

# "Pandora" Range

## Entirely New

New patterns were designed and carved for every part of the Pandora range.

So many new features and improvements have been embodied in its construction that much of their fuel and labor-saving value would have been lost if any old patterns had been used.

The Pandora has been under construction for more than a year, and six months were spent in testing and perfecting the range.

The fire-box, hot-air flues, body and oven linings, dampers, etc., all combine to make a perfect baking oven.

Bold, rich carving, extra highly polished nickeling, heavy leg base and sheet steel warming closet, give the Pandora a rich, elegant appearance not seen in the older makes of ranges.

Sold by all enterprising dealers. Booklet free.
