

ASIA POWER GROUP

Bringing 150 years of world-class experience to China

Asia Power Group, based in Hong Kong, is owned by three powerful Canadian companies – the two largest electric utilities in North America (Ontario Hydro and Hydro-Quebec) and the diversified financial holding company, Power Corporation of Canada. Asia Power Group is dedicated to helping Asian countries develop, finance, build and operate hydro-electric and thermal power generating plants, power transmission systems and electrical distribution networks.

"No other independent power producer currently operating in Asia can boast the depth of knowledge, experience and skill which Asia Power Group can tap and which is now available to governments and private investors anxious to help alleviate the power shortages that restrict economic growth."

Gerald I. Murdock
President & CEO
