

THE GREAT SOUTH AMERICAN NERVINE TONIC

—AND—

Stomach and Liver Cure

This new and valuable South American medicine possesses powers and qualities hitherto unknown to the medical profession. The discovery of this great Nervine Tonic is regarded by all who have observed its wonderful curative effects upon the diseased of our own country as one of the most valuable medical discoveries of the Nineteenth Century. This medicine has completely solved the problem of the cure of Indigestion, Dyspepsia, and diseases of the general Nervous System. It also cures all forms of failing health from whatever cause. It performs this by the Great Nervine Tonic qualities which it possesses, and by its great curative powers upon the digestive organs,—the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body and as a great renewer of a broken down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a universal preventive of this fell destroyer when used in the early stages of the malady. It is very important, however, to begin the use of the Nervine on the first intimation of weakness of the breast, loss of flesh or chronic cough. The way to cure Consumption is to prevent it becoming seated on the lungs, and this can be accomplished by the early and persistent use of this great Constitutional Restorative. It is a marvellous cure for nervousness and restlessness of children, of young ladies, and of females of all ages. Ladies who are approaching the critical period known as change in life should not fail to use this great Nervine Tonic almost constantly for the space of two or three years. It will carry them safely over the danger. This great strengthener and curative is also of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.
