FITCH'S LECTURES ON TEACHING.

"One of the most important educational treatises of the year."

LECTURES ON TEACHING. Delivered in the University of Cambridge. By J. G. Fitch, M.A. Sixth Edition. 12mo. 436 pp. \$1.25.

"This is eminently the work of a man of wisdom and experience. He takes a broad and comprehensive view of the work of the teacher, and his suggestions on all topics are worthy of the most careful consideration."—*New England Journal of Education*.
 "This book indeed treats of practical subjects in a practical way.... The book is an excellent one, and no teacher can read it without being profited."—*Penn School Journal*.
 "Mr. R. H. Quick says in *The Acad My*: 'Young teachers (and old teachers too) may learn much from this volume, but they may gain from it a still greater good—they may get a notion how much there is to learn.' The book is especially valuable to school superintendents, as it was addressed to a class of public masters."—*Illinois School Journal*.
 "The lectures will be found most interesting, and deserve to be carefully studied not only by persons directly concerned with instruction, but by parents who wish to be able to exercise an intelligent judgment in the choice of schools and teachers for their children. For ourselves, we could almost wish to be of school age again, to learn history and geography from some one who could teach them after the pattern set by Mr. Fitch to his audience.... But perhaps Mr. Fitch's observations on the general conditions of school work are even more important than what he says on this or that branch of study."—*Saturday Review*.
 "It comprises fifteen lectures, dealing with such subjects as organization, discipline, examining, language, fact knowledge, science and methods of instruction; and though the lectures make no pretension to systematic or exhaustive treatment, yet they leave very little of the ground uncovered, and they combine in an admirable way the exposition of sound principles with practical suggestions and illustrations, which are evidently derived from wide and varied experience, both in teaching and in examining."—*Scotsman*.

REDUCED TO FIFTY CENTS.

CALDERWOOD ON TEACHING.

ON TEACHING: ITS ENDS AND MEANS. By HENRY CALDERWOOD, LL.D., F.R.S.E., Professor of Moral Philosophy in the University of Edinburgh. New edition, with additional chapter on Home Training. 16mo. 50 cts.

"For young teachers this work is of the highest value..... It is a book every teacher will find helpful in their responsible work."—*N. E. Journal of Education*.
 "Eminently sensible and suggestive."—*Scotsman*.

THEORY AND PRACTICE OF TEACHING.

By the REV. EDWARD THRING, M.A. 12mo. \$1.60.

"We hope we have said enough to induce teachers in America to read Mr. Thring's book. They will find it a mine in which they will never dig without some substantial return, either in high inspiration or sound practical advice. Many of the hints and illustrations given are of the greatest value for the ordinary routine work of the class-room. Still more helpful will the book be found in the weapons which it furnishes to the schoolmaster wherewith to guard against his greatest danger, slavery to routine."—*Nation*.

SOME THOUGHTS CONCERNING EDUCATION. By John Locke. With Introduction and Notes by the Rev. R. H. Quick, M.A., author of "Essays on Educational Reformers." 16mo. 90 cents.

"There is no teacher too young to find this book interesting; there is no teacher too old to find it profitable."—*School Bulletin*.

THE ELEMENTS OF THE PSYCHOLOGY OF COGNITION. By Robert Jardine, B.D., D.Sc. 12mo. \$1.50.
