

9th March, 1921.

Dr. Adams,  
McGill University,  
Montreal.

Dear Dr. Adams,

Mr. Roberts, of 604 Drummond Building, Montreal, the head of the Canadian Auto Corporation, has approached me to find out if there is anyone amongst our students graduating in commerce, who would be interested in an opportunity to establish himself with Mr. Roberts in the business of the above mentioned Corporation.

Mr. Roberts outlined that his Company had control of a manufacturing plant at Sherbrooke where they propose to manufacture motor cars and trucks. He gave me to understand that the Company could immediately get the contract for the manufacture of 3500 cars and 2700 trucks for the foreign market.

The legal advisors of the Company in Montreal are Messrs. Perron, Taschereau & Rinfret, while the Montreal Trust Company are acting as financial agents.

Mr. Roberts was very enthusiastic concerning the prospect of the Company.

Will you please give these facts to the graduating class.

Ever yours faithfully,
