

Introduction

Contents

The purpose of this research is to create data in order to grasp the market trend and the future prospect of each functional materials (substance) in the fine ceramics sector.

Introduction	1
I. Function - Material - Application - Issue	2
II. Applications of Major Substances by Shapes	6
III. List of Participant Manufacturers & Their Product Lines	9
1) List of Major Manufacturers	11
2) Grouping of Manufacturers by Material	16
3) Example of Development Organization (Hitachi Metals, Ltd.)	20
IV. Consumption of Major Materials Used for Ceramics Production	22
V. User Trend by Material	30
1) Laminated Ceramic Capacitor	30
2) Piezoelectric Device	32
3) Thermistor	41
4) Varistor	46
5) Infrared Sensor	50
VI. Super Fine Particles of Metal and Ceramics	61
VII. Evaluation Method of Functional Materials and Organizations Providing Evaluation Services.....	61
