Taking the grain exhibit all thru, it was conceded by all that its growth from the little outside show of four years ago to the present proportions was a triumph indeed for its importance and for those who foresaw the possibilities at that time. Of course many improvements in placing the exhibits might be made. Some suggest taking the whole of the north alsie and using it for this purpose. Guelph. Dec. 11.—(Special).—The great live stock show at Guelph closed its doors to-night. Big express drays are carting out the numberless crates of prize and valued chickens to entrain for their several destinations. Cattle, sheep and hogs are betaking themselves to the farms, while the grain and seeds are being carried home to hundreds of new farms to do their silent work for field reform. The Judging competition and the sale of the oats from the grain crop compatition were the two attractions for to-lay.

Auctioneer Ingram, attended by the efficials, put the whole 150 bushels on sale at 10 o'clock. The attendance at this sale was hardly as large and entusiastic as was expected, but this sa accounted for by the fact that the show being largely over many farmers had gone last night to their homes. However, the many who did come wanted the grain. The Banner oats are our favorites. In the crowd, altho not a bag of this variety won any prize money. The bags each held two bushe's and were sold along with the grain, Prices averaged around the \$1.50 mark for each bag, which was indeed moderate. The New Sensation Oat seems have a many admisser.

There was some objection to stateowned cables expressed in the word socialism, but Sir Edwar Sassoon emphasized the difference between socialism and imperialization.

Never:

He was more particularly concerned with a state-owned cable service across the Atlantic. It was the logical sequence of the establishment of a Pacific cable. This one step would be of incalculable importance; it was a feasible scheme, one that could be worked on a paying basis.

# Free Receipt For Weak Men

Gentleman Will Send It Confidentially, Free and Sealed, to Every Weak and Unable Man Who Writes for It.

I have in my possession a prescription for nervous debility, lack of vigor, weak-ened manhood, falling memory and lame back, brought on by excesses, unnatural drains or the follies of youth, that has cured so many worn and nervous men

back, brought on by excesses, unnatural drains or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician, who has made a special study of men, and I am convinced it is the surest acting combination for the cure of deficient manhood and vigor-fallure ever put together.

I think I owe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what, I believe, is the quickest acting, restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and, so cure himself at home quietly and quickly. Just drop me a line like this: Mr. A. E. Robinson, 3933 Luck Bidg. Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordinary sealed envelope, free of charge.

Seed grain of all kinds, with bag and straw samples, were on show. These grains were from the general crop or from the seed selection of the second year.

In corn, peas, wheat and potatoes, interest was maintained to the last, and to hear farmers talking about their experiences and exulting in the knowledge from their own trials, was a sight indeed gratifying to the directors.

The Hog Clauses.

It was felt by some that the higgs should be taken to another situation, as the whole of the basement was needed for cattle.
