act will give the franchise over to a new company. It will be the same when the Toronto Railway Company franchise expires in 1921. We must buy out the power companies, radials and the Toronto Railway Company. The Metropolitan Railway can , onl be bought at a favorable price thru the Hydro. I will present a verbal re-

port on Thursday of the information I have been able to collect of the terms upon which the Metropolitan Railway can be purchased."

A Line of Cheer Each Day of the Year By John Kendrick Bangs. (Copyright, 1918, by the McClure Newspaper Syndicate.) How Can I Save---With Profit?

Many wage-earners are asking themselves this question.

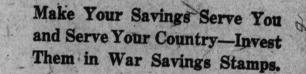

They do not want to put a quarter in the bank at a time, and be fore they know it, it is gone for trifles.

The Government has provided a simple plan to enable you to save that quarter in such a way that it will earn you more money.

Twenty-five cents buys a Thrift Stamp. Sixteen Thrift Stamps become a War Savings Stamp, for which the Government will pay you \$5.00 in 1924.

If you lend the Government your savings in this way, you can make your money earn over $4\frac{1}{2}$ % compound interest as often as you save \$4.00 odd. That is more than Savings Banks pay you.

This is not only easy and profitable investment, but patriotic investment, because the Government needs money for the heavy financing of the reconstruction period.

The Cost of War and Strikes.

This haggling over a few cents an hour in the street railway strike seems rather absurd after the way in which we lavished millions on all sorts of war materials with wages at top notch. It is not the men's fault that they cannot exist like human beings on less than 55 cents an hour. If we beat them down a cent or two it means the difference between discontent and satisfied service. We have allowed the food controllers, whoever they may be, producers, jobbers, commission men. storage men, middlemen, retailers, to put up prices, and the work -. men have no option but to pay these prices. When they have not the money
