METALS AND HARDWARE.—A fair business has been doing since last writing in iron and some other lines of heavy goods, due doubtless to the near approach of the close of navigation; and transactions aggregating several hundred tons are reported, principally Summerlee at \$18.50 ex-wharf, with some small lots of Nova Scotia iron at quotations. In no line is there any change of prices. OILS, PAINTS AND GLASS.—There has been some cutting of prices in glass, and it is reported there have been some sales of lots to Western points at \$1.20 for first break, and corresponding prices for the other grades: We revise prices accordingly. Turpentine is firm at the advance of last week; linseed oil firm at quotations, and it is claimed should be higher, as prices have advanced ten shillings in England. Other lines unchanged.

TORONTO MARKETS.

TORONTO, November 9th, 1893.

DRUGS.—Things are just a little quiet, and new features in the trade are not to be found. The general movement is limited; that of druggists' sundries, however, as the season advances, continues to increase in volume. Values are unchanged; opium, which abroad has been weak and unsettled, has gathered if anything a little strength; morphia, too, shows a slightly firmer front. Money is coming in none too promptly.

FLOUR AND MEAL.—Business in flour circles continues to be in a depressed state; the market shows no improvement, quotations remain unchanged, and buyers of any quantity would be given still lower figures. The demand for oatmeal is good, and the movement fairly large. Rolled wheat also continues in good request. Bran is in active demand, while shorts are moving moderately well.

GRAIN.—Wheat has declined, and even at the lower prices is dull; deliveries continue to be fairly large; the export demand is very limited; the altered quotations stand as follows: Winter wheat, No. 1, 57 to 58c.; No. 2, 55 to 56c.; No. 3, 53 to 54c.; Manitoba, hard, No. 1, 71 to 72c.; No. 2, 70 to 71c.; No. 3, 63 to 64c. per bush. A dull market in barley is also reported; a few enquiries have come from the United States, but prices quoted would leave no margin for either the shipper or farmer and so no trade is taking place. Deliveries of oats, although liberal, are not so free as they were a week ago; the market is steady and prices unchanged. Buckwheat is in good demand, especially in the export trade to Hamburg, but the principal part of this trade is confined to the eastern counties. Some enquiries from New York for rye have been received; it is wanted for export.

GROCERIES.—During the week a fairly good trade has been done. In coffee green Rio continues scarce. The consumption of currants is increasing as a result of the present low prices; people appear, also, for the same reason to prefer the finer fruit. Advices have been received from London stating that quotations on Valencia raisins have advanced 1s. a cwt. Shipments of new Grenoble walnuts arrived here on the 8th; this is fully three weeks in advance of the first direct shipment last year. The demand for sugars continues fairly good; values have shown lower tendencies and on Monday a decline of ½c. per lb. took effect. The canned goods situation shows no change; values in vegetables having, if anything, firmer tendencies.

HARDWARE.—Some fair orders for shelf goods have been received of late, but the number of orders taken is more noticeable than the quantity of goods ordered. Values are steady and few or no changes in quotations are ex-
