Wheat Stock Figures Bullish.

The slackening up of export trade in wheak, coupled with the lineral movement of northwestern supplies and of the new wheat in Manitona, were responsible for a consideracie gail in United States and Canadian stocks United States and Canadáan stocks during Occoper, says Bradstreets. The result has been a gam for that month of 11,853,000 bushels. This was doubt the gain shown in October a year ago, but over 7,000,000 bushels less than do October, 1830, and about equal to the gain shown in October, 1838.
