

B. specific flight patterns for routine air sampling flights;  
C. the number and base location of inspection groups;  
D. the equipping of all components of the System and the standards and specifications which equipment to be used therein must meet.

7. A. When special aircraft sampling missions are undertaken, the Administrator shall appoint two qualified members of the Organization staff to accompany each aircraft as technical operators. The technical operators shall, in accordance with the provisions of Article 7 of Annex I, verify the execution of the agreed flight plan; operate the sampling equipment; direct sampling operation; make appropriate arrangements for the safe delivery to the Organization of the samples collected; and report on the mission to the Administrator.

B. (i) The technical operators shall not be nationals of  
(a) any Party exercising jurisdiction or control over territory in which the event under investigation may have occurred, or of  
(b) any original Party which may be associated with the Party in paragraph 7 B (i)(a) of this Article, or of  
(c) any Party which may be associated with any original Party to which paragraphs 7 B (i)(a) or 7 B (i)(b) of this Article may refer;

nor, subject to the provisions of sub-paragraph B (ii), shall they be nationals of any Party exercising jurisdiction or control over territory in the air space over which samples may be taken.

(ii) On flights investigating events which may have occurred in territory under the jurisdiction or control of the USSR, the technical operators shall be nationals of the United Kingdom or the United States. On flights investigating events which may have occurred in territory under the jurisdiction or control of the United Kingdom or the United States, the technical operators shall be nationals of the USSR.
