to deceive the inexperienced by ridiculously false statements, and thus sell without sight or feeling, and swindle the purchaser. Working any other Press alongside of Dederick's always sells the purchaser a Dederick Press, and all know it too well to show up. Address for circular and location of Western and Southern storehouses and Agents, P. K. DEDERICK & CO., Albany, N. Y.

My Vegetable and Flower Seed Catalogue for 1883 will be sent FREE to all who apply. Customers of last season need not write for it. All seed sent from my establishment warranted to be both fresh and true to name, so far, that should it prove otherwise, I agree to retil the order gratis. My collection of vegetable seed is one of the most extensive to be found in any American catalogue, and a large part of it is of my own growing. As the original introducer of Early Ohio and Burbank Potatoes, Marblehead Early Corn, the Hubbard Squash, Marblehead Cabbage, Phinney's Melon, and a score of other new Vegetables, I invite the patronage of the public. In the gardens and on the farms of those who plant my seed will be found my best advertisement. James J. H. Gregory, Marblehead, Mass.

The Planet Jr. Seed Drill, Wheel Hoe, Horse-Hoe, Grubber, Corveter, etc., positively have no equal. We show above, our Combined Drill, also the Horse Hoe as a Cultivator and Hiller, and as a universal Corveter. We are very certain that farmers and gardeners cannot afford to be without our labor-saving tools. Study our Catalogue carefully, and agree with us. Our 32 page Catalogue, with 40 engravings and chapter on proper Cultivation of Crops, guaranteed to interest every one working the soil, will be sent to your own address free upon receipt of ten names of neighbors, most interested in farming and gardening. R. L. ALLEN & CO., Printers and Sole Manufacturers of the Planet Jr. Goods, 127 & 128 Catharine St., Philadelphia, Pa.
