THE GBAND TRUNK BAILWAY.

THE NET EARNINGS OF THE HALF YEAR SHOW AN INCREASE OF ABOUT 20 PEB CENT.

The half yearly report, covering the six months up to June 30th, has only just been issued, it was submitted at the recent meeting in London and gave greet satisfaction. By it, it appears that the net earnings, including interest items, were £515,171, against £431,644, an increase of nearly 20 per cent. Out of this surplus revenue £313,821 were paid for interest on debenture stock, rents, interest on bonds, loans, &c, leaving a bai-ance of £201,349, which divided in accord-ance with the provisions of the deed of union, yields in the proportions of 70 per cent. to the Grand Trunk share capital, the sum of £140,944, and of 30 per cent. to the Great Western shero capital the sum of £60,404. These amounts permit of the full half year's dividend at the rate of 5 per cent. per annum on the first and record preference stocks of the Grand Trunk, and leave a balance of £2,850 to be carried forward, and the directors recommend the payment of the full dividend of five per cent. on the Great West. ern preference stock, and of 3 per cent. on the ordinary stock, leaving a balance of £43,376 for adjustment at the ond of the year. The sum of £33,017 was expanded during the halfyear, and a further expenditure of £49,452 is to be made in the purchase of securities of the Central Vermont Bailroad Company and the Concolldated Bailroad Company of Vermont, with a view to the control of the Central Vermont System, which is in course of reorganization. The Central Vermont system, 570 miles long, is the main connection of the Grand Trunk system with the New England States, and a vest amount of traffic is exohanged between the two systems. The com-pany is now operating the Midlaud of Gaussia Bailway system, and of the total share capital ol \$6,600,000 of the Concolidated Midland system, an amount of \$4,316,920 is hold by the Grand Trunk Company. The other sgree-ments ratified by the chareholders related to an extension of the period for the construction of the Jacques Cartier Union Bailway, and the taking over of the whole of the Welland Ballway, from Port Dalhousie to Port

taken to guarantee a dividend of three per cent on the stock of the company has, as before reported, produced considerable surprise among bankers and financiers generally. The general impression remains the same, name. ly, that it is hardly the thing for a Govern-ment to undertake, or to enter into, the business of guaranteeing the dividends of any stock company, and more especially of a subeldized company like the Canadian Pacific. The action of the Government affected the stock, which has risen some ten per cent, as was evidently intended. The effect on the money market will be very slight, if any, as it will not bring any surplus funds into the market. Good mercantile paper is discounted at 7 per cent., and advances are made on stocks at 51 per cent, call. Storling exchange is easy at 108 for bankers 60-day bills, 1081 to 1081 counter.

to 1081 counter. The stock market this morning was not very active and prices were barely steady in most instances. Oauada Cotton stock was held at 60 and Dundas at 70. As far as the cotton goods market is concerned there is every hope for the future if the principal mills are shut down for a few months. bright speck in a dark sky is the fact that stooks in most country stores are not large, as the wary storekeeper has been buying from hand to mouth, anticipating all the time that tions piloes would go lower, and that he had only to wait to get his stocks at cheaper rates. The cute storekeeper was right and he can rejoice. We believe, however, that prices are now at bottom, as the failure of a Liverpool cotton firm reported to day by cable is not likely to have any effect here. At mid-day North West stock, which closed last night at 68s, had risen to 70s, with 71s asked. Richelieu stock was not lower up to noon, as the St. Francis is not owned by the company, which is merely a stock-holder. The whole market up to one c'clock was barely steady, and changes were unimportant. Canada Pacific, which closed last night at 62], dropped to 61.

## WEEKLY REVIEW - WHOLESALE MARKETS.

The amount of business transacted by wholesalers during the week has shown no perceptible increase or dimination. Mer-chants generally give a cheerful expression of views, though faw go so far as to say that the output is equal to that of last year. Things are not exactly what they seem or what they ought to be, but no immediate cause of anxiety can be discovered. The Goverment yielding to pressure, and a consideration of some sort, not officially stated, has guaranteed three per cent. of the five per cent, dividend of the Canadian Pacific railway, on the total capital stock of one hundred millions. The guarantee is for ten years. The newspapers have been told that the company has agreed to deposit twenty to twenty-five million dollars with the government as a consideration for this guarantee, but the real facts will not be known before the assembling of the House. The action of the government has given a temporary stability to Cana. dian Pacific stock and to bank stocks generally. We have no particular at-tention to pay to most branches of trads. Manufacturers of furs are still busy, and as the requirements of the coming season will in all probability be large, a good winter's trade may be reasonably counted on. The failure of Taylor, Bobertson & Oo. will probably bring down one or two small and weak houses, but apart from that which has already been discounted, this trade is generally in a healthy state. GROCERIES-Prices of sugar have ruled very firm at 8% o for round lots of granulated and 9 to 9% o for smaller quantities. Yellows are also firm and unchanged at 7 to 8% . A bottor demand was experienced to day which looks as if the recent activity might be resumed. The Halifax and Moncton refineries are completely out of stock. We understand that Montreal refiners have recent-ly bought up most, if not all, of the raw sugar in the Lower Provinces. In molasses there is no particular change, but prices are if anything a little casier, Barbadoes being offered at 460, Porto Rico 430 to 44c, Antigue 42c to 42 to, and Trinidad 410 to 412c. Syrups are quiet but steady at 31c to 53 as to quality. Teas-There has been a fair onquiry for medium to good medium Japan teas, and sales aggregating THE KEY TO HEALTH. BURDOCK BLOOD

Holloway's Ointment and Pills .- During every bresk of wintry woather exertions should be made by the efflicted to recover health before unremitting cold and trying torms sot in. Throat allmente, coughe, Theezings, asthmatical affections, shortness, of breath, morning nauses, and accumulations of phlegm can readily be removed by rubbing this fine derivative Ointment twice a day up-on the chest and neck. Holloway's treatment is strongly recommended with the view of giving immediate ease, proventing prospactive danger, and effecting permanent relief. These all-important ends his Olniment and Pills can accomplish, and will surely preevat incidious diseases from fastening on the constitution to display themselves afterwards in those disastrous forms that will probably embitter life till death itself is almost prayed for.

## FINANCIAL. TRUE WITNESS OFFICE, TUESDAY, Oct. 30, 1883.

New York stocks at midday were unsettled, half the list being lower and the other half elightly better. Canada Pacific opened at 623 and fell to 60], then recovering to 61. A clique of speculators in New York, prompted by conflicting rallway interests, is doing its utmost to raid the stock. This is said to have prompted the company to obtain the Government guarantee, as damaging stories were floated on Wall street against the road and the lands through which it passes. St. Paul and Manitoba sold to day in New York at 108 and 107]. Central Pacific was about sleady at 65, and Union Pacific at 88]. Valencia Baisins-Cables have just been received from Denia reporting a firmer feeling there, and consignment lots by the Mossbrow have been ordered to be put into store unless a certain price can be realized, which we believe is between 710 to 71c." Buyers, however, appear to be waiting for the auction sale of Mesans. J. M. Douglas & Co., when representatives of the leading firms of the Dominion are expected to be present. Prices here are quoted firm at 70 to 72c, according to brand.

Day Goops .- The demand has been ohiefly for heavy woollens, blankets, &c., and the country is not so full of cottons as to enable. retailers to be independent, as we note that a number of urgent orders have been filled within the past few days. The cotton trade, however, is still in an unsettled condition, owing to the late unweldly production, and until satisfactory arrangements are made to promptly curtail it, till such time as the con-sumptive demand fairly overtakes it, there will be no lasting improvement in the situation.
