

- (iii) the intermediate survey shall include an inspection of the structure, boilers and other pressure vessels, machinery and equipment, the steering gear and the associated control systems and electrical installations to ensure that they remain satisfactory for the service for which the ship is intended. In the case of tankers, the survey shall also include an inspection of the pump-rooms, cargo bunker and ventilation piping systems and associated safety devices and the testing of insulation resistance of electrical installations in dangerous zones;
 - (iv) the annual survey shall include a general inspection of the structure, machinery and equipment referred to in paragraph (b) (i), to ensure that they have been maintained in accordance with regulation 11 (a) and that they remain satisfactory for the service for which the ship is intended;
 - (v) the inspection of the outside of the ship's bottom and the survey of related items inspected at the same time shall be such as to ensure that they remain satisfactory for the service for which the ship is intended.
- (c) The intermediate and annual surveys and the inspections of the outside of the ship's bottom referred to in paragraphs (a) (iii), (a) (iv) and (a) (v) shall be endorsed on the Cargo Ship Safety Construction Certificate."
