KOSMOS (formerly *V. P. Journal*) is a monthly journal published at the beginning of each month, and is devoted to Science, Literature, Education, and the popular treatment of subjects of social, intellectual, and moral importance. It has been established and is controlled by the Science Association of Victoria University, which is composed largely of graduates, but is not restricted to either local or sectarian interests. Subscriptions may commence with any month. Extras to subscribers, 10 cents.
