LEAGUE ON LEAGUE.

League on league the line of armies lengthen on from hill to vale, Whilst the broad, strong breast of Ocean bears ten thousand line of sail. 'Neath the Southern Cross to-morrow we shall hear of victories won; Hark! The mighty God of Battle calls with trumpet tongue, "Well done! England, England, on to battle, thine oppression's leagues to fight, With the consciousness of duty. God detend you in the right."

All too long the boastful Boerland taunts us with Majuba Hill;
Even numbered, peace declining 'til' we smite his brazen gill;
Even numbered, he shall meet us sword for sword, and man to man,
Virile prowess thus attesting England's latest martial plan,
O'er poor Colley's blood exuiting hell hoards 'gainst a little band.
Raise your prayers, ye blatant burghers, Britishers are in your land!
Toronto, Oct. 20, 1899.

—W. A. Sherwood.

"Now," He Says, "It's Possible."

The Yankees have worked wonders in Cuba. They are more than doubling the output of the Havana tobacco.

G. W. Muller says that during the rebellion against Spanish rule it was not possible to put a bit of Havana leaf in a five-cent eigar made in Cauada, while very few 10-cent eigar made in Cauada, while very few 10-cent eigars contained more than a wisp of Havana leaf. Now, he says, it is possible to get a good quality of Havana leaf at a fair price, and he has commenced the manufacture of the "Cambridge," and "Oxford" eigars, which he will guarantee better than many eigars sold at double the price. They have a full, mild flavor, and smoke evenly and clear. He sells five for 25 cents, or \$4.50 per 100. His first week's sales were enormous.

oung man down here called H. Bourassa M.P. for Labelle, who has sent a letter that he has resigned his seat in the House of/Commons. Mr. Bourassa has, he says, also sent his letter of resignation to the speaker of the House. The letter is as fol-

Speaker of the House. The letter is as follows:

To the Right Hon. Sir Wilfrid Laurier, P.C., G.C.M.G., Prime Minister of Canada:

Sir,—In a statement published in The Toronto Globe on the 4th inst., you have said with reference to the sending of Canadian troops to the Transvaal:

"As I understand the Militia Act, and I may say that I have given it some study of late, our volunteers are enrolled to be used in the defence of the Dominion. They are Canadian troops to be used to fight for Canada's defence. There is no menace to Canada, and, although we may be willing to contribute troops, I do not see how we can do so. Then, again, how could we do so without Parliament granting us the money? We simply could not do anything. In other words, we should have to summon Parliament."

In view of that statement I was expecting the immediate summoning of Parliament, where every representative of the people could have appressed bits.

Under-Secretary of State for War Explains the Reasons in the Imperial House Frontier of 2020 Miles Must Be Covered—The Calling Out of the Militia Reserves Sanctioned.

London, Oct. 20 .- In the House of Commons to-day the first Lord of the Treasury and Government leader, Mr. Arthur J. Balfour, moved an address of thanks to He

Mr. John Dillon, Nationalist member for East Mayo, moved an amendment, declaring the embodiment of the militia unneces-

This was rejected by a vote of 299 against In reply to a question regarding the rumored purchase of Delagoa Bay by Great

Britain, Mr. Balfour said no arrangement had been made for such a transaction. The Island of Samoa. Replying to a question as to Samoa, he said no decision had yet been reached with reference to the future administration of doubtful the islands and the matter was still under

The House having gone into Committee of Supply, the Parliamentary Under Secretary of State for War, Mr. George Wyndestimates. In the course of an explanation of the nature of the call and of the to it, he said: "The British military sysem, if it is worth anything, must enable depriving our homes of protection. We cannot be satisfied unless we can send such n expedition without destroying the ma-niners for maintaining our army abroad, he result of the recent test has been a course of legitimate satisfaction and is

an encouragement to further effort in the ed and Native Wines. Britain's Army Corps Going Out. Dealing with the army corps now going out, Mr. Wyndham said it numbered 24,000 regulars, all trained and mature men, in-

cluding 6000 cavalry, 114 guns, 261 wagons, from 9000 to 11,000 horses and 14,000 mules. It had been necessary to call a portion of the reserves in order to bring some of the regiments to their full war strength. The Government, therefore, had called for 25,000 men. Assuming that 21,000 would be effective—and this expectation had been fully verified—the British force in the field would consist of 26,000 men with the colors and 21,000 reservists.

Why the Force is So Large. "This may seem a large force," said Mr.

"This may seem a large force," said Mr. Wyndham, "but we must reflect that the two republics, by their juxtaposition and situation have a strategical advantage, enabling them to concentrate for attack at any point on a frontier of 2020 miles, a frontier everywhere hundreds of miles from the sea: and when we further consider the area involved, which is inhabited by 3, 300,000 natives, it is clear that considerations of humanity dictafe that the Empire should display an unmistakable exhibition of strength, in order to rescue one of its greatest dependencies from the horrors of doubtful and dilatory operations."

24,000 Men Off in Six Days.

In explaining as to the organization of

"By despatching these 33 battallons," he continued, "We destroy 33 machines for training men and instructing officers in their simplest duties; and we break up the more complex organism of brigades necessary for the instruction of generals and staff officers. The Government, therefore, propose to embody 33 battallons of milities.

principle of our army system if we had mobilized without militia, that principle being that, when all the battallons of a regiment are sent abroad, we must call out the affiliated militia battallon and form a provisional battallon by welding the militia and the men under 20 left behind. Strengthening the Cavalry.

"Cavalry and field artiliery are strengthened differently. We propose to raise seven cavalry regiments remaining at home to a higher establishment and then raise the 19 home batteries to six-gun establishments. The steps I have described will not be made to assist in the war, against the two republics, but to put the army in the same position as it was before the war.

"Such steps are necessary unless we are content, firstly, to exist as a nation on sufferance of other powers, and, secondly, to allow to perish the army machine contrived during the last 19 years at a great sacrifice on the part of the taxpayers, to protect these islands and to train forces to defend the Empire over sea."

Mr. Wyndham concluded with a eulogy of the commander-in-chief, Lord Wolseley, and of the offers of the colonies.

In explaining as to the organization of the enormous transport service, Mr. Wyndham said the reason it was not mobilized earlier would be apparent when he declared that the embodiment of three army corps for home defence and the despatch of two army corps to a country where facilities of locomotion existed would be a graver, yet a shorter and easier task. By one of two army corps to a country where facilities of locomotion existed would be a graver, yet a shorter and easier task. By one of two army corps to a country where facilities of locomotion existed would be a graver, yet a shorter and easier task. By one of two army corps to a country where facilities of locomotion existed would be a graver, yet a shorter and easier task. By one of two army corps to a country where facilities of locomotion existed would be a graver, yet a shorter and easier task. By one of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence and the despatch of two army corps for home defence army had been defence and the offers of the commander-in-time.

The trish Opposed It

The Irish Opposed It

The Irish Opposed It

The Irish Opposed It

The Irish Opposed the estimates.

Mr. Michael Davitt, Nationalist member for South Mayo, characterized the war as a "Hidoon and damnable massacre." He said the reason proposed the estimates.

Redmond Rambled.

William Redmond, Parnellite member for East Clare, vigorously denounced the policy of the Government and was repeatedly called to order by the Speaker for rambling. He contrasted the attitude of Great Britain towards Venezuela with her attitude towards the Transvaal. In the former case, he said, the United States said that Great Britain would have to arbitrate and the
